The Clergy in Early Modern Scotland Michelle D. Brock, 2021 From the early percolation of Protestant thought in the sixteenth century through to the controversies and upheaval of the civil wars in the seventeenth century the clergy were at the heart of religious change in Scotland By exploring their lived experiences and drawing upon historical theological and literary approaches the essays here paint a fresh and vibrant portrait of ministry during the kingdom s long Reformation The contributors investigate how clergy as well as their families and flocks experienced and negotiated religious social and political change through examination of both wider themes and individual case studies the chapters emphasise the flexibility of local decision making and how ministers and their families were enmeshed in parish dynamics while also highlighting the importance of clerical networks beyond the parish What emerges is a ministry that despite the increasing professionalisation of the role maintained a degree of local autonomy and agency The volume thus re focuses attention on the early modern European ministry offering a multifaceted and historically attuned understanding of those who stood at the forefront of Protestant reform

opens with an investigation of the tantalising image of the Black Tudor trumpeter John Blanke in the Westminster Tournament Roll Complementing the assessment of the documentary evidence for his employment in our last volume it uncovers the surprising complexity of how Islamic dress was represented at the court of Henry VIII Two essays engage with the challenging Croxton Play of the Sacrament discussing very different issues of bodily integrity The first revealingly brings together medieval and posthumanist theory proposing how in performance the play can move to obliterate the distinction between Jewish and Christian bodies The second considers the play in the light of modern disability theory before examining the often contrasting evidence of lives lived and performances informed by actual disabled performers The final contributions focus on twentieth and twenty first century performances of medieval material and how it can be adapted for later times and sensibilities Investigation of an almost unknown 1924 London performance of a fifteenth century French nativity play reveals much about early twentieth century views of medieval drama Meanwhile the 2023 coronation of King Charles III prompts an analysis of a spectacular ceremony balanced between asserting its medieval origins and demonstrating its modern relevance Finally a review of a story telling performance assesses how the problematic material of The Seven Sages of Rome might be addressed to modern audiences and preoccupations
