

WHAT IS THE RIGHT TO PRIVACY?

- <https://www.achu.org/other/students-your-right-privacy>
- 1. The right to privacy is not mentioned in the Constitution, but the Supreme Court has said that several of the amendments create this right. One of the amendments is the Fourth Amendment, which stops the police and other government agents from searching us or our property without "probable cause" to believe that we have committed a crime. Other amendments protect our freedom to make certain decisions about our bodies and our private lives without interference from the government - which includes the public schools.
- 2. WHAT ARE MY RIGHTS CONCERNING THE POLICE? You've all heard cops on TV or in the movies say, "you have the right to remain silent..." Well, that's exactly what you should do if the police ask you questions. Remember anything you say can be used against you.
- 3. Just give the police your name and address and say you want to speak to your parents and a lawyer. As soon as you do that, the police must stop questioning you.
- 4. The police aren't allowed to search you unless they have a warrant signed by a judge or unless they are arresting you. However, if they believe that you have a weapon, they can frisk you, and if they feel a weapon, they can then search you. If the cops ask to search you or your car, don't resist the search, but let them know that you don't consent to it.

The International Handbook of Social Impact Assessment H. A. Becker,Frank Vanclay,2003-01-01

This book provides a valuable addition to the Social Impact Assessment SIA literature. While the volume addresses several good examples of how to case studies, it also firmly addresses the importance of the need for firm conceptual and theoretical guidelines for SIA practice. The volume is an excellent contribution to the SIA literature and I highly recommend it to both practitioner and researcher alike. Geoff Syme, *Australasian Journal of Environmental Management*. An innovative collection which takes social impact assessment to the frontiers of environmental and social policy and citizen awareness. Unusually, this collection includes both sophisticated quantitative tools and equally important chapters on participation, stakeholder involvement and environmental mediation. A most valuable source book. Michael Redclift, King's College London, UK.

Social Impact Assessment SIA is the process of analysing and managing the intended and unintended consequences on the human environment of planned interventions, policies, programmes, plans, projects, so as to bring about a more sustainable and equitable biophysical and human environment. This important Handbook presents an indispensable overview of the range of new methods and of the conceptual advances in SIA. Recent increased attention to social considerations has led to substantial development in the techniques useful to and the thinking in SIA. A distinguished group of contributors provides an up-to-date and comprehensive account of the cutting edge in SIA development. This Handbook outlines a new understanding and definition of SIA and as such will be an invaluable reference tool for both practitioners and scholars at different levels working in the fields of SIA and environmental studies, including both impact assessment and management.

Social Work Assessment Ruben Martin, 2010-05-11. At a time of change and review within social care, it is relevant to explore traditional skills, knowledge and values associated with assessment in the context of changing practice. This book introduces and explores assessment in social work in a user-friendly yet comprehensive way. The author reviews the interpersonal skills necessary for social work practice, applying them particularly to assessment and outlines fundamental knowledge and theoretical models that can inform assessment. The professional social work value base underpinning assessment and the power balance between assessor and the person being assessed are also taken into consideration.

Social Assessment C. Nicholas Taylor, C. Hobson Bryan, Colin G. Goodrich, 2004-01-01. Social assessment provides a process for research, planning and management of change arising from projects, programs and policies. Applied to the design and implementation of changes causing social effects, the process is firmly established internationally as an integral component of environmental assessments and decision making. Application to projects ranges from community level projects to large infrastructure and industrial development. Strategic application of social assessment also occurs in the development and implementation of programs and policies. The authors have practiced widely in the field of social assessment and held training courses and workshops on social assessment in many countries for multi-lateral organizations, public agencies, industry, private consultants, academics and non-government organizations. This book describes social assessment theory, processes and common techniques as developed from the authors' international practice and training sessions. It will be of value to students.
