The New Politics Of Youth Crime Discipline Or Solidarity:

The New Politics of Youth Crime J. Pitts, 2000-07-31 The New Politics of Youth Crime argues that the centrality of law and order to the New Labour project has generated a youth justice strategy which threatens to deepen the problems it purports to solve Analysing the profound changes in UK youth crime in the 1980s this book posits the French Social Prevention Initiative of the 1980s as an alternative model for a genuinely joined up social democratic response to the increasingly complex problem of youth crime in Europe

The New Politics of Youth Crime John Pitts, 2003 Analysing the profound changes in UK youth crime in the 1980s this text posits the French Social Prevention Initiative of the 1980s as an alternative model for a genuinely joined up social democratic response to the problem of youth crime

The New Politics of Crime and Punishment Roger Matthews, Jock Young, 2013-01-11 This book provides an overview of recent government initiatives in the field of crime and punishment reviewing both the policies themselves the perceived problems and issues they seek to address and the broader social and political context in which this is taking place The underlying theme of the book is that a qualitative change has taken place in the politics of crime control in the UK since the early 1990s Although crime has stabilised imprisonment rates continue to climb there is a new mood of punitiveness and crime has become a central policy issue for the government no longer just a technical matter of law enforcement At the same time the politics of crime control have taken on a pronounced gender race and age preoccupation This book will be essential reading for anybody seeking an understanding of why crime and criminal justice policy have risen to the top of the political agenda

Growing up with risk Thom, Betsy, Sales, Rosemary, 2007-05-16 Growing up with risk provides a critical analysis of ways in which risk assessment and management now a pervasive element of contemporary policy and professional practice are defined and applied in policy theory and practice in relation to children and young people Drawing on conceptual frameworks from across the social sciences the book examines contrasting perspectives on risk that occur in different policy domains and professional and lay discourses discussing the dilemmas of response that arise from these sometimes contested viewpoints from playground safety to risks associated with youthful substance use The contributors address issues of gender ethnicity and socio economic status which impact on definitions and responses to risk and consider related concepts such as risk resilience care control and dependence autonomy Written in an accessible manner each chapter provides a specific policy case study to illustrate the cross cutting themes and issues that will make it a key text for researchers and students It also offers policy makers and practitioners a valuable insight into the complexities of balancing responsibility for protecting the young with the benefits of risk taking and the need to allow young people to experiment

Understanding the Modernisation of Criminal Justice Paul Senior, Chris Crowther-Dowey, Matt Long, 2007-12-16 How have different criminal justice agencies responded to the modernization process What forms does modernization take What lessons can be drawn to influence the future shape of criminal justice policy Understanding Modernization in Criminal Justice is the first book to theorize

modernization in the context of criminal justice. It provides a historically informed account tracing the evolving links between new public management and modernization as well as proposing a conceptual framework for understanding the impact of policies on each criminal justice agency in England and Wales. A variety of political strategies and tactics are identified which contribute to the reform process. The extent of vulnerability, capacity for resistance or potential for transformation in each individual key agency is explored, including strategies of censure, compliance and commitment. The authors go on to analyse how these processes have occurred in an international context, in particular the relationship between drivers of global crime and their impact in the context of England and Wales. This will challenge policy makers in all jurisdictions to consider the potential impact of new public management. The book concludes with a look ahead anticipating developments in the criminal justice sector after the departure of Tony Blair and potentially post a new Labour administration.

Understanding Modernization in Criminal Justice is invaluable reading for those concerned with the administration of criminal justice at both a policy and managerial level, from students and academics wishing to understand the way agencies are responding to this agenda through to penal reformers and commentators. Young people and 'risk' Blyth, Maggie, Solomon, Enver, 2007-09-26

Alongside the current media/public preoccupation with high risk offenders, there has been a shift towards a greater focus on risk and public protection in UK criminal justice policy. Much of the academic debate has centered on the impact of the risk paradigm on adult offender management services; less attention has been given to the arena of youth justice and young adults. Yet there are critical questions for both theory and practice: are the principles of risk management the same when working with young people and practice? how can practitioners respond to those young people who cause serious harm to others that need to be considered? The distinguished contributors to *Young people and risk* consider risk not only in terms of public protection but also in terms of young people's own vulnerability to being harmed either by others or through self-inflicted behaviour. One of the report's key objectives is to explore the links between these two distinct but related aspects of risk. Maggie Blyth is a member of the Parole Board for England and Wales and independent chair of Nottingham City Youth Offending Team. She also works independently as a criminal justice consultant. Kerry Baker is a researcher in the Centre for Criminology at the University of Oxford and also a consultant to the Youth Justice Board on issues of assessment, risk and public protection. Enver Solomon is Deputy Director of the Centre for Crime and Justice Studies, an independent charity affiliated to the Law School at King's College London.

Reiner,2013-04-22 Law and order has become a key issue throughout the world Crime stories saturate the mass media and politicians shrilly compete with each other in a race to be the toughest on crime Prisons are crammed to bursting point and police powers and resources extended repeatedly After decades of explosive increase in crime rates these have plummeted throughout the Western world in the 1990s Yet fear of crime and violence and the security industries catering for these anxieties grow relentlessly This book offers an up to date analysis of these contemporary trends by providing all honest and concerned citizens with a concise yet comprehensive survey of the sources of current problems and anxieties about crime It shows that the dominant tough law and order approach to crime is based on fallacies about its nature sources and what works in terms of crime control Instead it argues that the growth of crime has deep seated causes so that policing and penal policy at best can only temporarily hold a lid down on offending The book is intended to inform public debate about these vital issues through a critical deconstruction of prevailing orthodoxy With its focus on current policies problems and debates this book is also an excellent introduction to criminology for the growing numbers of students of the subject at all levels
