Burnell, 1873 **Anthropology and Cryptozoology** Samantha Hurn, 2016-11-03 Cryptozoology is best understood as the study of animals which in the eyes of Western science are extinct unclassified or unrecognised In consequence and in part because of its selective methods and lack of epistemological rigour cryptozoology is often dismissed as a pseudo science However there is a growing recognition that social science can benefit from engaging with it for as social scientists are very well aware scientific categorisation and explanation represents just one of a myriad of systems used by humans to enable them to classify and make sense of the world around them In many cultural contexts myth folk classification and lived experience challenge the truth expounded by scientists With a reflexive anthropological approach and drawing on rich empirical and ethnographic studies from around the world this volume engages with the theoretical and methodological issues raised by reported sightings of unrecognised animals Bringing into sharp focus the anthropological value and challenges for methodology posed by beliefs about unclassified creatures Anthropology and Cryptozoology Exploring encounters with mysterious creatures will be of interest to anthropologists sociologists and geographers working in the fields of research methods anthrozoology mythology and folklore and human animal interaction

The Ten Commandments in the Nineteenth Century Ferdinand Schureman Schenck, 1889 *The Ten commandments and the Lord's prayer* Ferdinand Schureman Schenck, 1902 Saussure John E. Joseph, 2012-03-22 In a language there are only differences without positive terms Whether we take the signified or the signifier the language contains neither ideas nor sounds that pre exist the linguistic system but only conceptual differences and phonic differences issuing from this system From the posthumous *Course in General Linguistics* 1916 No one becomes as famous as Saussure without both admirers and

detractors reducing them to a paragraph's worth of ideas that can be readily quoted, debated, memorized, and examined. One can argue the ideas expressed above that language is composed of a system of acoustic oppositions; the signifier, matched by social convention to a system of conceptual oppositions, the signified, have in some sense become Saussure while the human being in all his complexity has disappeared. In the first comprehensive biography of Ferdinand de Saussure, John Joseph restores the full character and history of a man who is considered the founder of modern linguistics and whose ideas have influenced literary theory, philosophy, cultural studies, and virtually every other branch of humanities and the social sciences. Through a far-reaching account of Saussure's life and the time in which he lived, we learn about the history of Geneva, of Genevese educational institutions, of linguistics, about Saussure's ancestry, about his childhood, his education, the fortunes of his relatives, and his personal life in Paris. John Joseph intersperses all these discussions with accounts of Saussure's research and the courses he taught, highlighting the ways in which knowing about his friendships and family history can help us understand not only his thoughts and ideas but also his utter failure to publish any major work after the age of twenty-one.

Aesthetic Cosmopolitanism and Global Culture, 2019-11-11 Gathering scholars from five continents, this edited book displaces the elitist image of cosmopolitan as well as the blame addressed to aesthetic cosmopolitanism, often considered as merely cosmetic. By considering aesthetic cosmopolitanism as a tool to understand how individuals and social groups appropriate the sphere of culture in a global world, the authors are concerned with its operationalization on two strongly interwoven levels: macro and micro, structural and individual. Based on the discussion of theoretical perspectives and empirically grounded research, qualitative and quantitative, conducted in many countries, this volume unveils new insights on tourism and food, architecture and museums, TV series and movies, rock, K-pop, and samba, by providing resources for making sense of aesthetic preferences in a global perspective. Contributors are Felicia Chan, Vincenzo Cicchelli, Talitha Alessandra Ferreira, Paula Iadevito, Sukhmani Khorana, Anne Krebs, Antoinette Kujilaars, Franck Mermier, Sylvie Octobre, Joana Pellerano, Rosario Radakovich, Motti Regev, Viviane Riegel, Clara Rodriguez, Leslie Sklair, Yi Ping, Eva Shi,

Read, 2000-01-29 Does every increase in the power of government entail a loss of liberty for the people James H Read examines how four key Founders James Madison Alexander Hamilton James Wilson and Thomas Jefferson wrestled with this question during the first two decades of the American Republic *Power versus Liberty* reconstructs a four way conversation sometimes respectful

sometimes shrill that touched on the most important issues facing the new nation the Constitution the Bill of Rights federal authority versus states rights freedom of the press the controversial Bank of the United States the relation between nationalism and democracy and the elusive meaning of the consent of the governed Each of the men whose thought Read considers differed on these key questions Jefferson believed that every increase in the power of government came at the expense of liberty energetic governments he insisted are always oppressive Madison believed that this view was too simple that liberty can be threatened either by too much or too little governmental power Hamilton and Wilson likewise rejected the Jeffersonian view of power and liberty but disagreed with Madison and with each other The question of how to reconcile energetic government with the liberty of citizens is as timely today as it was in the first decades of the Republic It pervades our political discourse and colors our readings of events from the confrontation at Waco to the Oklahoma City bombing to Congressional debate over how to spend the government surplus While the rhetoric of both major political parties seems to posit a direct relationship between the size of our government and the scope of our political freedoms the debates of Madison Hamilton Wilson and Jefferson confound such simple dichotomies As Read concludes the relation between power and liberty is inherently complex Adeline's Art Dictionary Jules Adeline, 1891 **Liberty and the Great Libertarians** Charles T. Sprading, 2015-04-15 In 1913 Charles T. Sprading wrote a book of remarkable prescience that anticipated the systematic development of an American libertarian tradition He called it *Liberty and the Great Libertarians* What he provided was a biography and intellectual analysis of some thirty great thinkers Most valuable is his extraordinary job of editing He chooses the best and most enlightening of their writings and brings them to life The thinkers covered include Edmund Burke Thomas Paine Thomas Jefferson William Godwin Wilhelm von Humboldt John Stuart Mill Ralph Waldo Emerson William Lloyd Garrison Wendell Phillips Josiah Warren Max Stirner Henry D. Thoreau Herbert Spencer Lysander Spooner Henry George Benjamin Tucker Pierre Kropotkin Abraham Lincoln Auberon Herbert G. Bernard Shaw Oscar Wilde Maria Montessori and others Now not all of these people would be considered libertarians by the modern understanding Some even called themselves socialists as absurd as that may sound to us today But they all exhibited in their writings a deep and abiding attachment to the idea of human liberty They agree in the primacy of the individual They agreed that the greatest threat to individual rights is the state And they believed in fighting for these rights They believed in the freedom of assembly freedom of press freedom of religion freedom to think and act They hated war and social control They rejected every form of authoritarianism and in all these areas they made huge contributions As Sprading says in his introduction The greatest violator of the principle of equal liberty is the State Its functions are to control to rule to dictate to regulate and in exercising these functions it interferes with and injures individuals who have done no wrong The objection to government is not that it controls those who invade the liberty of others but that it controls the non invader It may be necessary to govern one who will not govern himself but that in no wise justifies governing one who is capable of and willing to govern himself To argue

that because some need restraint all must be restrained is neither consistent nor logical Governments cannot accept liberty as their fundamental basis for justice because governments rest upon authority and not upon liberty To accept liberty as the fundamental basis is to discard authority that is to discard government itself as this would mean the dethronement of the leaders of government we can expect only those who have no economic compromises to make to accept equal liberty as the basis of justice The introduction alone is extraordinary given the times On war he writes How is war to be abolished By going to war Is bloodshed to be stopped by the shedding of blood No the way to stop war is to stop going to war stop supporting it and it will fall just as slavery did just as the Inquisition did The end of war is in sight there will be no more world wars The laboring man who has always done the fighting is losing his patriotism he is beginning to realize that he has no country or much of anything else to fight for and is beginning to decline the honor of being killed for the glory and profits of the few Those who profit by war those who own the country will not fight for it that is they are not patriotic if it is necessary for them to do the killing or to be killed in war In all the wars of history there are very few instances of the rich meeting their death on the battlefield This is a fat book 542 pages with a vast index It remains the best chronicle of libertarian thought ever put together which is why Murray Rothbard chose this book as one of his favorites This edition is a reprint of the original 1913 volume
