G. Jung's Psychology F. X. Charet,1993-01-01 Charet uncovers some of the reasons why Jung's psychology finds itself living between science and religion He demonstrates that Jung's early life was influenced by the experiences beliefs and ideas that characterized Spiritualism and that arose out of the entangled relationship that existed between science and religion in the late nineteenth century Spiritualism following its inception in 1848 became a movement that claimed to be a scientific religion and whose controlling belief was that the human personality survived death and could be reached through a medium in trance The author shows that Jung's early experiences and preoccupation with Spiritualism influenced his later ideas of the autonomy personification and quasi metaphysical nature of the archetype the central concept and one of the foundations upon which he built his psychology

The Occult Imagination in Britain, 1875-1947 Christine Ferguson,Andrew Radford,2017-12-15 Between 1875 and 1947 a period bookended respectively by the founding of the Theosophical Society and the death of notorious occultist celebrity Aleister Crowley Britain experienced an unparalleled efflorescence of engagement with unusual occult schema and supernatural phenomena such as astral travel ritual magic and reincarnationism Reflecting the signal array of responses by authors artists actors impresarios and popular entertainers to questions of esoteric spirituality and belief this interdisciplinary collection demonstrates the enormous interest in the occult during a time typically associated with the rise of secularization and scientific innovation The contributors describe how the occult realm functions as a turbulent conceptual and affective space shifting between poles of faith and doubt the sacrosanct and the profane the endemic and the exotic the forensic and the fetishistic Here occultism emerges as a practice and epistemology that decisively shapes the literary enterprises of writers such as Dion Fortune and Arthur Machen artists such as Pamela Colman Smith and revivalists such as Rolf Gardiner **Modernism and the Occult** John Bramble,2015-03-04 This study of modernism's high imperial occult exotic affiliations presents many well known figures from the period 1880-1960 in a new light Modernism and the Occult traces the history of modernist engagement with irregular heterodox and imported knowledge Modern Occultism in Late

Imperial Russia Julia Mannherz, 2012-10-15 Modern Occultism in Late Imperial Russia traces the history of occult thought and practice from its origins in private salons to its popularity in turn of the century mass culture In lucid prose Julia Mannherz examines the ferocious public debates of the 1870s on higher dimensional mathematics and the workings of seance phenomena discusses the world of cheap instruction manuals and popular occult journals and looks at haunted houses which brought together the rural settings and the urban masses that obsessed over them In addition Mannherz looks at reactions of Russian Orthodox theologians to the occult In spite of its prominence the role of the occult in turn of the century Russian culture has been largely ignored if not actively written out of histories of the modern state For specialists and students of Russian history culture and science as well as those generally interested in the occult Mannherz s fascinating study remedies this gap and returns the occult to its rightful place in the popular imagination of late nineteenth and early twentieth century Russian society

Langan, 2014-11-19 This book explores the religious foundations political and social significance and aesthetic aspects of the theatre created by the leaders of the Occult Revival Langan shows how theatre contributed to the fragmentation of Western religious culture and how contemporary theatre plays a part in the development of alternative occult religions

Jack the Ripper's New Testament Nigel Graddon, 2019-09-12 This book offers evidence for the first time that those responsible for the Whitechapel murders were members of a hit team associated with a centuries old European occult confederacy dedicated to human sacrifice This was first mooted by Jim Keith in his 1993 book Secret and Suppressed and then corroborated in the private papers of a Monsignor who carried out intelligence work for Pope Pius X in the run up to the outbreak of global conflict in 1914 The priest told of the existence of a Vatican based cabal of assassins known to its members by the maxim Dead Men Carry No Tales formed by the infamous Borgias that is in alliance with a Teuton occult group formed in the 9th century It was from within this unholy alliance that assassins travelled to London to carry out the Ripper murders to solve a sticky problem for the British Royal Family Keith s Vatican informant Part of the substantiation for this evidence derives from Joseph Farrell in his recent Hess and the Penguins book for AUP The evidence also substantiates Keith s informant s astonishing claim that the assassins came together in a conference in Basle in 1897 to put the building blocks together for National Socialism and to prepare the blueprint for the Holocaust For the first time also the book substantiates a new line of research that suggests that the work of key figures from America and Britain within the nineteenth century s highly influential and richly funded Bible Revision movement was associated with the grisly events in London s East End during 1888 s Autumn of Terror Topics include Mr Splitfoot Whitechapel Martha HPB Polly The Occult Underground Dark Annie The Occult Establishment Long Liz The Lady with the Lilacs From Lilacs to Violets Mary Kelly Baconalia Rothschild s Bible Basle 1897 Through the Looking Glass more

Spirituality and the Occult Brian Gibbons, 2013-07-04 Spirituality and the Occult argues against the widely held view that occult spiritualities are marginal to Western culture Showing that the esoteric tradition is unfairly neglected in

Western culture and that much of what we take to be modern derives at least in part from this tradition it casts a fresh intriguing and persuasive perspective on intellectual and cultural history in the West Brian Gibbons identifies the influence and continued presence of esoteric mystical movements in disciplines such as medicine science philosophy Freudian and Jungian psychology radical political movements imaginative literature *James Webb and the Occult* Colin Wilson,1982 This essay was written as an introduction to James Webb s book *The Occult Establishment* but was not used *Reich of the Black Sun* Joseph P. Farrell,2020-09-04 Why were the Allies worried about an atom bomb attack by the Germans in 1944 Why did the Soviets threaten to use poison gas against the Germans Why did Hitler in 1945 insist that holding Prague could win the war for the Third Reich Why did US General George Patton s Third Army race for the Skoda works at Pilsen in Czechoslovakia instead of Berlin Why did the US Army not test the uranium atom bomb it dropped on Hiroshima Why did the Luftwaffe fly a non stop round trip mission to within twenty miles of New York City in 1944 *Reich of the Black Sun* takes the reader on a scientific historical journey in order to answer these questions Arguing that Nazi Germany actually won the race for the atom bomb in late 1944 *Reich of the Black Sun* then goes on to explore the even more secretive research the Nazis were conducting into the occult alternative physics and new energy sources The book concludes with a fresh look at the Nazi Legend of the UFO mystery by examining the Roswell Majestic 12 documents and the Kecksburg crash in the light of parallels with some of the super secret black projects being run by the SS *Reich of the Black Sun* is must reading for the researcher interested in alternative history science or UFOs **The Problem of Disenchantment** Egil Asprem,2018-05-31 Challenges the conventional view of a disenchanted and secular modernity and recovers the complex relation that exists between science religion and esotericism in the modern world Max Weber famously characterized the ongoing process of intellectualization and rationalization that separates the natural world from the divine by excluding magic and value from the realm of science and reason and fact from the realm of religion as the disenchantment of the world Egil Asprem argues for a conceptual shift in how we view this key narrative of modernity Instead of a sociohistorical process of disenchantment that produces increasingly rational minds Asprem maintains that the continued presence of magic and enchantment in people s everyday experience of the world created an intellectual problem for those few who were socialized to believe that nature should contain no such incalculable mysteries Drawing on a wide range of early twentieth century primary sources from theoretical physics occultism embryology radioactivity psychical research and other fields Asprem casts the intellectual life of high modernity as a synchronic struggle across conspicuously different fields that shared surprisingly similar intellectual problems about value meaning and the limits of knowledge *The Problem of Disenchantment* is in its entirety extraordinarily well researched argued and written representing at once the most complete and nuanced treatment of the notion of disenchantment within this network of scientific religious philosophical and esoteric discourses and currents *Nova Religio* **Black Terror White Soldiers** David Livingstone,2013-06-16 Far too ignorant of the histories of the rest of the world

being aware of only the accomplishments of Greece Rome and Europe Westerners have been made to believe that their societies represent the most superior examples of civilization However the Western value system stems from a misconception that as in nature human society too is evolving The idea derives from the hidden influence of secret societies who followed the belief in spiritual evolution of the Kabbalah which taught that history would attain its fulfillment when man would become God and make his own laws Therefore the infamous Illuminati gave its name to the Enlightenment of the eighteenth century which claimed that human progress must abandon superstition meaning Christianity in favor of reason Thus the Illuminati succeeded in bringing about the French and American revolutions which instituted the separation of Church and State and from that point forward the Western values of Humanism seen to include secularism human rights democracy and capitalism have been celebrated as the culmination of centuries of human intellectual evolution This is the basis of the propaganda which has been used to foster a Clash of Civilizations where the Islamic world is presented as stubbornly adhering to the anachronistic idea of theocracy Where once the spread of Christianity and civilizing the world were used as pretexts for colonization today a new White Man s Burden makes use of human rights and democracy to justify imperial aggression However because after centuries of decline the Islamic world is incapable of mobilizing a defense the Western powers as part of their age old strategy of Divide and Conquer have fostered the rise of Islamic fundamentalism to both serve as agent provocateurs and to malign the image of Islam These sects known to scholars as Revivalists opposed the traditions of classical Islamic scholarship in order to create the opportunity to rewrite the laws of the religion to better serve their sponsors Thus were created the Wahhabi and Salafi sects of Islam from which were derived the Muslim Brotherhood which has been in the service of the West ever since But the story of the development of these Islamic sects involves the bizarre doctrines and hidden networks of occult secret societies being based on a Rosicrucian myth of Egyptian Freemasonry which see the Muslim radicals as inheritors of an ancient mystery tradition of the Middle East which was passed on to the Knights Templar during the Crusades thus forming the foundation of the legends of the Holy Grail These beliefs would not only form the cause for the association of Western intelligence agencies with Islamic fundamentalists but would fundamentally shape much of twentieth century history

Magical Religion and Modern Witchcraft James R. Lewis,1996-04-19 This comprehensive anthology examines contemporary neo paganism ranging from goddess theology to historical critical essays Many of the contributors are academically trained neo pagans and the resulting volume is a benchmark study of a significant movement that promises to reshape the religious landscape of the next century

Contemporary Esotericism Egil Asprem,Kennet Granholm,2014-09-11 The study of contemporary esoteric discourse has hitherto been a largely neglected part of the new academic field of Western esotericism Contemporary Esotericism provides a broad overview and assessment of the complex world of Western esoteric thought today Combining historiographical analysis with theories and methodologies from the social sciences the volume explores new problems and offers new possibilities for the study of

esoterica Contemporary Esotericism studies the period since the 1950s but focuses on the last two decades The wide range of essays are divided into four thematic sections the intricacies of esoteric appeals to tradition the role of popular culture modern communication technologies and new media in contemporary esotericism the impact and influence of esotericism on both religious and secular arenas and the recent de marginalization of the esoteric in both scholarship and society
