## **The Nineteen Hundred Eleven Revolution China Studies:**

**1911 Revolution** Hu Sheng, 1983-12      *Subject Guide to Books in Print*, 1993      *Imperial China, 1350-1900* Jonathan Porter, 2016-02-04 This clear and engaging book provides a concise overview of the Ming Qing epoch 1368 1912 China's last imperial age Beginning with the end of the Mongol domination of China in 1368 this five century period was remarkable for its continuity and stability until its downfall in the Revolution of 1911 Viewing the Ming and Qing dynasties as a coherent era characterized by the fruition of diverse developments from earliest times Jonathan Porter traces the growth of imperial autocracy the role of the educated Confucian elite as custodians of cultural authority the significance of ritual as the grounding of political and social order the tension between monarchy and bureaucracy in political discourse the evolution of Chinese cultural identity and the perception of the barbarian and other views of the world beyond China As the climax of traditional Chinese history and the harbinger of modern China in the twentieth century Porter argues that imperial China must be explored for its own sake as well as for the essential foundation it provides in understanding contemporary China and indeed world history writ large      *China, Britain and Hong Kong, 1895-1945* Kit-ching Chan Lau, 1990      *Studies Of China And Chineseness Since The Cultural Revolution - Volume 1: Reinterpreting Ideologies And Ideological Reinterpretations* Chih-yu Shih, Swaran Singh, Reena Marwah, 2022-11-29 Studies of China and Chineseness since the Cultural Revolution Volume 2 Micro Intellectual History through De central Lenses Why have the influences of the Great Proletarian Cultural Revolution roughly 1966 1976 in contemporary China been so pervasive profound and long lasting This book posits that the Revolution challenged everyone to decide how they can and should be themselves Even scholars who study the Cultural Revolution from a presumably external vantage point must end up with an ideological position relative to whom they study This amounts to a focused curiosity toward the Maoist agenda rivaling its alternatives As a result the political lives after the Cultural Revolution remain ulteriorly and ironically Maoist to a ubiquitous extent How then can we cleanse forget neutralize rediscover contextualize realign revitalize or renovate Maoism The authors contend that all must appropriate ideologies for political and analytical purposes and adapt to how others use ideological discourses This book then invites its readers to re-examine ideology contexts for people to appreciate how they acquire their roles and duties Those more practiced can even reversely give new meanings to reform nationalism foreign policy or scholarship by shifting between Atheism Maoism Confucianism and Marxism incurring alternative ideological lenses to de-legitimize their subject matter

**China in War and Revolution, 1895-1949** Peter Zarrow, 2006-06-07 Providing historical insights essential to the understanding of contemporary China this book explores the events that led to the rise of communism and a strong central state during the early twentieth century      **Chinese Discourses on the Peasant, 1900-1949** Xiaorong Han, 2012-02-01 Xiaorong Han explores how Chinese intellectuals envisioned the peasantry and its role in changing society during the first half of the twentieth century Politically motivated intellectuals both Communist and non-Communist believed that rural

peasants and their villages would be at the heart of change during this long period of national crisis Nevertheless intellectuals saw themselves as the true shapers of change who would transform and use the peasantry Han uses intellectuals writings to provide a comprehensive look at their views of the peasantry He shows how intellectuals with varying politics created images of the peasant a supposed contemporary image and an ideal image of the peasant transformed for political ends how intellectuals theorized on the nature of Chinese rural life and how intellectuals conceived their own relationships with peasants *Books in Print*, 1991 *The Central Politics School and Local Governance in Nationalist China*

Chen-cheng Wang, 2023-01-09 This book is a political history of global attempts to reduce politics to science and the results of such an attempt in modern China The book follows the discourses and activities of a special group of local officials in China's Nationalist government 1928-1949 These officials had been students or faculty at the Central Politics School CPS the only national university in modern Chinese history that trained professional bureaucrats according to the blueprint of the United States science of public administration conceived by Frank Goodnow Through its accounts of how these officials handled land administrative reforms the battlefield of statebuilding during World War II and rebellions of ethnic minorities the book discusses why some of the most talented CPS officials resorted to non modern humanistic political techniques and achieved a Chinese statecraft more efficient and sustainable than science As such the book invites readers to think whether science and the rational legal authority proposed by Woodrow Wilson and Max Weber is a proper conceptual framework for understanding politics in China and the rest of world **The United States Army in China, 1900-1938** Alfred Emile

Cornebise, 2015-07-13 A study of U S Chinese relations involving the U S Army this work focuses at the personnel level on the Army's service in China While studies have been published of the U S Marines and U S Navy's involvement in China little attention has been given the Army's missions in this theater Operations in China were a key part of the history and traditions of the 9th 14th 15th and 31st Regiments whose coats of arms still feature dragons as symbols of their service there Many who served in the 15th in China went on to impressive careers as general officers prompting one soldier to ask what other infantry regiment of those days can boast of such an alumni list Also covered is the 31st Regiments involvement in Shanghai during the Second Sino Japanese War the prelude of the coming of World War II in Asia **From Confucius to Xi Jinping**

Willy Lam, 2025-03-11 This book analyzes Chinese politics particularly the rule of Chinese Communist Party CCP leaders from Mao Zedong to Xi Jinping through an examination of the country's political ideology This book succinctly covers the DNA of Chinese politics through the philosophies of sages in China's first liberalization period during the Warring States epoch principally those of Confucius Mencius Lao Zi Zhuang Zi Shang Yang and Han Fei With an appreciation of these traditional ideologies this book displays how Chinese political philosophy which incorporates elements of Confucianist and especially Legalist thinking has influenced ideas and policies from as early as the Qin and Han dynasties through to the Qing dynasty and even to the current day Highlighting the controversies revolving around the flowering and contention of beliefs and isms

during China's second liberalization in the Republican Period 1912-1949 this book reveals how and why this led to the repression of the CCP era under dictators ranging from Mao Zedong to Xi Jinping Revealing how Chinese political and philosophical legacies impact the development of ideology and policies of CCP leadership this book will be a valuable resource to students and scholars of Chinese politics Chinese history and international relations

**Discovering History in China** Paul A Cohen, 2010-04-29 Since its first publication Paul A Cohen's *Discovering History in China* has occupied a singular place in American China scholarship Translated into three East Asian languages the volume has become essential to the study of China from the early nineteenth century to today Cohen critiques the work of leading postwar scholars and is especially adamant about not reading China through the lens of Western history To this end he uncovers the strong ethnocentric bias pervading the three major conceptual frameworks of American scholarship of the 1950s and 1960s the impact response modernization and imperialism approaches In place of these Cohen favors a China centered approach in which historians understand Chinese history on its own terms paying close attention to Chinese historical trajectories and Chinese perceptions of their problems rather than a set of expectations derived from Western history In an important new introduction Cohen reflects on his fifty year career as a historian of China and discusses major recent trends in the field Although some of these developments challenge a narrowly conceived China centered approach insofar as they enable more balanced comparisons between China and the West and recast the Chinese and their history in more human less exotic terms they powerfully affirm the central thrust of Cohen's work

**Confucianism for the Contemporary World** Tze-ki Hon, Kristin Stapleton, 2017-08-28 Condemned during the Maoist era as a relic of feudalism Confucianism enjoyed a robust revival in post Mao China as China's economy began its rapid expansion and gradual integration into the global economy Associated with economic development individual growth and social progress by its advocates Confucianism became a potent force in shaping politics and society in mainland China Hong Kong Taiwan and overseas Chinese communities This book links the contemporary Confucian revival to debates both within and outside China about global capitalism East Asian modernity political reforms civil society and human alienation The contributors offer fresh insights on the contemporary Confucian revival as a broad cultural phenomenon encompassing an interpretation of Confucian moral teaching a theory of political action a vision of social justice and a perspective for a new global order in addition to demonstrating that Confucianism is capable of addressing a wide range of social and political issues in the twenty first century

**The Party and the Arts in China** Richard Curt Kraus, 2004-04-02 In this original exploration of the dynamic and potent interface between Chinese culture and politics Richard Kraus examines the impact of the market on the once comprehensive system of state patronage of the arts in the PRC The author uses all genres of art to explore the changing nature of politics seen through such phenomena as ideology propaganda censorship and the relationship of artists to the state Kraus makes three provocative arguments First the commercialization of China's cultural life has been intellectually liberating but also poses serious

economic challenges that artists are sometimes slow to master Second despite conventional wisdom in the West that China's economic reforms have not been followed by serious political reform he shows that the shift from state patronage to a mixed system of private and public sponsorship is in fact a fundamental political change Third Western recognition of the reformation in China's cultural life has been obscured by a combination of ignorance ideological barriers and foreign policy rivalry Cogent witty and deeply informed this comprehensive overview of the Chinese arts scene will be an essential text for all observers of contemporary China     *The Confucian Misgivings--Liang Shu-ming's Narrative About Law* Zhangrun Xu,2017-06-23

The major intellectual interest throughout this book is to offer a study on China's legal legacy through Liang Shu-ming's eyes The book follows the formula of the parallel between Life and Mind Physis and Nomos and compares Liang Shu-ming's narrative with his own practical orientation and with the theories of other interlocutors The book puts Liang Shu-ming into the social context of modern Chinese history in particular the context of the unprecedented crisis of meaning in the legal realm and the collapse of a transcendental source for Chinese cultural identity in the light of modernity The evaluation provided by this narrative could be helpful in clarifying the deep structures and significance of the present Chinese legal system through historically exploring Liang Shu-ming's misgivings The book is intended for academics of legal history and cultural studies The book is unique in that it is the first book to explore New Confucian's considerations on reconstruction of Chinese legal system in the modern era It presents a comprehensive systematical comparison of Liang Shu-ming's narrative about constitutional government in China against other schools of thought     **Chinese America: History and**

**Perspectives 1988** ,     *The Publishers' Trade List Annual* ,1905     **Textiles in the Pacific, 1500-1900** Debin Ma,2017-03-02

*Textiles in the Pacific 1500 1900* brings together 13 articles which include both classics and lesser known but important works related to the trade and production of textiles in the Pacific region extending from the tip of Northeast Asia to the other end of South America and Australia Collectively these articles bring out two central themes as highlighted in the introduction First there is the leading role of textiles in linking up the economies across the Pacific in the era before the 19th century rise of steam engine powered global integration Second is the crucial role of textile manufacturing and trade in the early stage of industrialization for most of the developing Pacific economies after the 19th century The volume also reflects both revolutionary shifts in paradigms and revisions of traditional consensus and seeks to present a more balanced account of global trade and market integration in the early modern period     **Ecclesiastical Colony** Ernest P. Young,2013-03-05

The French Religious Protectorate was an institutionalized and enduring policy of the French government based on a claim by the French state to be guardian of all Catholics in China The expansive nature of the Protectorate's claim across nationalities elicited opposition from official and ordinary Chinese other foreign countries and even the pope Yet French authorities believed their Protectorate was essential to their political prominence in the country This book examines the dynamics of the French policy the supporting role played in it by ecclesiastical authority and its function in embittering Sino

foreign relations In the 1910s the dissidence of some missionaries and Chinese Catholics introduced turmoil inside the church itself The rebels viewed the link between French power and the foreign run church as prejudicial to the evangelistic project The issue came into the open in 1916 when French authorities seized territory in the city of Tianjin on the grounds of protecting Catholics In response many Catholics joined in a campaign of patriotic protest which became linked to a movement to end the subordination of the Chinese Catholic clergy to foreign missionaries and to appoint Chinese bishops With new leadership in the Vatican sympathetic to reforms serious steps were taken from the late 1910s to establish a Chinese led church but foreign bishops their missionary societies and the French government fought back During the 1930s the effort to create an indigenous church stalled It was less than halfway to realization when the Chinese Communist Party took power in 1949 Ecclesiastical Colony reveals the powerful personalities major debates and complex series of events behind the turmoil that characterized the nineteenth and early twentieth century experience of the Catholic church in China
