The Communist Challenge In The Caribbean And Central America:

The Communist Challenge in the Caribbean and Central America Howard J. Wiarda, Mark Falcoff, 1987 **The Soviet Attitude to Political and Social Change in Central America, 1979-90** D. Paszyn, 2000-04-07 The study analyses Soviet policy towards Nicaragua during the rule of the Sandinista National Liberation Front FSLN and towards the guerrillas fighting for political and social change in El Salvador and Guatemala It covers the period from the Sandinista victory in July 1979 until the loss of power in February 1990 This work aims to counter the tendency found in the western literature which over emphasizes the ideological and strategic factors motivating Soviet policy towards Nicaragua and Central America as a whole **Radical Thought In Central America** Sheldon B Liss, 2019-07-11 Central American pensadores have interpreted the theories of Marx and other scholars of revolution in diverse ways In this book Sheldon Liss examines the political theory and ideology of some of Central America s most important radical thinkers including non Marxists and demonstrates how they have challenged the tenets of imperialism and capitalism Chapters on individual Central American countries begin with brief historical introductions that emphasize the rise of radical activities and organizations Individual essays based on published writings interviews and scholarly analyses of their works then establish each writer s personal ideology social and political goals and theories of society state and institutions of power Liss also examines their relationship to social and political movements and contributions to the national intellectual life of the past and present In addition Liss discusses the writers understanding of the role of the United States in the Americas and beliefs about national struggles for independence By focusing on political and social theory and on intellectual history this book also provides the background critical for understanding recent developments and changes in Central America **Global Century Series One World Divisible** David Reynolds, 2001-03-06 A magisterial account of our time by a distinguished historian Walter LaFeber author of *The Clash* This brilliant history vividly captures the great political events of the past 50 years while carefully avoiding an encyclopedia approach of illustrations *Latin America and U.S. Policy* , 1985 American Foreign Policy Toward Latin America in the 80s and 90s Howard J. Wiarda, 1992 This thoughtful controversial book by one of the country s leading Latin America scholars examines the fundamental tenets and ideologies behind America s policy towards Latin America over the course of the last three administrations Howard Wiarda who has served as a consultant for the State Department the Department of the Army the National Security Council the Kissinger Commission and the White House is ideally situated to provide an insider account of policy decisions and process during the Reagan Bush era The combination of Wiarda s academic background and his hands on knowledge of Washington practices and processes results in a volume that is extremely readable and will serve as a vital link between the scholarly and policymaking communities Wiarda supplements his incisive analysis on the role of the military in Latin America shifting U S strategic policy democracy and human rights and the problems presented by dictators in decline with illuminating case studies of Mexico Cuba Nicaragua South America and

the Caribbean The result is a book that will be of interest to both scholars and students of American foreign policy and Latin American studies as well as policymakers and analysts *America and the Cold War, 1941-1991* Norman A.

Graebner, Richard Dean Burns, Joseph M. Siracusa, 2010-05-05 Three distinguished diplomatic historians offer an assessment of the Cold War in the realist tradition that focuses on balancing the objectives of foreign policy with the means of accomplishing them *America and the Cold War 1941-1991 A Realist Interpretation* is a sweeping historical account that focuses on the policy differences at the center of this conflict In its pages three preeminent authors offer an examination of contemporary criticism of the Cold War documenting the views of observers who appreciated that many policies of the period were not only dangerous but could not resolve the problems they contemplated The study offers a comprehensive chronicle of U S Soviet relations broadly conceived from World War II to the collapse of the Soviet Union It places the origins of the Cold War as related to the contentious issues of World War II and stresses the failure of Washington to understand or seriously seek settlement of those issues It points out how nuclear weaponry gradually assumed political stature and came to dominate high level Soviet American diplomatic activity at the same time discounting the notion that the Cold War was a global ideological confrontation for the future of civilization A concluding chapter draws lessons from the Cold War decades showing how they apply to dealing with nation states and terrorist groups today **Limits of Soviet Power** Edward A.

Kolodziej, Roger E. Kanet, 2015-12-25 An evaluation of Soviet efforts to penetrate the major regions in the southern hemisphere concluding that success has been modest and continues to be costly It is suggested that a world society could emerge based on socio economic and political competition rather than conflict and arms races **US-Sandinista**

Diplomatic Relations David Ryan, 2016-07-27 It is riveting Ryan provides us with one of the best accounts of the Reagan era foreign policy available dealing with a portion of history that took place in Central America in the Eighties For future historians of the Cold War Ryan s book will be a necessary point of reference Bernardo Sepulveda Amor *US Sandinista Diplomatic Relations* examines the reasons why agreement was not reached between the United States and Nicaragua between 1979 and 1990 The traditional US hegemonic approach to the region was applied to the Sandinista revolutionary government which the Reagan administration wanted out of power Washington s responses to the various attempts at finding a diplomatic solution were to block agreement where possible but concurrently demonstrate support for diplomacy to encourage Congressional support for the ongoing low intensity conflict **Gorbachev's New Thinking and Third World**

Conflicts JiÅň Valenta, Frank Cibulka, Some of the most crucial changes inspired by Gorbachev and perestroika concern Soviet and East European policies toward Third World countries Despite countless studies of Soviet U S relations and U S relations with the Third World the area of Soviet relations with the Third World has been left relatively undeveloped This is the first of several volumes intended to add to our knowledge of what the series editor Jiri Valenta characterizes as East South relations In this new era of cooperation and diplomacy the superpowers are working to resolve regional conflicts in

and around Afghanistan Nicaragua Angola and Cambodia Such efforts are exceedingly complex since they necessarily involve not only the Soviet Union but Third World nations that may operate independently such as Cuba and Vietnam This volume addresses a number of such conflicts In addition to those already mentioned conflicts in Ethiopia Namibia and the Philippines are discussed and their implications for Western policy makers are reviewed As the contributors emphasize despite current Soviet emphasis on peaceful solutions to regional conflicts Gorbachev s New Thinking in foreign affairs is still decidedly selective In some cases the Soviet Union will actually encourage close ties with regional Third World powers as it has with India It is also too much to expect that the Soviet Union much less Cuba and Vietnam will completely cut ties to revolutionary allies worldwide That said the 1990s will undoubtedly be characterized by new Soviet foreign policy styles Their shape and form is the subject of this book It will be of immense interest to policymakers and researchers concerned about current developments in relations between the superpowers and with the Third World Contributors include Vernon Aspaturian Bhabani Sen Gupta William E Griffith Jerry F Hough Douglas Pike Howard Wiarda AH T Sheikh Sabahuddin Kushkaki Colin Legum H de V du Toit Khien Theeravit Frank Cibulka Alvaro Taboada Charles William Maynes W Bruce Weinrod Jiri Valenta
