

made some exploratory remarks about a unitary party system, than the preliminary figures on the 1963 census were released. These revealed that Northern Nigeria had a population exceeding that of the three southern regions combined, by a margin sufficient to insure the north's perpetual control of the federal Parliament and government. This gave rise to strong feeling in the south and, particularly, in Eastern Nigeria, since the allegedly inflated figures of the east, in the 1962 census, were the ostensible reason for taking a new census in 1963. At one point, early in 1964, there was a separatist call from the Ibo Union (the Ibo tribe predominates in the east). This brief clamor subsided, but the tensions remain and, during 1964, found expression in a realignment of political parties and forces in anticipation of the 1964 elections.

Pakistan. The Development of its Laws and Constitution. Second edition. By ALAN GLEDHILL. The British Commonwealth. The Development of its Laws and Constitutions, Volume 8. Under the general editorship of George W. Keeton. [London: Stevens & Sons. 1967. xi and 393 pp. £4 17s. 6d.]

THE price should not affright, because this revised edition covers legal and constitutional history, the Constitution of 1962, and the personal laws and statute law of Pakistan, the last of which (excluding the constitutional documents) is to occupy fifteen thick volumes of the *Laws of Pakistan*. The method is like that employed in the volume on India. The laws and their history are expounded and illustrated concisely, without academic discussion. What the series promises is information such as can be used for almost any purpose, and this volume gives it with no distractions. For those interested in the capacity of a modern Muslim State to work a democratic constitution and to observe the Rule of Law this provides circumstantial, compelling and agreeable evidence. For those who need to know how a State can be, legally speaking, a full member of the Commonwealth and at the same time an Islamic republic, this is the only book, altogether convincing.

The unique feature called "Basic Democracies" (p. 116) is introduced with a rare personal comment, giving a glimpse of the author's sympathetic grasp of his protean complex of topics: "... local government boards provide the best training ground for national politicians and, while one could not expect it to be heard with patience in the Indo-Pakistan sub-continent today, it could be argued that constitutional progress . . . has introduced democratic government at the higher levels too fast to avoid the strains resulting from the slower progress at lower levels. . . ." No comment was (or is) necessary on the Supreme Court's finding that the average woman's vote was a second vote for a male relative (so that votes for women were frequently a farce): p. 219. Since the first edition in 1957 Pakistan has been through experiences which tested her commitment to constitutionality and indeed to law: this edition chronicles what has been achieved thereby, and it is possible that it will be more significant in this way than any other volume or edition in the series.

was tragically fragile Both Britain and the Dominions had disarmed to the point of impotence so that when Japan occupied Manchuria in 1931 and attacked Shanghai the centre of British trade in China in the following year they were unable to respond British defence chiefs declared Japan's success to be the writing on the wall Despite these warnings British politicians chose to appease the Japanese at the cost of seriously damaging the League of Nations and to avoid spending money on defence in the Far East Despite the concerns of the Dominions Australia New Zealand and Canada the scene was set for the total collapse of Britain's Empire in the East within a decade This book will be of interest to students and researchers of history

Calendar of State Papers Domestic Series of the Reign of Charles 1. Preserved in the State Paper Department of Her Majesty's Public Record Office Edited by John Bruce ,1871 Mobilising the Masses Matthew Cunningham,2022-04-05 The radical right has gained considerable ground in the twenty first century From Brexit to Bolsonaro and Tea Partiers to Trump many of these diverse manifestations of right wing populism share a desire to co opt or supplant the mainstream parties that have traditionally held sway over the centre right It is now more important than ever to understand similar moments in Australian and New Zealand history This book concerns one such moment the Great Depression and the explosion of large populist conservative groups that accompanied the crisis These citizens movements as they described themselves sprang into being virtually overnight and amassed a combined membership in the hundreds of thousands They staunchly opposed party politicians and political parties for their supposed inaction and infighting Whether left or right it did not matter They wanted to use their vast numbers to pressure their governments into enacting proposals they believed were in the national interest a smaller more streamlined government where Members of Parliament were free to act according to their conscience rather than their party allegiance At the same time the movements prescribed antidotes for their nations economic ill health that were often radical and occasionally anti democratic At the height of their power they threatened to disrupt or outright replace the centre right political parties of the time particularly in Australia At a time when fascism and right wing authoritarianism were on the march internationally the future shape of conservative politics was at stake The English-Speaking Alliance Ritchie Ovendale,2024-11-01 As with appeasement myths and legends have proliferated about the origins of the Cold War It has often been treated as largely a European affair with the responses to the Russian threat being led by the Americans Before 1951 however the Cold War was almost global in scale extending across Europe and Asia penetrating the Middle East and Africa It was the British Foreign Secretary Ernest Bevin who was the principal architect of the Western alliance formed to counter the perceived menace Bevin organized Europe in preparation for the Marshall Plan initiated the Western Union and the North Atlantic Treaty Organization but his vision was wider Like Neville Chamberlain in the late 1930s Bevin outlined a plan for an English speaking defence alliance The French were defeatist and it was politically impossible to propose reliance on Germany for defence What was needed was a bond between Britain the United States and the old white Dominions First published in 1985 The English Speaking Alliance is the story of how the post war Labour governments sustained the image of Britain as a world power and laid the foundations of the West s Cold War foreign policy

It is told from sources in the British American and Australian archives some of which have been used for the first time By laying bare the mechanics of the process of alliance building Ritchie Ovendale offers many new insights which challenge the orthodox view of this crucial period of international politics As such it will appeal to anyone with an interest in world politics and a desire to know more about how the current superpower regime developed
