The Of Gold:

The Glitter of Gold Marc Flandreau, 2004-03-04 This book studies the so far unexplored operation of the international monetary system that prevailed before the emergence of the international gold standard in 1873. Conventional wisdom has it that the emergence of gold as a global anchor was both an inescapable and desirable evolution given the exchange rate stability it provided and Britain's economic predominance. This study draws on a wealth of archival sources and abundant new statistical evidence fully detailed in the appendix to demonstrate that global exchange rate stability always prevailed before the making of the gold standard. This was despite the heterogeneity among national monetary regimes based on gold, silver or both. The reason for the stability before the establishment of the gold standard is France's bimetallic system. France, by being in a position to trade gold for silver and vice versa effectively pegged the exchange rate between gold and silver at its legal ratio of 15.5. Part I of the book studies exactly how this mechanism worked. Part II focuses on the respective behaviour of private concerns and arbitrageurs on the one hand and authorities such as the Bank of France on the other hand in order to underline the constraints and opportunities that were associated with bimetallism as an international regime. Finally, Part III provides a new view on the collapse of bimetallism and its replacement by a gold standard. It is argued that bimetallism might well have survived and that the emergence of the gold standard was by no means inescapable. Rather, it resulted from a massive coordination failure at both national and international levels, a failure that was a preview of the interwar collapse of the gold standard.

The Terror of Gold-digger Creek G. H. Teed, 2019-04-24 Two grizzly murders, one in Papua and a later one in London, launch master detective Sexton Blake on an international search for the killer. He knows his opponent: the right hand is missing and in place he sometimes uses a terrifying hook. What are the reasons for these ghastly murders? Who would do such a thing? Into the jungles go Blake and Tinker, disguised. Into the jungles with their own wild tribes and into Gold-digger Creek and danger.

Darnley; or, The Field of the Cloth of Gold G. P. R. James, 2021-05-19 G. P. R. James's historical novel *Darnley or The Field of the Cloth of Gold* intricately weaves a tapestry of courtly intrigue and socio-political dynamics set against the backdrop of the lavish 1520 summit between King Henry VIII of England and King Francis I of France. With a blend of rich descriptive prose and well-researched historical detail, James captures the vibrant color of the era while exploring themes of ambition, love, and betrayal. The narrative oscillates between personal and political arenas, showcasing the complexities of royal ambitions amid the grandeur of one of the most extravagant events in European history: the Field of the Cloth of Gold. G. P. R. James, a prominent 19th-century novelist, was significantly influenced by his extensive studies of history and his familiarity with English literature. Known for his vivid storytelling and rich character development, James's works often reflect his deep interest in the nuances of historical narratives and the human experience within them.

His expertise in portraying historical figures and events likely stems from his academic background and passion for historical accuracy making this novel a compelling reflection of his literary vision Darnley or The Field of the Cloth of Gold is a must read for enthusiasts of historical fiction and those seeking a nuanced understanding of Tudor politics Its blend of vivid storytelling and historical depth not only entertains but also enlightens readers about a pivotal moment in European history James s ability to breathe life into historical characters and events ensures that this narrative remains both a captivating tale and an insightful exploration of its time **On the Anticipation of the Discovery of Gold in Australy** Murchison,1852
