The New Testament A Critical Introduction Religion:

A Critical Introduction to the New Testament Carl R. Holladay, 2011-07-01 This book introduces the New Testament in two senses it not only provides basic literary and historical information on each of the twenty seven writings but also orients readers to the religious theological and ethical issues related to the message and meaning of Jesus Christ The overall goal is to help interested readers of the New Testament become informed responsible interpreters of these writings and thereby enrich their personal faith and understanding By giving special emphasis to how the New Testament has helped shape the church s identity and theological outlook throughout the centuries as well as the role it has played within the broader cultures of both East and West this introduction also seeks to assist readers in exercising creative informed leadership within their own communities of faith and in bringing a deeper understanding of early Christianity to their conversations with the wider public Along with separate chapters devoted to each New Testament writing there are chapters explaining how this collection of texts emerged as uniquely authoritative witnesses to the church s faith why they were recognized as canonical whereas other early Christian writings were not how the four canonical Gospels are related to one another including a discussion of the Synoptic Problem how the Jesus tradition his teachings stories from his ministry and the accounts of his suffering death and resurrection originated and developed into Gospels written in narrative form and how the Gospels relate to Jesus Christ as he was and is Also included is a chapter on the writings of Paul and how they emerged as a collection of authoritative texts for the church This chapter includes a discussion of ancient letter writing special considerations for interpreting the Pauline writings and Paul s decisive influence within the history of the church and western culture

Critical Introduction to the New Testament. Continuity and Application in Contemporary Life Sixbert Sangwa, 2021-06-10 Academic Paper from the year 2020 in the subject Theology Biblical Theology grade 95 Nations University course Critical Introduction to the New Testament language English abstract This paper discusses the application of the New Testament in contemporary life with particular attention to how to distinguish the universal and limited or specific application of the texts as well as to provide a solution that reiterates the meaning and the means of salvation Christians often read the Bible a few verses or a single chapter at a time As a result they may overlook the context and draw unwarranted conclusions The critic on the other hand looks for the inconsistencies that inevitably throws him on the track In this paper the problem of proving the continuity of the New Testament is approached in a way that ties it together by means of a theme or connectivity Moreover since the material is now two thousand years old modern New Testament students are faced with the problem of application especially how to understand the original intention behind the New Testament for current human history However Jews and Muslims for their part are challenged by the question of biblical authority a problem that confuses many people but presents them with difficulties In other words the two overriding questions are what Christians mean by New and Old Testaments and the relationship between them This problem is compounded by the fact that

Jews do not accept the New Testament while Muslims accept both in theory However the common Messianic theme of the two covenants ties them together so that the evidence points to the meaning of New Testament continuity and integration

A Critical Introduction to the New Testament Arthur Samuel Peake,1909 *The New Testament* Edwin D. Freed,1994
The purpose of this introductory text is to help the interested reader to learn about and engage in critical study of the New Testament It has been written for students and other lay people with no formal training in New Testament studies Although it is not intended to be a popular treatment the kind of book that usually oversimplifies material and presents it so rapidly that it rarely challenges thoughtful readers it avoids the technical language used in more advanced work Its aim is to inform not to convert to educate not to indoctrinate and it has been designed for those willing to go beyond denominational or romantic approaches First comes a general introduction to subjects important for understanding the settings of the New Testament writings The three parts which follow deal with Jesus and the first three Gospels Acts and Paul and his letters and writings from times of oppression and controversy the context in which the Fourth Gospel is studied There are useful figures and diagrams to illustrate points relating to sources and style and illustrations where these are relevant to the text The result is a valuable resource book which will enjoy the widest possible use **A Critical Introduction to the Study of Religion**
Craig Martin,2014-09-11 A Critical Introduction to the Study of Religion explains the key ideas and methods in the study of religion and demonstrates how they can be used The aim is to provide students with a tool kit of critical concepts for studying religious belief and behaviour Throughout the discussion all ideas and methods are illustrated with clear case material *A Critical Introduction to the New Testament* Arthur Samuel Peake,1914 *A Critical Introduction to the New Testament* S Peake,2023-07-18 A Critical Introduction to the New Testament is a thorough and insightful guide to the origins and development of the Christian scriptures Written by the renowned biblical scholar S Peake the book provides a comprehensive overview of the New Testament texts their historical context and their literary and theological features This work is an essential resource for anyone seeking a clear and informed introduction to the New Testament This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **A Critical Introduction to the New Testament** Arthur S. Peake,Gerrit Dou,2014-01-21 An excerpt from the beginning of the first chapter Introduction to the New Testament FOR the sake of convenience it is customary to divide the field of New Testament scholarship into various departments in which the critical historical exegetical and theological problems presented by the literature are investigated The division however must not blind us to the unity of the

field and the close interrelation of its several parts The conclusion we reach in one section inevitably reacts on our study of another It might seem as if a passage bore the same interpretation whatever its date and whoever its author But this is by no means the case since the same expressions may mean different things on different lips or when addressed to varying conditions The ultimate aim of the New Testament student is to understand the religious and theological development which is reflected in the documents But to do this he must reconstruct the movement of external events and within this environment trace the career of the Founder and the growth of the primitive Church He must in other words pursue the study of New Testament history Then he must minutely examine the documents in detail that is he must devote himself to the exegesis of the New Testament Moreover he cannot master the various types of doctrine within the literature without confronting the problems of authorship nor can he trace the chronological development of thought without settling the relative date of his documents These problems of date and authorship are the special concern of New Testament Introduction And just as New Testament Theology depends for its results to no little extent on the sister sciences so it might be shown that each of these is dependent upon the rest Nevertheless while we cannot forget this fact of interdependence and the necessity that all should move forward together it is essential that we should isolate each for special study and in this volume we are concerned with the problems of New Testament criticism This science is divided into general and special introduction The former of these embraces Textual criticism and the history of the Canon the latter examines each book in turn with a view to the determination of its authorship its structure its date its local destination and kindred problems In the present volume the limits of space compel us to restrict ourselves special introduction In its modern form this science was pre eminently the creation of F C Baur and the Tübingen school Not of course that several of the topics discussed in it had not already been treated with skill and learning by earlier scholars but they had dealt with them rather as isolated questions whereas Baur and the brilliant band of scholars he gathered about him dealt with them as a connected whole and also brought the literature into most intimate relation to the whole development of the primitive Church In philosophy Baur was a Hegelian and he reconstructed the history of primitive Christianity in accordance with the formula that thought moves through thesis and antithesis to synthesis In other words a position is laid down which calls forth a contradiction These are gradually drawn together and at last merged in a higher unity Applying this formula to the history of primitive Christianity Baur conceived the whole development to exhibit the interplay of two forces Jewish Christianity on the one side and Paulinism on the other which ultimately by the drawing together of the opposing parties were reconciled in the Catholic Church of the second century while the representatives of the original tendencies the Ebionites on the one hand and Marcion on the other stood outside the compromise and were consequently branded as heretics Naturally however much this construction may have been suggested by philosophical principles it was not defended simply as an intuition

which have all to be written by men who have lived in the full blaze of modern light though without having either their eyes
 burned out or their ecclesies scorched into ineffectibility are intended to present God in relation to Men and Men in relation to
 God. It is intended that they begin not in date of publication but in order of thought with the Theological Encyclopedia which
 shall show the circle of sciences coordinated under the term Theology though all will be viewed as related to its central or
 main idea. This relation of God to human knowledge will then be looked at through the mind of the communion of Deity with
 humanity or God in fellowship with human creatures. On this subject the Heidelberg Catechism is the best. About the Publisher Forgotten Books publishes

A Critical Introduction to the New Testament Arthur S. Peake, 1979-12 *A Critical Introduction to the New Testament* Reginald
 Horace Fuller, 1971 **The New Testament and Contemporary Life. A Critical Introduction** Kevin Omondi, 2021-10-20

Essay from the year 2020 in the subject Theology / Biblical Theology, language English, abstract: This essay depicts the common
 problem to be facing the modern student of the New Testament, which is the conformity to the standard of the current world.
 To address this problem, the author of Roman 12 is pointing us to the life of transformation as a specific application. The New
 Testament, being a document which has been in existence universally, contains this call for transformation in the renewed
 heart. We realized that the conformity and transformation do not exist together; one has to make a decision to transform in
 order to remain relevant in the renewed heart. To further maintain within the transformed mind, one has to respond to God by
 a way of confession, repentance, and being baptized. This action will humble one to remain within the transformed life in the
 renewal of their mind.

Lectures on New Testament Theology Peter C. Hodgson, 2016-03-24. Ferdinand Christian Baur, 1792-1860, one of the great innovators in the study of the New Testament, argued that each of its books reflects the interests
 and tendencies of its author in a particular religious-historical milieu. A critique of the writings must precede any judgments
 about the historical validity of individual stories about Jesus in the Gospels. Thus Baur could move beyond the impasse
 created by Strauss's *Life of Jesus*. Baur demonstrated that the Gospel of John is not a historical document comparable to the
 Synoptic Gospels and cannot be used to reconstruct the teaching of Jesus, and that the Synoptic Gospels must be read
 critically and selectively. He applied the same principles to the Epistles, arguing that only four are genuinely Pauline: Galatians
 1 and 2 Corinthians and Romans. Baur's *Lectures on New Testament Theology*, delivered in Tübingen during the 1850s,
 summarize thirty years of his research. The lectures begin with an Introduction on the concept, history, and organization of
 New Testament theology. Part One is devoted to the teaching of Jesus, which Baur finds most reliably in Matthew. Part Two

contains the teaching of the Apostles in three chronological periods The first period presents the theological frameworks of the Apostle Paul and the Book of Revelation the second period the frameworks of Hebrews the Deutero Pauline Epistles James and Peter the Synoptic Gospels and Acts and the third period those of the Pastoral Epistles and the Gospel of John
