Right Turn John E. Moser,2005-04 John T Flynn a prolific writer columnist for the New Republic Harper s Magazine and Collier s Weekly radio commentator and political activist was described by the New York Times in 1964 as a man of wide ranging contradictions In this new biography of Flynn John E Moser fleshes out his many contradictions and profound influence on U S history and political discourse In the 1930s Flynn advocated extensive regulation of the economy the breakup of holding companies and heavy taxes on the wealthy A mere fifteen years later he was denouncing the New Deal as creeping socialism calling for an abolition of the income tax and hailing Senator Joseph McCarthy and his fellow anticommunists as saviors of the American Republic Yet throughout his career he insisted that he had remained true to the principles of liberalism as he understood them It was America s political culture that changed he argued and not his values and views Drawing on Flynn s life and his prolific writings Moser illuminates how liberalism in America changed during the mid twentieth century and considers whether Flynn s ideological odyssey was the product of opportunism or the result of a set of deep seated principles that he championed consistently over the years In addition Right Turn examines Flynn s role in laying the foundations for the culture war that would be played out in American society for the rest of the century helping to define modern American conservatism Poverty and Charity in Middle Eastern Contexts Michael David Bonner,Mine Ener,Amy Singer,2003-07-17 Addresses the ideals and institutions through which Middle Eastern societies have confronted poverty and the poor Offering insights and analysis in a field that has only recently come into existence this book explores the ideals and institutions through which Middle Eastern societies from the rise of Islam in the seventh century C E to the present day have confronted poverty and the poor By introducing new sources and presenting familiar ones with new questions the contributors examine ideas about poverty and the poor ideals and practices of charity and state and private initiatives of poor relief over this extensive time span They avoid easy generalizations about Islam and the Middle East as

they seek to set the ideals and practices in comparative perspective
