ABSTRACT

The article investigates how newspaper editorials address the “fake news” phenomenon concerning (1) the damages that mis- and disinformation pose to society and journalism; (2) the roles news organizations claim for themselves; (3) the communication agents mentioned; and (4) how media companies defend the field. We use content analysis to study 375 editorials published between 2017 and 2020 in three Brazilian quality-papers. Brazil is a relevant case since its media system and political institutions differ from those in the United States and Western Europe, leading us to understand metajournalistic discourses not necessarily seen in more stable environments. The results indicate that key political events (e.g., social security reform and presidential elections) became occasions for media organizations to publish more editorials discussing “fake news.” Harming democracy was the main problem caused by mis- and disinformation. The newspapers regularly identified themselves as victims of attacks from political authorities. The editorial texts reinforced journalism’s expertise in crafting and providing credible information, but, at the same time, such newspapers avoided responding to external criticisms. More interestingly, the outlets used terms associated with mis- and disinformation to attack rival groups. Lastly, our codebook provides an original contribution to the field as it considers a wide range of variables, encouraging comparative studies.

Introduction

Although content similar to what today is called “fake news” has circulated since long ago (Silverman 2017; Waisbord 2018), the spread of false, incomplete, or deceptive information has become a critical challenge to contemporary democracies (Wasserman 2020; Vargo, Guo, and Amazeen 2018; Humprecht 2019; Poynter 2020; Egelhofer et al. 2020), leading some countries to discuss imposing penalties on actors distributing such stories (Internet Society 2018; Timmer 2019; Neo 2022).

Different studies have grasped how mis- and disinformation jeopardize the credibility of journalism professionals and organizations (Steensen 2019; Lawrence and Moon 2021),

Reconstituting Authority William E. Modellmog, 2002-04-25 In *Reconstituting Authority* William Modellmog explores the ways in which American law and literature converged in the late nineteenth and early twentieth centuries Through close readings of significant texts from the era he reveals not only how novelists invoked specific legal principles and ideals in their fictions but also how they sought to reconceptualize the boundaries of law and literature in ways that transformed previous versions of both legal and literary authority Modellmog does not assume a sharp distinction between literary and legal institutions and practices but shows how writers imagined the two fields as engaged in the same cultural process He argues that because the law was instrumental in setting the terms by which concepts such as race gender nationhood ownership and citizenship were defined in the nineteenth century authors challenging those definitions had to engage the law on its own terrain to place their work in a dialogue with the law by telling stories that were already authorized though perhaps suppressed by legal institutions The first half of the book is devoted in separate chapters to William Dean Howells Helen Hunt Jackson and Pauline Hopkins The focus shifts from large theoretical concerns to questions of contract and native sovereignty to issues of African American citizenship and racial entitlement In each case the discussion is rooted in a larger consideration of the rule or misrule of law The second half of the book turns from the rule of law to the issue of property specifically the Lockean version of the self that tied identity to legal conceptions of property and economic value In separate discussions of Charles Chesnutt Edith Wharton and Theodore Dreiser *Reconstituting Authority* reveals authors as closely engaged with those changing perspectives on property and identity in ways that challenged the racial gendered and economic consequences of America s possessive individualism
