construction of an intellectual love of God leading into the infinite univocity of everything Similarly with Wright joy leads to a visceral sense of what the authors call the great weave of the world This weave is akin to the notion of entanglement made popular by physicists and contemporary scholars of Science Studies such as Karen Barad which speaks of the always ongoing mutually constitutive connections of all matter and intellectual processes By exhibiting and detailing the joy of reading Wright Pitch and Revelation intends to help others chart their own paths into the intellectual musical and rhythmical territories of Wright s world so as to more fully experience joy in the world generally Although the exhibitions of meaning making presented are instructive they do not follow the do as I do or do as I say model of instructional texts Instead they invite the reader to do along with us as the authors make meaning from selections across Wright s erudite dense rhythmically fascinating endlessly lyrical highly structured and seemingly hermetic body of work Publisher s website **The Mysteries**
