The Peasantry Of Europe:

The Peasantry of Europe Werner Rösener, 1994 **The Peasantries of Europe** Tom Scott, 1998 This ambitious survey offers a guide to the different peasant societies and economies in Europe from the later Middle Ages through to industrialization Eleven regional chapters investigate key themes including patterns of lordship and dependence standards of living and the role of the peasantry in politics Throughout the text emphasises the diversities of peasant society across the whole of Europe from England to the Ottoman lands and from Scandinavia and Russia to Iberia **The Peasantry of Eastern Europe** Ivan Volgyes, 2014-05-09 The Peasantry of Eastern Europe Volume II 20th Century Developments reviews research findings concerning rural life and rural transformation in Eastern Europe during the 20th century The economic and political problems of states where collectivization has been successful are examined including Hungary and Romania The social and societal aspects of rural transformation are also discussed Case studies of peasants in Russia are presented with emphasis on their response to the attraction of urban life and the imposed autocracy and tyranny of Soviet rule Comprised of 12 chapters this volume begins with an analysis of the conditions and the minds of Russia's peasants during the period 1900-1917 followed by a detailed account of the peasantry under Soviet rule The discussion then turns to private farming and the status of peasants in Poland since World War II land reform in Yugoslavia and agro mass production in Hungary Subsequent chapters explore rural transformation in Romania rural education in Bulgaria the transformation of the Hungarian peasantry in the 20th century peasantry in China and the role of women in the transformation of rural life in post revolution Yugoslavia The book also considers the Third World experience with rural transformation before concluding with an assessment of the peasantry of Eastern Europe under communism This monograph is intended for students academic specialists economists and agriculturists The Peasant Stories of Bjørnstjerne Bjørnson Carl Edin Nordberg, 1920 *Peasant Europe* H. Hessel Tiltman, 2014-01-21 First published in 2006 This classic work examines the modern history of Europe from an unusual perspective European history has usually focussed on the urban life elite and the middle classes but before World War II more than half of the entire population of the continent was composed of rural peasants occupying a territory stretching from the Black Seas to the Baltic forming a natural barrier between East and West These people Poles Ukrainians Czechs Slovaks Hungarians Southern Slavs and others are the focus of this book First published in the 1930s Tiltman's *Peasant Europe* strays from the normal look at Europe during this time period While much of the continent is concerned with problems of international relations industry and the future of armaments Tiltman goes a step further than most writers and speaks with the common peasant to uncover their day to day concerns He finds that most simply want consideration and a reasonable standard of living for themselves and their children Accompanying the text are full page photographs most of which are taken by the author himself which offer a candid look at peasant life *The Emperor and the Peasant* Kenneth Janda, 2018-01-12 There was more to World War I than the Western Front This history juxtaposes the experiences of a

monarch and a peasant on the Eastern Front Franz Josef I emperor of Austria Hungary was the first European leader to declare war in 1914 and was the first to commence firing Samuel Mozolák was a Slovak laborer who sailed to New York and fathered twins taken as babies and U S citizens to his home village before being drafted into the Austro Hungarian army and killed in combat The author interprets the views of the war of Franz Josef and his contemporaries Kaiser Wilhelm II and Tsar Nicholas II Mozolák's story depicts the life of a peasant in an army staffed by aristocrats and also illustrates the pattern of East European immigration to America The Polish Peasant in Europe and America William Isaac Thomas, Florian Znaniecki, 1918 The Large Landowning Class and the Peasantry in Egypt, 1837-1952 Raouf Abbas, Assem El-Dessouky, 2022-09-01 In Egypt the landowning class first arose in the early part of the nineteenth century from land grants given to extended family members and friends of the ruler Muhammad Ali The development of capitalism and with it the evolution of law and social practice allowed these land grants gradually to take on the attributes of private property a process that culminated in 1891 in land becoming a form of property like any other From these developments a class of large landowners emerged and began to defend their interests both economic and political In two seminal Arabic works published in the 1970s the authors Abbas and El Dessouky traced the formation of this class exploring the multiple factors that influenced the rise and power of landowners Combined into one volume and translated into English for the first time this book offers a comprehensive analysis of landownership and its effects on Egyptian society The authors draw from extensive archival sources successfully integrating in their work the competing forces of the state the landlords and the peasants By moving beyond much of the familiar scholarship on landholders this book presents a new interpretation of Egyptian politics and society *The Changing Peasantry of Eastern Europe* Joseph Obrębski, 1976-01-01 **The Peasantry in the French Revolution** Peter Jones, 1988-10-13 The contention of Georges Lefebvre that the peasantry occupied center stage during the early years of the Revolution is vindicated with the support of fresh evidence culled from archives unpublished theses and other sources The European Peasantry from the Fifteenth to the Nineteenth Century Jerome Blum, 1960 The Last Peasant War Jakub S. Beneš, 2025-01-28 A history of the largely forgotten peasant revolution that swept central and eastern Europe after World War I and how it changed the course of interwar politics and World War II As the First World War ended villages across central and eastern Europe rose in revolt Led in many places by a shadowy movement of army deserters peasants attacked those whom they blamed for wartime abuses and long years of exploitation large estate owners officials and merchants who were often Jewish At the same time peasants tried to realize their rural visions of a reborn society establishing local self government or attempting to influence the new states that were being built atop the wreckage of the Austro Hungarian and Russian Empires In *The Last Peasant War* Jakub Beneš presents the first comprehensive history of this dramatic and largely forgotten revolution and traces its impact on interwar politics and the course of the Second World War Sweeping large portions of the countryside between the Alps and the Urals from 1917 to 1921 this peasant revolution had

momentous aftereffects especially among Slavic peoples in the former lands of the Austro Hungarian Empire It enabled an unprecedented expansion of agrarian politics in the interwar period and provided a script for rural resistance that was later revived to resist Nazi occupation and to challenge Communist rule in east central Europe By shifting historical focus from well studied cities to the often neglected countryside The Last Peasant War reveals how the movements and ambitions of peasant villagers profoundly shaped Europe s most calamitous decades

The Peasantry of Eastern Europe: Roots of rural transformation Iván Völgyes,1979 **The Slavonic Review** ,1923 **The Peasantry of Eastern Europe I.** Volgyes, *The European Peasant Family and Society* Richard L. Rudolph,1995-01-01 In recent years the peasant household has become a central focal point of social history This is true not only because the peasant represents the major element of European society through the nineteenth century but also because many of the main issues in modern historical debate can be studied within the sphere of the peasant family This book deals with the European peasant family during the period of transformation from agrarian to industrial society the time called by some the period of protoindustrialization The essays in this volume explore some of the major issues concerning the influence of the economy society and institutions on the peasant household and conversely the influence of the peasant household on the outside world Themes dealt with include the ways in which the physical environment and the economy may make for very different family structures and even affect intra family relationships the effects of inheritance marriage and kinship strategies as well as social pressure on peasant family structure and demography the debate about changing gender roles and status the debate over the manner and effects of class formation questions of social and political agency the nature of gender and parent child relations the validity of protoindustrial theory and the role of peasants in initiating industrialization as consumers producers and as a labor force In examining these themes the essays provide both case studies and innovative analysis by preeminent international scholars in the fields of family and women s history economic history and demography

The Return of the Peasant A.L. Cartwright,2017-11-22 This title was first published in 2001 Of the many far reaching issues facing post communist states in the wake of the collapse of communist rule few have continued to pose such dilemmas for future progress as the land question This book provides a historical account of national and local attempts to reform land ownership and agricultural production and in particular the way in which land law defined the land question Using archive work to demonstrate the selectivity of the law in righting wrongs and case studies to illustrate the practical obstacles to attempts at reconstructing the pre communist system this work is a critical and detailed portrait of the forces that stand to shape the future of post communist rural life

The Peasant War in Germany Friedrich Engels,1926 **Transactions of the Wisconsin State Agricultural Society** Wisconsin State Agricultural Society,1877 Published with vol 21 25 Transactions of the Wisconsin State Horticultural Society vol 13 17 and Annual report of the Wisconsin Dairymen s Association no 11 15 with vol 22 25 Annual report of the Agricultural Experiment Station of the University of Wisconsin no 1 4
