Small Victories The Real World Of A Teacher Her Students And Their High School:

Small Victories Samuel G. Freedman, 1991-05-23 *Small Victories* is Samuel Freedman's remarkable story of life on the front lines in the sort of high school that seems like a disaster with walls old urban overcrowded and overwhelmingly minority Seaward Park High School on Manhattan's Lower East Side has been ranked among the worst 10 percent of high schools in the state yet 92 percent of its graduates go on to higher education The reason is dedicated teachers one of whom English instructor Jessica Siegel is the subject of Freedman's unforgettably dramatic humanization of the education crisis Following Siegel through the 1987-88 academic year Freedman not only saw a master at work but learned from the inside just how a school functions against impossible odds *Small Victories* alternates Jessica's experiences with those of others at Seaward Park and as we come to know intimately a number of the astonishing students and staff *Small Victories* reveals itself as a book that has the power to change the way we see our world *Small victories : the real world of a teacher, her*

student and their high school Samuel G. Freedman, **Someone Has to Fail** David F. Labaree, 2012-04-02 What do we really want from schools Only everything in all its contradictions Most of all we want access and opportunity for all children but all possible advantages for our own So argues historian David Labaree in this provocative look at the way this archetype of dysfunction works so well at what we want it to do even as it evades what we explicitly ask it to do Ever since the common school movement of the nineteenth century mass schooling has been seen as an essential solution to great social problems Yet as wave after wave of reform movements have shown schools are extremely difficult to change Labaree shows how the very organization of the locally controlled administratively limited school system makes reform difficult At the same time he argues the choices of educational consumers have always overwhelmed top down efforts at school reform Individual families seek to use schools for their own purposes to pursue social opportunity if they need it and to preserve social advantage if they have it In principle we want the best for all children In practice we want the best for our own Provocative unflinching wry *Someone Has to Fail* looks at the way that unintended consequences of consumer choices have created an

extraordinarily resilient educational system perpetually expanding perpetually unequal constantly being reformed and never changing much **The Socio-economics of Crime and Justice** Brian Forst, 2016-06-16 This book on crime and justice is

motivated primarily by the idea that individual behaviour is influenced both by self interest and by conscience or by a sense of community responsibility Forst has assembled a collection of authors who are writing in four parts 1 the philosophical foundations and the moral dimension of crime and punishment 2 the sense of community and the way it influences the problem of crime 3 on offenders and offences and 4 on the response of the criminal justice system [Breaking the Line](#)

Samuel G. Freedman, 2013-08-13 1967 Two rival football teams Two legendary coaches Two talented quarterbacks Together they broke the color line revolutionized college sports and transformed the NFL Freedman's dramatic account highly praised as a contributing part of the movement and a riveting sports story is now available in paperback In September 1967 after

three years of landmark civil rights laws and three months of devastating urban riots the football season began at Louisiana s Grambling College and Florida A M The teams were led by two extraordinary coaches Eddie Robinson and Jake Gaither and they featured the best quarterbacks ever at each school James Harris and Ken Riley Breaking the Line brings to life the historic saga of the battle for the 1967 black college championship culminating in a riveting excruciatingly close contest Samuel G Freedman traces the rise of these four leaders and their teammates as they storm through the season Together they helped compel the segregated colleges of the South to integrate their teams and redefined who could play quarterback in the NFL who could be a head coach and who could run a franchise as general manager In Breaking the Line Freedman brilliantly tells this suspenseful story of character and talent as he takes us from locker room to state capitol from embattled campus to packed stadium He captures a pivotal time in American sport and society filling a missing and crucial chapter in the movement for civil rights

Knowledge and Virtue in Teaching and Learning Hugh Sockett,2012-03-29 The challenge this book addresses is to demonstrate how in teaching content knowledge the development of intellectual and moral dispositions as virtues is not merely a good idea or peripheral to that content but deeply embedded in the logic of searching for knowledge and truth It offers a powerful example of how philosophy of education can be brought to bear on real problems of educational research and practice pointing the reader to re envision what it means to educate children and how we might prepare teachers to take on such a role by developing the person instead of simply knowledge and skills Connected intimately to the practice of teaching and teacher education the book sets forth an alternative theory of education where the developing person is at the center of education set in a moral space and a political order To this end a framework of public and personal knowledge forms the content to which personal dispositions are integral not peripheral The book s pedagogy is invitational welcoming its readers as companions in inquiry and thought about the moral aspects of what we teach as knowledge

the gulf between the rhetoric of education reform and the realities of the public school classroom Ms Moffett's First Year is neither a Hollywood friendly tale of one person making a difference nor a reductive indictment of the public education system It is rather a provocative portrait of the inadequacy of good intentions of the challenges of educating poor and immigrant populations and of a well meaning but underprepared woman becoming a teacher the hard way While the story takes place in New York Ms Moffett's first year is a metaphor for the experiences of teachers everywhere in America one that illuminates the philosophical economic political and ideological dilemmas that have come more and more to determine their experience and their students experiences in the classroom

Tales Out of School Jo Keroes, 1999 Jo Keroes's scope is wide she examines the teacher as represented in fiction and film in works ranging from the twelfth century letters of Abelard and Heloise to contemporary films such as *Dangerous Minds* and *Educating Rita* And from the twelfth through the twentieth century Keroes shows the teaching encounter is essentially erotic Tracing the roots of eros from cultural as well as psychological perspectives Keroes defines erotic in terms broader than the merely sexual She analyzes ways in which teachers serve as convenient figures on whom to map conflicts about gender power and desire To show how portrayals of men and women differ she examines pairs of texts using a film or a novel with a woman protagonist *Up the Down Staircase* for example as counterpoint to one featuring a male teacher *Blackboard Jungle* or *The Prime of Miss Jean Brodie* balanced against *Dead Poets Society* The portrayals of teachers like all images a culture presents of itself reveal much about our private and social selves Keroes points out authentic accounts of authoritative women teachers who are admired and respected by colleagues and students alike Real teachers differ from the stereotypes we see in fiction and film however Male teachers are often portrayed as heroes in film and fallibly human in fiction whereas women in either genre are likely to be monstrous or muddled and are virtually never women of color Among other things Keroes demonstrates the tension between reality and representation reveals society's ambivalence about power in the hands of women

School as Community Gail Furman, 2012-02-01 An increasingly important and appealing concept for school renewal is that of school as community While community holds multiple promises for schools little is known about the practice of community in schools This collection furthers our understanding about the nature of school community its practice in public schools and the role of leadership in this practice Of particular importance is the question of how community can be created and sustained in K 12 public schools with highly diverse populations Tell Me True Patricia Hampl, Elaine Tyler May, 2008 Balancing precariously between history and literature memoir writers have finally found their place on the bookshelf But increased notoriety brings intense scrutiny memoirists are expected to create a narrative worthy of fiction while also saying true to the facts Historians too handle tricky issues of writing from real life when imagination must fill gaps in the historical record In this landmark collection Patricia Hampl and Elaine Tyler May have gathered fourteen original essays from award winning memoirists and historians They are all storytellers wrestling with a fascinating gray area where memory intersects with history and where the necessities of narrative collide with mundane facts And whether the record emerges from archival sources or from personal memory these writers show how to make the leap to telling a good story while also telling us true
