Demilitarisation and Peace-Building in Southern Africa Peter Batchelor, 2018-12-17 First published in 2004 this work is based on a collaborative research project this trilogy considers the dynamics of demilitarisation and peace building in southern Africa in the aftermath of major violent conflicts The overall aim of the research is to support and facilitate the achievement of sustainable peace and human development in southern Africa by analysing demilitarisation and peace building processes in the region and identifying policy options and interventions for peace building The central focus of the research is the extent to which demilitarisation following the termination of wars has contributed to broad processes of peace building in the affected region Has the military in southern Africa downsized and refocused towards new roles Has there been a peace dividend allowing more investment in economic and human development thereby dealing with some of the root causes of conflict Volume I provides a conceptual framework for the analysis of demilitarisation and peace building processes applicable particularly in the southern Africa context This volume argues that a broad concept of peace building has to take into account economic political social and cultural factors at the local national and regional level **Peacekeeping**

**Small Arms and Security** Denise Garcia, 2006-09-27 This book examines the emergence of new international norms to govern the spread of small arms and the extent to which these norms have been established in the policies and practices of states regions and international organizations It also attempts to establish criteria for assessing norm emergence and to assess the process of norm development by comparing what actually happens at the multilateral level If norm making on small arms and related multilateral negotiations have mostly dealt with illicit arms and most of the norms examined here fall on the arms supplier side of the arms equation the author argues that the creation of international norms and the setting of widely agreed standards amongst states on all aspects of the demand for availability and spread of both legal and illegal small arms and light weapons must become central to the multilateral coordination of policy responses in order to tackle the growing violence associated with small arms availability Small Arms and Security will be of interest to researchers and professionals in the fields of peace and conflict studies global governance international security and disarmament

**The Global War on Your Guns** Wayne R. LaPierre, 2006 *Disarmament and Defence Industrial Adjustment in South Africa* Peter G. Batchelor, Susan Willett, 1998 Peter Batchelor and Susan Willett analyse the response of the South African defence industry to drastic cuts in military expenditure and the demilitarization of society since the end of the cold war and apartheid and the stabilization of the regional security situation The new ANC led government is seeking to use the resources released the peace dividend to restructure and revitalize the country's industrial base and to support reconstruction development and redistribution A lively debate on the country's security needs and strategic doctrine is under way As in other countries strategies of industrial diversification and conversion have met with limited success In the absence hitherto of any coherent government policy on defence industrial adjustment significant skills and technologies have been lost or wasted This book provides a historical analysis of South Africa's unique opportunity to develop new and innovative policies on defence and security matters the arms industry and arms exports and makes a valuable contribution to the international debate on the relationship between disarmament and development

Research Centre (Canada), Group for Environmental Monitoring (Johannesburg, South Africa), 1998 From Defence to Development Redirecting military resources in South Africa      **Light Weapons and Civil Conflict** Jeffrey Boutwell, Michael T. Klare, 1999 A common feature of conflict in the 1990s is death and suffering from small arms and light weapons The global diffusion of assault rifles machine guns mortars and rocket propelled grenades which can be easily carried by an individual or transported by a light vehicle has greatly intensified the violence of conflicts in countries around the world This book represents the perspectives of the foremost specialists on light weapons and it surveys the wide range of policy options open to the international community These include export and import controls law enforcement strategies to break up black markets collection and destruction of weapons following the end of conflict and efforts to illuminate how small arms and light weapons make their way to the killing grounds of the 1990s      **The United Nations, Intra-State Peacekeeping and Normative Change** Esref Aksu, 2003 The UN and Intra State Conflict Problematising the Normative Connection Rethinking the UN Through Intra State Peacekeeping the Analytical Framework The UN's Role in Historical Context Impact of Structural Tensions and Thresholds UN Peacekeeping in Intra State Conflicts Evolution of the Normative Basis The UN in the Congo Conflict ONUC The UN On the Cyprus Conflict UNFICYP The UN in the Angola Conflict UNAVEM The UN in the Cambodia Conflict UNTAC Reflections on International Normative Change      *Small Arms and Light Weapons* Ian Miller, Canada. Department of Foreign Affairs and International Trade, 1996      *Ending Civil Wars* Stephen John Stedman, Donald S. Rothchild, Elizabeth M. Cousens, 2002 A project of the International Peace Academy and CISAC The Center for International Security and Cooperation P ii      Wages of Crime R. T. Naylor, 2002 The author asserts that much of what police press politicians and the public understand about international crime is based on myth and misrepresentation      Policing and Boundaries in a Violent Society Guy Lamb, 2022-01-31 This book explores how social and territorial boundaries have influenced the approaches and practices of the South Africa Police Service SAPS By means of a historical analysis of South Africa this book introduces a new concept police frontierism which illuminates the nature of the relationships between the police policing and boundaries and can potentially be used for future case study research Drawing on a wealth of research this book examines how social and territorial boundaries strongly influenced police practices and behaviour in South Africa and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary Focusing on cases of high density police operations public order policing and the recent policing of the COVID 19 lockdown this book argues that poor economic conditions combined with an increased militarisation of the SAPS and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in South Africa This book will be of interest to scholars and students interested in policing in post colonial societies characterised by high levels of violence as well as police work and police militarization      Environmental Security in Transnational Contexts Harlan Koff, Carmen Maganda, 2019-10-23 Much of the discussion surrounding the definition of the

Sustainable Development Goals SDGs and the post 2015 global development agenda has contextualized sustainable development within the framework of transformation specifically prioritizing concepts such as equity security justice and rights While these debates correctly discussed power imbalances and relational obstacles to human development they have remained abstract because they focused only on the international level In this regard discussions have not adequately examined mechanisms that facilitate or block the emergence of sustainable development as a political priority nor do they address specific policy proposals to link environmental justice to human development strategies This book contends that human and environmental security should be framed in terms of transnational discussions rather than being limited to general international debates in order to examine both governance challenges and potential policy mechanisms that can effectively address environmental security issues that cross national boundaries The chapters in this volume undertake an empirical examination of the relationships between human and environmental security cross border exchanges and regional integration They address the relationships between international norms transnational human and environmental security issues and the regionalization of governance in different parts of the world as the book includes comparative analyses as well as case studies from Europe Asia and the Americas The chapters originally published as a special issue in Globalizations

Contemporary Peace Making J. Darby, R. Mac Ginty, Roger Mac Ginty, 2002-12-19 Contemporary Peace Making draws on recent experience to identify and explore the essential components of peace processes Each chapter examines a different element in recent peace processes The collection is organized around five main themes planning for peace during periods of violence the process of negotiations including pre negotiation the effects of violence on peace processes peace accords constitutional and political options and securing the settlement and building the peace State of the World , 1995

**Postinternationalism and Small Arms Control** Damien Rogers, 2016-04-08 Even though impacts generated by the widespread availability and ongoing use of small arms and light weapons have not reached a magnitude sufficient to radically reorder contemporary world affairs awareness of the nature and extent of these impacts has compelled some international actors to take decisive action Damien Rogers examines how the international community has responded to the challenge of controlling small arms and light weapons since the early 1990s Using a postinternationalist analytic framework he specifically focuses on the maturing relationships between particular actors of world affairs and the nascent interconnectivity between their strategies for and approaches toward controlling these weapons Furthermore the book identifies ways in which the captains of small arms industry arms brokers and chief users of these weapons are able to mitigate resist or elude the intended effects of those responses *The Politics of Post-War Demobilisation and Reintegration in Nigeria* Olukunle Ojeleye, 2016-02-24 With an increasing international interest in post civil war demobilisation and reintegration especially in Africa Ojeleye presents a well timed body of knowledge on the Nigerian civil war Moreover this book provides an in depth study of the modalities and processes of the demobilisation and reintegration exercises carried out at the end of the Nigerian

civil war and assesses their implications for national politics in the West African nation. The author identifies the political, socio-economic and cultural background to the Nigerian civil war and discusses the central theme of demobilisation, disarmament and reintegration (DDR) in Nigeria against the backdrop of the country's post-war reconstruction, reconciliation and rehabilitation exercise (the 3Rs). Though the central theme is Nigeria, it compares the demobilisation and reintegration exercise in Nigeria with other attempts in Sub-Saharan Africa by highlighting the important deviations and drawing some conclusions on the Nigerian experience. It also touches on issues relating to international involvement and intervention in civil wars and the roles of the African Union, the Commonwealth of Nations and the United Nations.
