No More Cancer Gary Null, 2014-07-29 One word strikes more fear into a person's mind than any other: CANCER. The physical, mental, emotional, and financial toll that comes with a cancer diagnosis is immense and affects not only cancer patients but also families and entire communities. This year alone, approximately 600,000 Americans will lose their lives to cancer, and the forecast shows no signs of improving. Recent estimates tell us that 41 percent of all Americans will be diagnosed with cancer during their lifetimes, and 21 percent of the population will lose their lives to this devastating disease. Cancer has evolved into a national crisis that touches each and every one of us. The vast majority of individuals who lose the battle against cancer are treated with the standard orthodox therapy. These people may never have questioned their oncologists, believing that they were in the best possible hands with their physicians' advanced education, knowledge of latest treatments, and all the tools of modern research at their disposal. In this groundbreaking book, Gary Null debunks the commonly accepted belief that drugs and chemotherapy are the only cures for cancer and explores the alternative treatments that most mainstream doctors will never discuss with their patients. Dr. Null asserts that there are foods and supplements that boost the body's immune system and can actually prevent and reverse cancer. Did you know that eating lemons and melons can help balance your body's pH, which will help prevent and treat cancer? You knew that fiber is important for a healthy diet, but did you know that it lowers the risk of breast, colorectal, uterine, and prostate cancers? Have you heard of maitake mushrooms, which kill cancer cells by enhancing the activity of T helper cells? In addition to diet, Dr. Null discusses important supplements and herbs and cutting-edge therapies you may never have heard of. With twenty-five cancer-fighting recipes and testimonials from individuals who have found health through Dr. Null's methods, this book could save your life. **The**

Complete Encyclopedia of Natural Healing Gary Null, 2003 *Alternative Medicine* Christine A. Larson, 2006-12-30 Every day, newspapers and television news programs present stories on the latest controversies over healthcare and medical advances, but they do not have the space to provide detailed background on the issues. Websites and weblogs provide information from activists and partisans intent on presenting their side of a story. But where can students or even ordinary citizens go to obtain unbiased, detailed background on the medical issues affecting their daily lives? This volume in the Health and Medical Issues Today series provides readers and researchers with a balanced, in-depth introduction to the medical, scientific, legal, and cultural issues surrounding alternative medicine and its importance in today's world of healthcare. *Alternative Medicine* is organized to provide students and researchers with easy access to the information they need. Section 1 provides overview chapters on the background information needed to intelligently understand the issues and controversies surrounding complementary and alternative therapies, such as the theories that serve as the foundation for alternative treatments. Section 2 offers concise examinations of the contemporary issues and debates that provoke the most heated disagreements and misunderstandings, such as the debates over the efficacy of alternative treatments and whether the

government should regulate herbal treatments Section 3 includes reference material on alternative medicine including primary source documents from important clinicians and researchers in the debate over alternative treatments a timeline of important events and an annotated bibliography of useful print and electronic resources This volume in the Health and Medical Issues Today series provides everything a student requires to understand the issues involved in alternative medicine and serves as a springboard for further research into the issue

Frego,2006-07-19 We are at the crossroads of world health On the one hand we face the possibility of a world wide pandemic the likes of which has never been seen before We are likewise on the threshold of discovering natural cures for nearly every disease As choosing wisely may mean the difference between life and death this book is designed to help the reader choose alternative options that are seldom if ever in the news Jared Diamond in his groundbreaking work Collapse How Societies Choose to Fail or Succeed addresses the fact that only civilizations that recognize the threats against their existence and deal with the threat effectively survive Civilizations with their heads in the sand become extinct or are conquered by more vigorous nations The robber barons of the last century were able to create a monopoly for oil and the automobile by ruthlessly and systematically destroying all competition They tore up cable car lines and public transportation so the public would have no other alternative except their oil Today the drug monopolies owned by the descendants of these same robber barons are nearly complete in their plot to eradicate all natural low cost remedies for disease prevention and treatment In the state of Florida naturopathic physicians were de licensed unless they also had a conventional medical license The powers that be want to create a drug induced society at an enormous financial and emotional cost to the public at large They are even trying to outlaw vitamins via European health treaties and side step the American constitution and the public The ever escalating cost of medical care created by lack of natural alternative options can only lead to the eventual total collapse of the entire medical system It is exceedingly difficult finding the truth about alternative medicine as the system has a vested interest in making profits and keeping the truth from you A few thousand deaths is an acceptable loss if a few billion dollars can be made And it will be a cold day in hell before a drug company puts itself out of business by telling you about a low cost natural cure that their product can manage The guardians of public health know which side their toast is buttered on also The career politicians and beltway bandits at the FDA know where the money is and they dont get it from you or providers of natural cures The drug monopolies pay the big bucks There have been no checks and balances Corruption has become so pronounced that the US House of Representatives is seeking to pass the Consumers Access to Health Information Act H R 2352 to ensure that accurate health claims ARE NOT SUPPRESSED Consumers would be given TRUTHFUL AND COMPLETE information about the curative mitigation treatment and prevention effects of foods and dietary supplements on disease or health related conditions The time to exercise your God given right to the health care of your choice is now www.lef.org America has the finest emergency health care in the
