## **The Nude Male A New Perspective:**

The Nude Male Margaret Walters, 1978 The new perspective is female but of course many of the artists discussed Caravaggio Michelangelo Warhol Tom of Finland were gay men P Thorslev The Nude Richard Leppert, 2018-05-04 The Nude explores some of the principal ways that paintings of the nude function in the conflicted terrain of culture and society in Europe and America from the fifteenth through twentieth centuries as set against questions about human sexuality that emerge around differences of class gender age and race Author Richard Leppert relates the visual history of how the naked body intersects with the foundational characteristics of what it is to be human measured against a range of basic emotions happiness delight and desire fear anxiety and abjection and read in the context of changing social and cultural realities The bodies comprising the Western nude are variously pleased or tormented ecstatic or bored pleased or horrified In short as this volume amply demonstrates the nude in Western art is a terrain on whose surface is written a summation of Western history its glory but also its degradation Men's Bodies Judith Still, 2019-08-07 No detailed description available for Men's Bodies *Image of a Man* Alex Belsey, 2020 Post war British artist Keith Vaughan 1912-77 was not only a supremely accomplished painter he was an impassioned eloquent writer *Image of a Man* provides a comprehensive critical reading of his extraordinary journal uncovering the attitudes and arguments that shaped and reshaped Vaughan's identity as a man and as an artist **Super Bitches and Action Babes** Rikke Schubart, 2014-08-23 With actress Pam Grier's breakthrough in *Coffy* and *Foxy Brown* women entered action science fiction war westerns and martial arts films genres that had previously been considered the domain of male protagonists This ground breaking cinema however was and still is viewed with ambivalence While women were cast in new and exciting roles they did not always arrive with their femininity intact often functioning both as a sexualized spectacle and as a new female hero rather than female character This volume contains an in depth critical analysis and study of the female hero in popular film from 1970 to 2006 It examines five female archetypes the dominatrix the Amazon the daughter the mother and the rape avenger The entrance of the female hero into films written by and made for men is viewed through the lens of feminism and post feminism arguments Analyzed works include films with actors Michelle Yeoh and Meiko Kaji the *Alien* films the *Lara Croft* franchise *Charlie's Angels* and television productions such as *Xena Warrior Princess* and *Alias* **Transgressive Bodies** Niall Richardson, 2016-02-17 In recent years the body has become one of the most popular areas of study in the arts social sciences and humanities *Transgressive Bodies* offers an examination of a variety of non normative bodies and how they are represented in film media and popular culture Examining the non normative body in a cultural studies context this book reconsiders the concept of the transgressive body establishing its status as a culturally mutable term arguing that popular cultural representations create the transgressive or freak body and then proceed to either contain its threat or exploit it Through studies of extreme bodybuilding obesity disability and transsexed bodies it examines the implications of such transgressive bodies for gender politics and sexuality

Transgressive Bodies engages with contemporary cultural debates always relating these to concrete studies of media and cultural representations This book will therefore appeal to scholars across a range of disciplines including media and film studies cultural studies gender studies sociology sports studies and cultural theory

### **The Visible and the Invisible**

Daniela Hammer-Tugendhat, 2015-03-10 The book addresses the scientific debates on Rembrandt Metsu Vermeer and Hoogstraten that are currently taking place in art history and cultural studies These focus mainly on the representation of gender difference the relationship between text and image and the emotional discourse They are also an appeal for art history as a form of cultural studies that analyses the semantic potential of art within discursive and social contemporary practices Dutch painting of the seventeenth century reflects its relationship to visible reality It deals with ambiguities and contradictions As an avant garde artistic media it also contributes to the emergence of a subjectivity towards the modern bourgeois It discards subject matter from its traditional fixation with iconology and evokes different imaginations and semantizations aspects that have not been sufficiently taken into account in previous research The book is to be understood as an appeal for art history as a form of cultural science that analyses the semantic potential of art within discursive and social contemporary practices and at the same time demonstrates its relevance today Works by Rembrandt Metsu Vermeer Hoogstraten and others serve as exemplary case studies for addressing current debates in art history and cultural studies such as representation of gender difference relationship between text and image and emotional discourse

**Biblical Worlds** David M. Gunn, Paula McNutt, 2002-12-01 The essays in this volume address the interface between biblical studies archaeology sociology and cultural anthropology celebrating the pioneering work of James Flanagan In particular this collection explores various ways in which the real ancient world is constructed by the modern critical reader with the aid of various theoretical and practical tools The contributors to this volume have all been involved with Flanagan and his projects during his academic career and the essays carry forward the important interdisciplinary agendas he has encouraged Part One deals with his recent interest in spatiality and Part Two with social and historical constructs This book in James Flanagan s honour represents a significant statement of research in an area of biblical and historical research that is increasingly important yet surprisingly under represented

### **Disappearing Ink** Eileen O'Neill, 2025-03-07

When Eileen O'Neill 1953 2017 published her ground breaking essay Disappearing Ink Early Modern Women Philosophers and the History of Philosophy in 1998 women philosophers were virtually absent from encyclopedias of philosophy and the numerous histories and anthologies of early modern thought This essay would come to have an enormous impact signaling the beginning of the movement to introduce early modern women philosophers into the canon In its densely packed 46 pages Disappearing Ink presented the names major works and principal theses of literally dozens of forgotten women whose works were published during the early modern period and who had engaged in correspondence with central male figures but whose names and works had since been erased Disappearing Ink reprints this now canonical piece together with subsequent essays

some widely read some harder to locate and one on Cartesianism and the Gendered Mind written in 2013 and published here for the first time The essays in Part I develop O'Neill's views on feminist history of philosophy articulating an account of feminist historiography that is inclusive yet at the same time textually nuanced The essays in Part II provide in depth treatment of individual figures and themes These essays discuss the views of early modern women philosophers such as Mary Astell Margaret Cavendish and Mme de Lambert alongside those of Descartes Leibniz Poullain de la Barre and the Scholastics engaging with questions of mind/body interaction occasional causation physical influx pan organicism and whether the Cartesian mind is gendered The sole essay in Part III departs from the historical orientation of Parts I and II This essay informed by O'Neill's deep knowledge of art history is an illuminating study of agency in representations of women in feminist erotic art of the 1980s Combined these works trace the complete arc of O'Neill's thought from painstaking studies of individual themes and figures to a sweeping vision of how feminism should inform our approach to the history of early modern thought indeed to the history of philosophy more generally More than anyone else O'Neill explained why women were excluded from the canon and showed how they could be incorporated into it

**Gender/body/knowledge** Alison M. Jaggar, Susan Bordo, 1989 The essays in this interdisciplinary collection share the conviction that modern western paradigms of knowledge and reality are gender biased Some contributors challenge and revise western conceptions of the body as the domain of the biological and natural the enemy of reason typically associated with women

**Feminism and Masculinities** Peter F. Murphy, 2004-07-15 This Reader provides an international mixture of the best classic foundational pieces and recent key works that investigate masculinity from a feminist perspective The chapters examine a wide range of topics including gay liberation the men's movement black and working class masculinities homophobia and the Internet

**Carnal Knowing** Margaret R. Miles, 2006-09-01 When we look at Michelangelo's David we see a nakedness that expresses physical prowess self knowledge and spiritual discipline What do we see when we look at Hans Baldung's Eve the Serpent and Death or Master Francke's Martyrdom of Saint Barbara Why should those naked female images symbolize wantonness and shame How do ideas about nakedness formed at the dawn of Christianity continue to shape today's sexual values What must women do to take their bodies back This revolutionary study by Margaret R Miles formerly Bussey Professor of Historical Theology at the Harvard Divinity School and author of the acclaimed *Images as Insight* sifts through centuries of Christian writing and religious ritual and above all Western art to reveal the origins of our attitudes toward women's bodies and their encoded meanings Broad enough to encompass fourth century descriptions of Christian baptism and contemporary theories of representation *Carnal Knowing* is a brilliant startling work of scholarship whose implications extend far beyond the academy to the way we live and see

[Sex in Public](#) Lauren Rosewarne, 2009-03-26 Despite decades of feminist awareness and activism women continue to be portrayed in outdoor advertising in a limited and sexist manner The fact that in public space audiences are exposed to such images without choice renders the issue an important public policy concern *Sex in Public*

utilises a large outdoor advertising data collection to examine the contemporary outdoor advertising landscape documenting the routine portrayal of women as thin white young and idle This book examines why such portrayals are concerning for feminists as well as for public policy and explores the advertising self regulation systems that facilitate the display of such images This book criticises sexist outdoor advertising as a form of sexual harassment given that imagery often bearing very strong semblance to pin ups which would be outlawed in a workplace are readily displayed in public space reflecting a troublesome public policy double standard Understanding sexist outdoor advertising as a form of sexual harassment is a new framework that Sex in Public offers to understand critique and condemn such images Sex Daniel Orrells,2015-04-30 Sex is fundamental to society We cannot think about politics power identity or culture without also thinking about sexuality Despite this the scientific study of sexual behaviour is a relatively recent phenomenon Doctors legal experts and other intellectuals have all pondered challenging questions in an attempt to stay abreast of the latest sexual research How might we separate talking about sex scientifically from discussing and consuming pornography How do we speak objectively about desire and pleasure And how do the words that we use to talk about sex affect what we are able to say about it Such questions increasingly inform public discourse across a variety of media Showing how ancient words and ideas have left a significant imprint on present day ideas about sex Daniel Orrells offers a bold new narrative of how the scientific study of sexuality came into being Uncovering the intriguing story of how the obscene and erotic verse of Roman epigram and love poetry became the sanitised language of nineteenth century sexual science this divertingly readable book demonstrates how the reception of both Latin and Greek texts was central to the development of modern sexology and psychoanalysis Ranging from Sappho Catullus and Martial to Michel Foucault Richard von Krafft Ebing and Sigmund Freud the author reveals just how profoundly classics has shaped the landscape of sexual identity that we inhabit today **Art And The Committed Eye** Richard Leppert,2019-04-05 In Art and the Committed Eye Richard Leppert examines Western European and American art from the fifteenth to the twentieth century He studies the complex relation between the look of images and the variety of social and cultural uses to which they are put and demonstrates that the meaning of any image is significantly determined by its function which changes over time In particular he emphasizes the ways in which visual culture is called on to mediate social differences defined by gender class and race In Leppert addresses the nature and task of representation discussing how meaning accrues to images and what role vision and visibility play in the history of modernity Here he explains imagery's power to attract our gaze by triggering desire and focuses on the long history of the use of representation to enact a deception whether in painting or advertising explores art's relation to the material world to the ways in which images mark our various physical and psychic ties to objects The author analyzes still life paintings whose subject matter is both extraordinarily diverse and deeply paradoxical from flower bouquets to grotesque formal arrangements of human body parts Leppert demonstrates that even in innocent still lifes formal design and technical execution are imbued with cultural conflict

and social power is devoted to the representation of the human body as subject to obsessive gazing and as an object of display spectacle and transgression The variety of body representation is enormous pleased or tortured gorgeous or monstrous modest or lascivious powerful or weak in the bloom of life or under the anatomist s knife clothed or naked But it is the sexual body Leppert shows that has provided the West with its richest most complex contradictory conflicted and paradoxical accounts of human identity in relation to social ideals      **Constructions of the Classical Body** James I.
