[The Nitpicker's Guide for Classic Trekkers](#) Phil Farrand, 2010-03-31 Six feature films, the wildly successful television spin-off Star Trek: The Next Generation, endless reruns, videotapes, conventions, a line of best-selling novels, and William Shatner's New York Times best-seller *Star Trek Memories* have kept the Star Trek spirit alive and well even 25 years after its cancellation. Now this must-have book for all Trekkers, which covers every episode of the original series, the pilot, and all six movies, reveals all the bloopers, continuity errors, plot oversights, equipment malfunctions, and goof-ups that discerning die-hard fans love to spot but may have missed. Written especially for all those who find themselves thinking, "Hey, if the transporter is broken, why don't they just use a shuttlecraft?" this nitpicky volume includes Kirk's toupee watch, an examination of the logic of the miniskirted female crew members, the number of times Kirk violated the Prime Directive, and lots of trivia questions, fun facts, quizzes, and more. Live long and nitpick.

[Off the Record](#) Neal Peres da Costa, 2012-03-20 *Off the Record* is a revealing exploration of piano performing practices of the high Romantic era. Author and well-known keyboard player Neal Peres Da Costa bases his investigation on a range of early sound recordings—acoustic piano roll and electric—that capture a generation of highly esteemed pianists trained as far back as the mid-nineteenth century. Placing general practices of late-nineteenth-century piano performance alongside evidence of the stylistic idiosyncrasies of legendary pianists such as Carl Reinecke (1824–1910), Theodor Leschetizky (1830–1915), Camille Saint-Saëns (1838–1921), and Johannes Brahms (1833–1897), he examines prevalent techniques of the time, dislocation, unnotated arpeggiation, rhythmic alteration, tempo fluctuation, and unfolds the background and lineage of significant performer pedagogues. Throughout, Peres Da Costa demonstrates that these early recordings do not simply capture the idiosyncrasies of aging musicians as has been commonly asserted but in fact represent a range of established expressive practices of a lost age. An extensive collection of these fascinating and sometimes rare professional recordings of the Romantic age masters are available on a companion web site and, in addition, Peres Da Costa himself, a renowned period

keyboardist illustrates points made throughout the book with his own playing Of essential value to student and professional pianists historical musicologists of 19th and early 20th century performance practice and also to the general music aficionado audience Off the Record is an indispensable resource for scholarly research performance inspiration and listening enjoyment    *Seeking the Truth from Mobile Evidence* John Bair,2017-11-17 Seeking the Truth from Mobile Evidence Basic Fundamentals Intermediate and Advanced Overview of Current Mobile Forensic Investigations will assist those who have never collected mobile evidence and augment the work of professionals who are not currently performing advanced destructive techniques This book is intended for any professional that is interested in pursuing work that involves mobile forensics and is designed around the outcomes of criminal investigations that involve mobile digital evidence Author John Bair brings to life the techniques and concepts that can assist those in the private or corporate sector Mobile devices have always been very dynamic in nature They have also become an integral part of our lives and often times a digital representation of where we are who we communicate with and what we document around us Because they constantly change features allow user enabled security and or encryption those employed with extracting user data are often overwhelmed with the process This book presents a complete guide to mobile device forensics written in an easy to understand format Provides readers with basic intermediate and advanced mobile forensic concepts and methodology Thirty overall chapters which include such topics as preventing evidence contamination triaging devices troubleshooting report writing physical memory and encoding date and time stamps decoding Multi Media Messages decoding unsupported application data advanced validation water damaged phones Joint Test Action Group JTAG Thermal and Non Thermal chip removal BGA cleaning and imaging In System Programming ISP and more Popular JTAG boxes Z3X and RIFF RIFF2 are expanded on in detail Readers have access to the companion guide which includes additional image examples and other useful materials    *The National Magazine* ,1897    *Cosmic Winds and the Heliosphere* Jack Randolph Jokipii,Charles P.
