Delaisse, 2023-12-22 In *A Century of Dutch Manuscript Illumination* L M J Delaiss takes readers on a detailed journey through the unique characteristics and historical significance of Dutch illumination during the late Middle Ages Unlike the luxury manuscripts produced for the royal courts of France and the dukes of Burgundy Dutch manuscripts developed their own artistic identity marked by an understated aesthetic and deeply spiritual undertones Delaiss emphasizes that while foreign influences from Cologne and France shaped this artistic tradition Dutch illumination maintained an originality that reflected the cultural and spiritual movements of the region particularly in the fifteenth century Despite not being as lavish as their European counterparts these manuscripts are rich in creativity and spiritual significance offering a distinct contrast to the grander more opulent styles of southern neighbors The book goes beyond a surface level appreciation of Dutch miniatures advocating for a more comprehensive study of these works within the broader context of bookmaking Delaiss argues that a new scholarly approach is needed to explore the interrelations between the format handwriting and

decorative elements of these manuscripts which are intricately linked to their illuminations With gratitude to the many collectors institutions and scholars who contributed to this volume Delaiss offers an insightful exploration of Dutch manuscript illumination urging the academic community to recognize and appreciate its quiet but profound contributions to the art of medieval Europe This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1968 **Hours of Catherine of Cleves (M.917** Catholic Church,

Binding the Absent Body in Medieval and Modern Art Emily Kelley,2017-07-05 This collection of essays considers artistic works that deal with the body without a visual representation It explores a range of ways to represent this absence of the figure from abject elements such as bodily fluids and waste to surrogate forms including reliquaries manuscripts and cloth The collection focuses on two eras medieval and modern when images referencing the absent body have been far more prolific in the history of art In medieval times works of art became direct references to the absent corporal essence of a divine being like Christ or were used as devotional aids By contrast in the modern era artists often reject depictions of the physical body in order to distance themselves from the history of the idealized human form Through these essays it becomes apparent even when the body is not visible in a work of art it is often still present tangentially Though the essays in this volume bridge two historical periods they have coherent thematic links dealing with abjection embodiment and phenomenology Whether figurative or abstract sacred or secular medieval or modern the body maintains a presence in these works even when it is not at first apparent **Metaphors of Memory** D. Draaisma,2000-12-07 What is memory It is at the same time ephemeral unreliable and essential to everything we do Without memory we lose our sense of identity reasoning even our ability to perform simple physical tasks Yet it is also elusive and difficult to define and throughout the ages philosophers and psychologists have used metaphors as a way of understanding it First published in 2000 this fascinating book takes the reader on a guided tour of these metaphors of memory from ancient times to the present day Crossing continents and disciplines it provides a compelling history of ideas about the mind by exploring the way these metaphors have been used metaphors often derived from the techniques and instruments developed over the years to store information ranging from wax tablets and books to photography computers and even the hologram Accessible and thought provoking this book should be read by anyone who is interested in memory and the mind **The Book of Hours of Catherine of Cleves.**

By John Plummer, Etc Pierpont Morgan Library,John Plummer,1964 "Women, Manuscripts and Identity in Northern Europe, 1350?550 " JoniM. Hand,2017-07-05 Author Joni M Hand sheds light on the reasons women of the Valois courts from the mid fourteenth to the mid sixteenth century commissioned devotional manuscripts Visually interpreting the non text elements portraits coats of arms and marginalia as well as the texts Hand explores how the manuscripts were used to

express the women's religious, political, and/or genealogical concerns. This study is arranged thematically according to the method in which the owner is represented. Recognizing the considerable influence these women had on the appearance of their books, Hand interrogates how the manuscripts became a means of self-expression beyond the realm of devotional practice. She reveals how noblewomen used their private devotional manuscripts as vehicles for self-definition to reflect familial, political, and social concerns and to preserve the devotional and cultural traditions of their families. Drawing on documentation of women's book collections that has been buried within the inventories of their fathers, husbands, or sons, Hand explores how these women contributed to the cultural and spiritual character of the courts and played an integral role in the formation and evolution of the royal libraries in Northern Europe.
