The Nuclear Weapons Freeze Arms Control:

The Nuclear Weapons Freeze and Arms Control, 1983 *The Nuclear Freeze Debate* Paul M Cole, William J Taylor Jr, 2019-06-26 From a local ballot initiative in Massachusetts the nuclear weapons freeze movement has grown during the last three years into an important national issue By 1983 Congress had been asked to consider more than two dozen freeze resolutions and more than 25% of the voters in the U S had the opportunity to vote on state wide and regional freeze initiatives This book explores the issues behind the current debate over nuclear weapons and the freeze movement from a wide range of perspectives The contributors assess the goals and implications of the freeze movement examine its origins in religious and secular pacifism explain the amendments to the original freeze proposal introduced in Congress and discuss the reaction and policies of the Reagan administration The nuclear freeze movement is placed in an international context with discussions of recent arms negotiations European views of U S policies and the possible effects of a freeze on NATO allies and on U S national security The book includes a comprehensive annotated bibliography *Congress and the Nuclear Freeze* Douglas C. Waller, 1987 Early in 1982 a group of lawmakers introduced into both houses of the U S Congress a resolution calling on the United States and the Soviet Union to negotiate a mutual and verifiable halt to the nuclear arms race It was a bold measure and one that sparked intense debate between members of Congress and the White House over the conduct of U S arms control policy This book is an inside account of that legislative battle told by a congressional aide who was in the thick of it **Reversing the Nuclear Arms Race** Carla B. Johnston, 1986 *The Nuclear Freeze Revisited* Gordon Thompson, Andrew Haines, 1987 **The Nuclear Weapons Freeze and Arms Control**, 1983 **Coalitions & Political Movements** Thomas R. Rochon, David S. Meyer, 1997 Twelve contributions apply recent theory on movements to the nuclear freeze movement of the 1980s Subject areas include the development of the freeze movement its social and political impact and the question of whether the movement simply disintegrated or was transformed into other forms of activism Annotation copyrighted by Book News Inc Portland OR **A Winter of Discontent** David Meyer, 1990-06-26 The nuclear freeze movement grew more quickly than even the most optimistic activists thought possible as large numbers of Americans became convinced that there was something wrong with United States defense policy and that they could do something about it This analysis provides the first comprehensive history of the nuclear freeze movement approaching it from three distinct perspectives Changes in the politics and policy of nuclear weapons created an opportunity for a dissident movement Intermediating forces in American politics influenced the situation The efforts of activists and organizations to build a protest movement and their interaction with American political institutions provide the third perspective A Winter of Discontent addresses both the broad spectrum of movement activity and the political context surrounding it The text explores the challenge of the nuclear freeze movement to the content of United States national security policy and the policy making process By analyzing the freeze a theoretical framework for understanding the origins development and potential political

influence of other protest movements in the United States can be developed The book also strives to integrate analysis of peace movements into an understanding of the policy context in which they emerge This volume is essential for courses in social movements strategic policy American politics and political sociology Antinuclear freeze activists and students of peace studies will also find this work invaluable The Freeze and Arms Control David Riley,1983 Congressional Record United States. Congress,1984 The Congressional Record is the official record of the proceedings and debates of the United States Congress It is published daily when Congress is in session The Congressional Record began publication in 1873 Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States 1789 1824 the Register of Debates in Congress 1824 1837 and the Congressional Globe 1833 1873 **United States-Soviet Relations** United States. Congress. Senate. Committee on Foreign Relations,1983 *Managing National Security Policy* William W. Newmann,2010-06-15 The U S national security decision making system is a product of the Cold War Formed in 1947 with the National Security Council it developed around the demands of competing with and containing the USSR But the world after the collapse of communism and particularly the tragedy of September 11 is vastly different A threatening but familiar enemy has given way to a complex environment of more diverse and less predictable threats As the creation of the Homeland Security Council and Office of Homeland Security indicate the United States must now reevaluate standard national security processes for this more uncertain world In this timely book William W Newmann examines the way presidents manage their advisory process for national security decision making and the way that process evolves over the course of an administration s term Three detailed case studies show how the president and his senior advisors managed arms control and nuclear strategy during the first terms of the Carter Reagan and G H W Bush presidencies These studies enhanced by interviews with key members of the national security teams including James Baker Brent Scowcroft and Zbigniew Brzezinski reveal significant patterns of structure and adaptation They provide a window to how decision making in the modern White House really works at a moment when national security decisions are again at the top of the agenda Specifically Newmann investigates this pattern Each president begins his administration with a standard National Security Council based interagency process which he then streamlines toward a reliance on senior officials working in small groups and a confidence structure of a few key advisors Newmann examines the institutional pressures that push administrations in this direction as he also weighs the impact of the leadership styles of the presidents themselves In so doing he reaches the conclusion that decision making can be an audition process through which presidents discover which advisors they trust And the most successful process is one that balances formal informal and confidence sources to maintain full discussion of diverse opinions while settling those debates informally at the senior most levels Unlike previous studies *Managing National Security Policy* views decision making as dynamic rather than as a static system inaugurated at the beginning of a president s term The key to understanding the decision making process rests upon the study of the evolving relationships between the

president and his senior advisors Awareness of this evolution paints a complex portrait of policy making which may help future presidents design national security decision structures that fit the realities of the office in today s world *States Think about the Unthinkable* ,1982 **Bulletin of the Atomic Scientists** ,1985-08 *Statistical Reference Index* ,1980

Nuclear Arms Control National Academy of Sciences,Policy and Global Affairs,Office of International Affairs,Committee on International Security and Arms Control,1985-02-01 This nontechnical overview of developments in nuclear arms control describes how the United States and the Soviet Union arrived at their present positions and where they might go from here According to Foreign Affairs This book is proof that the complexities of arms control can be successfully explained in a nontechnical and even more importantly nonpartisan manner It presents the key issues in a clear thorough and remarkably up to date way Strongly recommended as a primary source for classroom and public discussions *Northern European*

Security Issues ,1983 **Energy and Water Development Appropriations for 1984: Department of Energy** United States. Congress. House. Committee on Appropriations. Subcommittee on Energy and Water Development,1983

American Foreign Policy Current Documents ,1982 *Bulletin of the Atomic Scientists* ,1983-03
