Williams,1985 *Something to Say* William Carlos Williams on Younger Poets collects all of Williams known writings reviews

essays introductions and letters to the editor on the two generations of poets that followed him from Kenneth Rexroth and Louis Zukofsky to Robert Lowell and Allen Ginsberg What might have been a random collection of occasional pieces achieves remarkable coherence from the singleness of Williams poetic vision his belief that the secret spirit of ritual of poetry was trapped in restrictive molds and if these could be broken the spirit would be able to live again in a new contemporary form Only a revived clarity and accuracy in sight and expression would enable the modern world to reform social order which Williams saw in complete disarray To resuscitate American Poetry Williams concentrated his efforts on the purification of poetic speech his American idiom and on remaking the poetic line in a new measure his variable foot And while his battles with his contemporaries on these issues could be heated he was always a nurturing father to the young a useful presence a model and a liberator He told Ginsberg to pare down and economize Roethke to open up and encouraged Lowell and Levertov to shake off poetic conventions But in all his emphasis on the poem as a made object of concrete physicality or as a field of action he would return again and again to this basic advice to young writers The only thing necessary is to have something to say when at last the opportunity comes to say it     Routledge Handbook of Medicine and Poetry Alan Bleakley,Shane Neilson,2024-05-02 The Routledge Handbook of Medicine and Poetry draws on an international selection of authors to ask what the cultures of poetry and medicine may gain from reciprocal critical engagement The volume celebrates interdisciplinary inquiry critique and creative expansion with an emphasis upon amplifying provocative and marginalized voices This carefully curated collection offers both historical context and future thinking from clinicians poets artists humanities scholars social scientists and bio scientists who collectively inquire into the nature of relationships between medicine and poetry Importantly these can be both productive and unproductive How for example do poet doctors reconcile the outwardly antithetical approaches of bio scientific medicine and poetry in their daily work where typically the former draws on technical language and associated thinking and the latter on metaphors How does non narrative lyrical poetry engage with narrative based medicine How do poets writing about medicine identify as patients Central to the volume is the critical investigation of the consequences of varieties of medical pedagogy for clinical practice Presenting a vision of how poetic thinking might form a medical ontology this thought provoking book affords an essential resource for scholars and practitioners from across medicine health and social care medical education the medical and health humanities and literary studies     **The Publishers' Trade List Annual** ,1977
