Snow Mountain Passage

A novel of the Donner Party

JAMES D. HOUSTON

Coauthor of FAREWELL TO MANZANAR

Snow Mountain Passage

Rosina Ehmann

Snow Mountain Passage:

Snow Mountain Passage James D. Houston, 2007-12-18 Snow Mountain Passage is a powerful retelling of the most dramatic of our pioneer stories the ordeal of the Donner Party with its cast of young and old risking all its imprisoning snows its rumors of cannibalism James Houston takes us inside this central American myth in a compelling new way that only a novelist can achieve The people whose dreams courage terror ingenuity and fate we share are James Frazier Reed one of the leaders of the Donner Party and his wife and four children in particular his eight year old daughter Patty From the moment we meet Reed proud headstrong yet a devoted husband and father traveling with his family in the Palace Car a huge specially built covered wagon transporting the Reeds in grand style the stage is set for trouble And as they journey across the country thrilling to new sights and new friends coping with outbursts of conflict and constant danger trouble comes It comes in the fateful choice of a wrong route which causes the group to arrive at the foot of the Sierra Nevada too late to cross into the promised land before the snows block the way It comes in the sudden fight between Reed and a drover a fight that exiles Reed from the others sending him solo over the mountains ahead of the storms We follow Reed during the next five months as he travels around northern California trying desperately to find means and men to rescue his family And through the amazingly imagined Trail Notes of Patty Reed who recollects late in life her experiences as a child we also follow the main group progressively stranded and starving on the Nevada side of the Sierras Snow Mountain Passage is an extraordinary tale of pride and redemption What happens who dies who survives and why is brilliantly grippingly told **Coming To Light** Brian Swann, 2010-12-29 A richly diverse anthology of Native American literatures draws on the work of more than two hundred tribes across the United States and Canada and provides information on the historical and cultural contexts of the stories songs prayers and orations **The Pilot and Philadelphia & Reading Railway Men**, 1907 **Traveling over Mountains and Rivers** Zang Mu, 2025-08-21 Zang Mu's fieldwork journal Traveling over Mountains and Rivers records many plant and fungus species It is first hand data in scientific research serving as a significant historical reference for botanical ecological biogeographical and even natural history research Plenty of colored sketches in the journal record various plants and depict the living environment of plants and fungi providing a reference for understanding the survival and adaptive evolution of the plants on the Third Pole and high scientific and artistic value They offer insights into learning about plants fungus classification and the history of the development of biogeography This journal is mainly a valuable and light hearted read for intellectuals This book is expected to show readers the image of an intelligent and good humored scientist who loves thinking and pursues high standards while researching to encourage future generations to carry forward the good virtues of elderly scientists valuing truth and innovation and fighting against obstacles to make scientific breakthroughs constantly World Geography Ralph Stockman Tarr, Frank Morton McMurry, 1912 Collins' Graphic English dictionary, ed. by A.M. Williams Collins William sons and co, ltd, 1903 **The Highway Engineer & Contractor**, 1926 **A Change**

in Worlds on the Sino-Tibetan Borderlands Jack Patrick Hayes, 2013-12-19 A Change in Worlds explores the environmental economic and political history of the Sino Tibetan Songpan region of northern Sichuan from the late imperial Qing Dynasty to the early 21st century A historically Tibetan region on the eastern edge of the Tibetan Plateau with significant Han and Muslim Chinese populations Songpan played important roles in the development of western and modern China s ethnic relations policies forestry sector grasslands and environmental conservation and recent developments in eco and ethnic tourism as part of various Chinese states However in spite of close associations with various Tibetan and Chinese regimes the region also has a rich history of local independence and resilient nomadic semi nomadic and agricultural populations and identities The Sino Tibetan diversity in Songpan partly formed by unique ecological conditions conditioned all attempts to incorporate the region into larger and more centralized state homogenizing structures This historical study analyzes the social force of markets and nature in the Songpan region in concert with the political and social conflicts and compromise at the heart of changing political regimes and the area s ethnic groups It presents new perspectives on the social transformation and economies of Tibetans and Han Chinese from the late Qing Dynasty to Mao era and contemporary western China It not only allows for a new understanding of how the natural environment and landscapes fit into the imagination of the Sino Tibetan borderlands it also figures in the challenges of negotiating ethnic and market relations among societies The mix of complicated relations over natural environment resources politics and markets was at the heart of the region s social and political infrastructures with far reaching implications for both historical and contemporary China

One Hundred Years of Sinking - Book I H.L. Phoenix ,2023-09-06 The planes approached flying shallow this time with the blood red Japanese symbol of the rising sun painted on their bodies looking fierce and terrifying Suddenly Boom boom the ground shook violently This is a trilogy of chronicled historical novels six books in total based on historical events in China during the 20th century and the personal experiences of the author s family members The time spans a hundred years the space spans across China from southwest to northeast west to east and finally across America and Canada The characters in the story all have prototypes Based on the life experiences of two generations of women their growth love and marriage reveal the traditional Chinese natural farming society and its destruction particularly the destruction of the gentry and intellectuals as well as the tragic crushing of ordinary people by communist totalitarian tyranny It is a romance and a history It is also a journey of Chinese women s psychological and physiological growth in the 20th century The historical events geography place names streets and customs in the story are all true one of the manors is the old house of the author s family It is already dilapidated but the place is still named after the old house and the name Stone Garden can be seen on Google Maps Phoenix Works phoenixnestca wordpress com en [The Eastern Alps, Including the Bavarian Highlands, the Tyrol, Salzkammergut, Styria, Carinthia, Carniola, and Istria. Handbook for Travellers](#) Karl Baedeker Firm, 2024-01-30 Reprint of the original first published in 1883 **Storm Data** United States. Environmental Data Service, 1998 *Sunset Under the*

Poet's Tree George S. J. Anderson, 2013-12-06 When I see and hear the ubiquitous hype and media coverage for celebrities receiving acclaim after facing their ordeals with breast cancer I hear words like bravery stamina devastating disease how well they are handling the diagnosis and how heroically they are getting on with their lives Most of these same celebrities are alive and well after their diagnosis because of the work done by women like my late wife Lois A Anderson Yet most people have never heard of her If you want to read a book about real bravery real stamina and the power to make real changes that matter to the breast cancer story you need to take the time to read this book Lois came from a poor family coming from conditions most of us would never ascend from and made her mark upon the world I do not want to be forgotten she told me after being diagnosed with stage III breast cancer at the age of thirty nine She lived eighteen years after that diagnosis and in many ways changed the world with her knowledge support and political advocacy Many throw money at research in an effort to move breast cancer out of the ranks of an incurable cancer into one where most will survive it Lois didnt have money She didnt have the media to tell of her many battles What she did have was a spirit of hope which she used to battle breast cancer on all fronts This is the story of a remarkable woman who in spite of the odds not only survived but also turned an ordeal that would have devastated most of us into a shining example of what one person can do even when they are facing death Sometimes you get the chance to change things she often told me In her short lifetime even with cancer raging through her body she took the chance and did that very thing She not only fought her own personal battle with breast cancer but also fought the war against it Lois pursued such an astonishing life from the moment she came into the world overcoming many obstacles in her quest to rise above the ordinary many conquered before breast cancer entered her life I felt her story had to be told She lived her short life coming from very humble beginnings rising from all of it making changes she hoped would better everyone when it ended on January 17 2011 At the time of her death she was considered a great breast cancer advocate known at the national level She was diagnosed with stage III breast cancer at the age of thirty nine six days before her fortieth birthday in 1992 Signs that could have cautioned her remained muted by an unsuspecting bruise she sustained from an injury several months before her fortieth birthday In time she was treated for the initial breast cancer and remained cancer free for almost ten years until cancer returned in 2001 Then when the odds seemed stacked against her she fought the disease as a stage IV breast cancer survivor metastatic breast cancer from the time of that dire discovery until she died in January 2011 She lived eighteen years from the time she was diagnosed against all prognostications allowing her only five years of survival Over the last six months of her life I began writing a story where I escaped the realities of losing my wife to something I had no control over In a way it transitioned into a metaphoric fable a parallel story of her life Between the lines I allowed myself the chance to create an alternate world where the real trials Lois and I experienced on our last road together eventually made some sense to me in our unpredictable world After she died I began the long process of chronicling her amazing biography and believed I could finish the fictional one Both stories represent a process of coming to terms with her

death and a promise I made to not let her be forgotten I began writing her real life story in late February 2011 After I started I found stories and journals Lois had written about herself tucked away in boxes and old folders throughout the house

Ice Caves Aurel Persoiu, Stein-Erik Lauritzen, 2017-11-30 Ice Caves synthesizes the latest research on ice caves from around the world bringing to light important information that was heretofore buried in various reports journals and archives largely outside the public view Ice caves have become an increasingly important target for the scientific community in the past decade as the paleoclimatic information they host offers invaluable information about both present day and past climate conditions Ice caves are caves that host perennial ice accumulations and are the least studied members of the cryosphere They occur in places where peculiar cave morphology and climatic conditions combine to allow for ice to form and persist in otherwise adverse parts of the planet The book is an informative reference for scientists interested in ice cave studies climate scientists geographers glaciologists microbiologists and permafrost and karst scientists Covers various aspects of ice occurrence in caves including cave climate ice genesis and dynamics and cave fauna Features an overview of the paleoclimatic significance of ice caves Includes over 100 color images of ice caves around the world
