Pioneering Ideas for the Physical and Chemical Sciences W. Fleischhacker, T. Schönfeld, 2013-11-11 This volume presents the contributions delivered at the Josef Loschmidt Symposium which took place in Vienna June 25-27 1995 The symposium was arranged to honor Josef Loschmidt one hundred years after his death 8 July 1895 to evaluate the significance of his contributions to chemistry and physics from a modern point of view and to trace the development of scientific fields in which he had done pioneering work Loschmidt is widely known for the first calculation of the size of molecules 1865-66 which also led to values for the number of molecules in unit gas volume and for the mass of molecules With critical analyses of problems in statistical physics he made important contributions to the development of that field Loschmidt's paradoxon continuing to be a point of departure for present day studies and discussions For decades there was little awareness that Loschmidt was a pioneer in organic structural chemistry Only in recent years has Loschmidt's first scientific

publication Chemische Studien I published in 1861 become more widely known and it is now recognized that with his ideas on the structure of organic molecules he was greatly ahead of the chemists of that time The papers in these proceedings are arranged in three sections I Organic structural chemistry Chapters 1-12 2 Physics and physical chemistry Chapters 13-26 3 Loschmidt's biography Loschmidt's world Chapters 27-33 *The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950* George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to reshape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries
