Hartshorne: A New World View Charles Hartshorne, 2007 Charles Hartshorne is the Einstein of Religious thought

Serving the Present Age Phyllis D. Airhart, 1992-02-26 Essential to Methodist revivalism was the personal conversion experience which constituted the basis of salvation and church membership Revivalism maintains Airhart was a distinctive form of piety and socialization that was critical in helping Methodists define who they were colouring their understanding of how religion was to be experienced practised articulated and cultivated This revivalist piety even more than doctrine or policy was the identifying mark of Methodism in the nineteenth century But during the late Victorian era the Methodist presentation of the religious life underwent a transformation By 1925 when the Methodist Church was incorporated into the United Church of Canada its most prominent leaders were espousing an approach to piety that was essentially and sometimes explicitly non revivalist The Methodist approach to personal religion changed during this transition and significantly Methodists increasingly became identified with social Christianity although experience remained a key aspect of their theology There was also a growing tendency to associate revivalism with fundamentalism a new religious development that used the Methodist language of conversion but was unappealing to Canadian Methodists Airhart portrays the tensions between tradition and innovation through stories of the men and women who struggled to revitalize religion in an age when conventional social assumptions and institutions were being challenged by the ideals of the progressive movement *Serving the Present Age* is an account of Canadian Methodist participation in a realignment of North American Protestantism which supporters believed would better enable them in the words of a well known Wesley hymn to serve the present age Still in Print Jan Nordby Gretlund, 2013-01-23 An insightful guidebook to some of the best examples of modern Southern fiction as selected by an international group of critics In *Still in Print* eighteen southern novels published since 1997 fall under the careful scrutiny of an international cast of accomplished literary critics to identify the very best of recent writings in the genre These essays highlight the praiseworthy efforts of a pantheon of novelists celebrating and challenging regionality unearthing manifestations of the past in the present and looking to the future with wit and healthy skepticism Organized around shared themes of history place humor and malaise the novels discussed here interrogate southern culture and explore the region's promise for the future Four novels reconsider the Civil War and its aftermath as Charles Frazier Kaye Gibbons Josephine Humphreys and Pam Durban revisit the past and add fresh insights to contemporary discussions of race and gender through their excursions into history The novels by Steve Yarbrough Larry Brown Chris Offutt Barry Hannah and James Lee Burke demonstrate a keen sense of place rooted in a South marked by fundamentalism poverty violence and rampant prejudice but still capable of promise for some unseen future The comic fiction of George Singleton Clyde Edgerton James Wilcox Donald Harington and Lewis Nordan shows how southern humor still encompasses customs and speech reflected in concrete places Ron Rash Richard Ford and Cormac McCarthy probe the depths of human existence often with

disturbing results as they write about protagonists cut off from their own humanity and desperate to reconnect with the human race. Diverse in content but unified in genre, these particular novels have been nominated by the contributors to *Still in Print* for long-term survival as among the best modern representations of the southern novel. Featuring M. Socialism—The Tragedy of an Idea Lajos Bokros, 2020-12-20. This book explores the idea of socialism from three angles and raises the questions if socialism is possible, inevitable, and desirable. Socialism as an economic and societal system was possible based on the two most important pillars of Marxian political economy: State ownership in the means of production and mandatory central planning command economy. Nevertheless, these two characteristics are compatible only with dictatorship. On this basis, socialism is neither inevitable nor desirable because it excludes competition, freedom, democracy, and the rule of law. The three questions are analyzed through the academic work of five towering figures: Joseph A. Schumpeter, Karl Polanyi, Friedrich A. Hayek, Karl Popper, and Hannah Arendt. The theoretical findings and inferences resulting from this analysis are compared with the reality of socialism as it existed rather than an imaginary uncontroversial blueprint of socialism. The book discusses the evolution of Soviet communism and its attempts with market reforms to solve its inherent contradictions. It concludes that totalitarian regimes tend to fail in reforms because market freedom is inconsistent with totalitarian control. The author makes a strong case against dictatorship also in the context of the spreading of nationalist populism around the globe. This book is a must-read for everybody interested in a better understanding of the ideas of socialism, totalitarianism, and populism. *Who Owns Religion?* Laurie L. Patton, 2019-11-27. *Who Owns Religion* focuses on a period, the late 1980s through the 1990s, when scholars of religion were accused of scandalizing or denigrating the very communities they had imagined themselves honoring through their work. While controversies involving scholarly claims about religion are nothing new, this period saw an increase in vitriol that remains with us today. Authors of seemingly arcane studies on subjects like the origins of the idea of Mother Earth or the sexual dynamics of mysticism have been targets of hate mail and book-banning campaigns. As a result, scholars of religion have struggled to describe their own work to their various publics and even to themselves. Taking the reader through several compelling case studies, Patton identifies two

trends of the 80s and 90s that fueled that rise the growth of multicultural identity politics which enabled a form of volatile public debate she terms eruptive public space and the advent of the internet which offered new ways for religious groups to read scholarship and respond publicly These controversies she shows were also fundamentally about something new the very rights of secular Western scholarship to interpret religions at all Patton s book holds out hope that scholars can find a space for their work between the university and the communities they study Scholars of religion she argues have multiple masters and must move between them while writing histories and speaking about realities that not everyone may be interested in hearing

Charles Hartshorne's Concept of God S. Sia, 2013-03-14 Charles Hartshorne s considerable writings have been influential in contemporary religious and philosophical thought Not only is he regarded as the leading living representative of process thought as well as a much respected interpreter of Whitehead but he has also established himself as an original and creative thinker in his own right The literature on his philosophy has been rapidly increasing His thought and influence have also been the subject of a number of conferences and gatherings of scholars One of Hartshorne s most notable contributions to contemporary philosophy and theology is his concept of God In his writings he has set out to formulate the idea of deity so as to preserve perhaps increase its religious value while yet avoiding the contradictions which seem inseparable from the idea as customarily defined The result of his efforts has been the development of the concept of a dipolar God insofar as contrasting metaphysical predicates e.g. relative absolute contingent necessary finite infinite and so on are affirmed as applicable to God although always in an eminent way Inasmuch as he has elaborated this concept in close dialogue with classical theism he also refers to it as neo classical Because of the emphasis he places on the reality of change and becoming in his metaphysics which regards God as the chief exemplification of metaphysical principles the term process has likewise been used to describe his notion of God
