The Notion Of Family:

The Notion of Family LaToya Ruby Frazier, Dennis C. Dickerson, Laura Wexler, Dawoud Bey, 2014 In this her first book LaToya Ruby Frazier offers an incisive exploration of the legacy of racism and economic decline in America's small towns as embodied by her hometown of Braddock Pennsylvania The work also considers the impact of that decline on the community and on her family creating a statement both personal and truly political an intervention in the histories and narratives of the region Frazier has compellingly set her story of three generations her Grandma Ruby her mother and herself against larger questions of civic belonging and responsibility The work documents her own struggles and interactions with family and the expectations of community and includes the documentation of the demise of Braddock's only hospital reinforcing the idea that the history of a place is frequently written on the body as well as the landscape With *The Notion of Family* Frazier knowingly acknowledges and expands upon the traditions of classic black and white documentary photography enlisting the participation of her family and her mother in particular As Frazier says her mother is coauthor artist photographer and subject Our relationship primarily exists through a process of making images together I see beauty in all her imperfections and abuse In the creation of these collaborative works Frazier reinforces the idea of art and image making as a transformative act a means of resetting traditional power dynamics and narratives both those of her family and those of the community at large

The Legitimacy of Family Rights in Strasbourg Case Law Carmen Draghici, 2017-02-09 Modern family life exhibits a huge variety of new forms Legal responses to these new forms illustrate the continuing differences between European nations Nonetheless the Strasbourg Court has been increasingly active in this

area which provides fertile ground for testing the legitimacy of the Court's interpretation of the European Convention on Human Rights. When national law refuses to recognize a claimed right, litigants regularly reassert that right before the Strasbourg Court. This has forced it to seek answers to complex domestic controversies such as the legal recognition for same sex partners and transgender persons, the ethics of adoption and reproductive rights, the legal regime for cohabitants or the accommodation of immigrants' aspiration to family reunion. Placing family rights at the core of the judicial legitimacy debate, this book provides a critical analysis of the standards of family rights protection under the Convention. It evaluates the Court's interpretive methodology and discusses the tensions inherent in its supranational quasi constitutional function. These include the risk of excessive deference to national authorities at the expense of the effective enforcement of universal rights, the addition of new rights and inattention to the division of responsibilities between democratic processes within sovereign States and the subsidiary international review.

Entrepreneurship in Family Business Henry X Shi, 2014-02-20. This book presents an excellent analysis of how a family business is different from other forms of organization and especially its peculiarities in relation to entrepreneurship. Focusing on small and medium sized second generation Chinese family businesses, this book provides an in depth analysis on the relationship between the firm's family attributes or familiness as conceptualized in this book and entrepreneurial processes which leads to different outcomes. Eight cases from China are presented in this book and a dual level approach is proposed for research on entrepreneurship in family businesses, emphasising both firm processes and the role of individual owner managers. Readers will also find several useful policy and practice oriented perspectives in this book.
