Research on the Couch R.D. Hinshelwood, 2013-03-20 Is psychoanalysis knowledge Is psychoanalysis a science or is it hermeneutics Can clinical material be considered research data Psychoanalysis is ambiguous about whether it is about meaning or about truth and the relations between these two compelling experiences Psychoanalysts often think of their work as closer to the humanities than to medical and natural science The wider the gap between science and psychoanalysis appears the more psychoanalysts feel pulled to something that respects subjectivity the humanity of their patients themselves and move away from the procedures of natural science *Research on the Couch* is a relevant and timely contribution to the current debate about both the nature and validity of psychoanalysis and its body of knowledge Freud always regarded his clinical material as his research data In this book R D Hinshelwood aims to explore that view and defend Freud's claim whilst acknowledging the criticisms of single case studies and the inevitable problems for research into human subjectivity and personal experience To this end the book reviews Freud's own methods of disseminating his discoveries discusses the problem of evaluating different claims to psychoanalytic knowledge and presents a cogent logical model for testing psychoanalytic theories clinically This book evolves a model for the generation and justification of psychoanalytic knowledge a parascience just as rigorous as natural science and one that addresses the subjectivity of meaning *Research on the Couch* will be of interest to psychoanalysts of all schools academics clinicians students and those keen to further their knowledge of psychoanalytic studies

Memory, Myth, and Seduction Jean-Georges Schimek, 2011-03 *Memory Myth and Seduction* reveals the development and evolution of Jean Georges Schimek's thinking on unconscious fantasy and the interpretive process derived from a close reading of Freud as well as contemporary psychoanalysis Contributing richly to North American psychoanalytic thought Schimek challenges local views from the perspective of continental discourse A practicing psychoanalyst teacher and consummate Freud scholar Schimek sought to clarify Freud's concepts and theories and to disentangle complexities borne of inconsistencies in Freud's assumptions and expositions This book is divided thematically into three sections The first concerns fantasy and interpretation as they play out in the analytic situation and the manner in which analyst and patient coconstruct meaning and reconstruct and recover memory The second consists of two seminal papers which provide the sequence of steps in the five revisions in Freud's seduction theory Schimek's careful scholarship lays out the data of Freud's writing which allows one to draw one's own conclusions about the implications of the changes in the theory that he made In the third more theoretical section he provides a foundation for understanding many of today's discussions about unconscious fantasy dreaming remembering consciousness affect self reflection mentalization and

implicit relational knowing He clarifies and illustrates Freud's original formulations and their inherent problems through a careful reading of sections of *The Interpretation of Dreams* and a study of Freud's famous Signorelli parapraxis Skillfully arranged and carefully edited by Deborah Browning and including a foreword by Alan Bass this collection of Schimek's published and unpublished papers will be of interest to practicing psychoanalysts psychoanalytically oriented psychotherapists and students of the history of ideas and philosophy who have a particular interest in fantasy interpretation and Freud

Body Psychotherapy: History, Concepts, and Methods Michel Heller, 2012-08-14 From yoga to neuroscience a tour of major ideas about the body and mind Body psychotherapy which examines the relationship of bodily and physical experiences to emotional and psychological experiences seems at first glance to be a relatively new area and on the cutting edge of psychotherapeutic theory and practice It is but the major concepts of body mind treatment are actually drawn from a wide range of historical material material that spans centuries and continents Here in a massively comprehensive book Michael Heller summarizes all the major concepts thinkers and movements whose work has led to the creation of the field we now know as body mind psychotherapy The book covers everything from Eastern and Western thought beginning with yoga and Taosim and moving to Plato and Descartes It also discusses major developments in biology how organisms are defined and neuroscience This is truly a comprehensive reference for anyone interested in the origins of the idea that the mind and body are not separate and

that both must be understood together in order to understand people and their behavior

T. S. Eliot and the Mother Matthew Geary, 2021-05-30 The first full length study on T S Eliot and the mother this book responds to a shortfall in understanding the true importance of Eliot s poet mother Charlotte Champe Stearns to his life and works In doing so it radically rethinks Eliot s ambivalence towards women In a context of mother son ambivalence simultaneous feelings of love and hate it shows how his search for belief and love converged with a developing maternal poetics Importantly the chapters combine standard literary critical methods and extensive archival research with innovative feminist maternal and psychoanalytic theorisations of mother child relationships such as those developed by Julia Kristeva Luce Irigaray Jessica Benjamin Jan Campbell and Rozsika Parker These maternal thinkers emphasise the vital importance and benefit of recognising the pre Oedipal mother and maternal subjectivity contrary to traditional repressive Oedipal models of masculinity Through this interdisciplinary approach the chapters look at Eliot s changing representations and articulations of the mother mother child relationship from his very earliest writings through to the later plays Focus is given to decisive mid career works Ash Wednesday 1930 Marina 1930 Coriolan 1931 32 and The Family Reunion 1939 as well as to canonical works The Waste Land 1922 and Four Quartets 1943 Notably the study draws heavily on the wide range of Eliot materials now available including the new editions of the complete poems the complete prose and the volumes of letters which are transforming our perception of the poet and challenging critical attitudes The book also gives unprecedented attention to Charlotte Eliot s life and writings and brings her individual female experience and subjectivity to the fore Significantly it establishes Charlotte s death in 1929 as a decisive juncture marking both Eliot s New Life and the apotheosis of the feminine symbolised in Ash Wednesday Central to this proposition is Geary s new formulation for recognising and examining a maternal poetics which also compels a new concept of maternal allegory as a modern mode of literary epiphany T S Eliot and the Mother reveals the role of the mother and the dynamics of mother son ambivalence to be far more complicated enduring changeable and essential to Eliot s personal religious and poetic development than previously acknowledged

Social and Community Psychiatry Stelios Stylianidis, 2016-05-14 This book presents the basic theoretical and historical concepts and it describes current perspectives and data focusing on good practices in community psychiatry in Greece and in other parts of Europe Concepts such as the biopsychosocial model psychiatric reform psychosocial rehabilitation and the recovery model as well as new case management models are approached from a critical anthropocentric perspective The current socioeconomic crisis in Europe brings with it new realities in mental health systems New forms of social suffering are forcing the psychiatric community to re examine what is considered normal In order to respond to the complexity of the newly emerging needs social and community psychiatry has been compelled to broaden the objectives of intervention and research alike developing new and dynamic relations with complementary scientific fields such as social anthropology psychoanalysis and microeconomics The present work is the result of collaboration between professionals from across these different fields

Psychoanalytic Knowledge M. Chung, C. Feltham, 2003-11-04 Psychoanalytic Knowledge presents cutting edge thinking on some fundamental ideas in psychoanalysis by important international scholars in the field of the philosophy of psychoanalysis. It explores the nature of psychoanalytic knowledge in the light of contemporary philosophical views or critiques of a diversity of topics relevant to psychoanalysis: the philosophy of mind, the notion of changing oneself, religion, the notion of interdisciplinary links with psychoanalytic knowledge, post-Freudian psychoanalytic knowledge and challenges to psychoanalytic methodology.

THE COLLECTED WORKS OF C. G. JUNG: Symbols of Transformation (Volume 5) C.G. Jung, 2014-12-05 In 1911 Jung published a book of which he says it laid down a programme to be followed for the next few decades of my life. It was vastly erudite and covered innumerable fields of study: psychiatry, psychoanalysis, ethnology and comparative religion, amongst others. In due course it became a standard work and was translated into French, Dutch and Italian as well as English. In which language it was given the well-known but somewhat misleading title of *The Psychology of the Unconscious*. In the Foreword to the present revised edition, which first appeared in 1956, Jung says it was the explosion of all those psychic contents which could find no room, no breathing space in the constricting atmosphere of Freudian psychology. It was an attempt, only partially successful, to create a wider setting for medical psychology and to bring the whole of the psychic phenomena within its purview. For this edition, appearing ten years after the first bibliographical citations and entries, have been revised in the light of subsequent publications in the *Collected Works* and in the standard edition of Freud's works, some translations have been substituted in quotations and other essential corrections have been made, but there have been no changes of substance in the text.

Relational Psychoanalysis, Volume 5 Lewis Aron, Adrienne Harris, 2014-01-27 Building on the success and importance of three previous volumes, *Relational Psychoanalysis* continues to expand and develop the relational turn. Under the keen editorship of Lewis Aron and Adrienne Harris and comprised of the contributions of many of the leading voices in the relational world, Volume 5 carries on the legacy of this rich and diversified psychoanalytic approach by taking a fresh look at the progress in the therapeutic process. Included here are chapters on transference and countertransference, engagement, dissociation and self-states, analytic impasses, privacy and disclosure, enactments, improvisation, development and more. Thoughtful, capacious and integrative, this new volume places the leading edge of relational thought close at hand and pushes the boundaries of the relational turn that much closer to the horizon.

Contributors: Lewis Aron, Anthony Bass, Beatrice Beebe, Philip Bromberg, Steven Cooper, Jody Messler Davies, Darlene Ehrenberg, Dianne Elise, Glen Gabbard, Adrienne Harris, Irwin Hoffman, Steven Knoblauch, Thomas Ogden, Spyros Orfanos, Stuart Pizer, Philip Ringstrom, Jill Salberg, Stephen Seligman, Joyce Slochower, Donnel Stern, Paul Wachtel.

Africa after Modernism Michael Janis, 2013-05-13 *Africa after Modernism* traces shifts in perspectives on African culture, arts and philosophy from the conflict with European modernist interventions in the climate of colonialist aggression to present identitarian positions in the climate of globalism, multiculturalism and mass media. By focusing on what may be called

deconstructive moments in twentieth century Africanist thought on intellectual landmarks revolutionary ideas crises of consciousness literary and philosophical debates this study looks at African modernity and modernism from critical postcolonial perspectives An effort to sketch contemporary frameworks of global intersubjective relations reflecting African cultures and concerns must resist taking modernism as a term of African periodization or master narrative but as a constellation of discursive and subjective forms that obtains upon the present moment in African literature philosophy and cultural history Africa after Modernism argues for a philosophical consciousness and pan African multiculturalist ethos that operate after the deconstruction of Eurocentrism beyond self other paradigms of exoticism or West Africa political ideologies in dialogue with postcolonial approaches to cultural reciprocity

Irony's Antics Erica Weitzman,2015 Irony s Antics marks a major intervention into the underexplored role of the comic in German letters At the book s heart is the relationship between the comic and irony Weitzman argues that in the early twentieth century irony a key figure for the German Romantics reemerged from its relegation to nonsense in a way that both rethought Romantic irony and dramatically extended its reach

Dreams, Vampires and Ghosts Louise Child,2023-07-13 Drawing from social theory and the anthropology of religion this book explores popular media s fascination with dreams vampires demons ghosts and spirits Dreams Vampires and Ghosts does so in the light of contemporary animist studies of societies in which other than human persons are not merely a source of entertainment but a lived social reality Films and television programs explored include Buffy the Vampire Slayer Twin Peaks Bram Stoker s Dracula Truly Madly Deeply and the films of Hitchcock Louise Child draws attention to how they both depict and challenge ideas and practices rooted in psychology while quality television has also facilitated a wave of programming that can explore the interaction of characters in complex social worlds over time In addition to drawing on theories of film from Freudian psychology and feminist theory Dreams Vampires and Ghosts uses approaches derived from a combination of Jungian film studies and anthropology that offer fresh insights for exploring film and television This book draws attention to explicit and subtle ways in which cinematic narratives engage with myth and religion while at the same time exploring collective dimensions to social and personal life It advances new developments in genre studies and gender as well as contributing to the growing field of implicit religion using in depth analyses of communicative dreaming the shadow and mystical lovers in film and television

Psychoanalytic Film Theory and The Rules of the Game Todd McGowan,2015-07-30 The Film Theory in Practice Series fills a gaping hole in the world of film theory By marrying the explanation of film theory with interpretation of a film the volumes provide discrete examples of how film theory can serve as the basis for textual analysis The first book in the series Psychoanalytic Film Theory and The Rules of the Game offers a concise introduction to psychoanalytic film theory in jargon free language and shows how this theory can be deployed to interpret Jean Renoir s classic film It traces the development of psychoanalytic film theory through its foundation in the thought of Sigmund Freud and Jacques Lacan through its contemporary manifestation in the work of theorists like Slavoj i ek

and Joan Copjec This history will help students and scholars who are eager to learn more about this important area of film theory and bring the concepts of psychoanalytic film theory into practice through a detailed interpretation of the film

Traumatic Stress Bessel A. Van der Kolk, Alexander C. McFarlane, Lars Weis?th, 1996-05-03 This book should be of value to all mental health professionals researchers and students interested in traumatic stress as well as legal professionals dealing with PTSD related issues

Collected Works of C. G. Jung, Volume 5 C. G. Jung, 2014-03-01 A complete revision of *Psychology of the Unconscious* orig 1911 12 Jung s first important statement of his independent position

Spaces of the Cinematic Home Eleanor Andrews, Stella Hockenhull, Fran Pheasant-Kelly, 2015-07-24 This book examines the ways in which the house appears in films and the modes by which it moves beyond being merely a backdrop for action Specifically it explores the ways that domestic spaces carry inherent connotations that filmmakers exploit to enhance meanings and pleasures within film Rather than simply examining the representation of the house as national symbol auteur trait or in terms of genre contributors study various rooms in the domestic sphere from an assortment of time periods and from a diversity of national cinemas from interior spaces in ancient Rome to the Chinese kitchen from the animated house to the metaphor of the armchair in film noir

Steeped in Blood Frances J. Latchford, 2019-08-15 What personal truths reside in biological ties that are absent in adoptive ties And why do we think adoptive and biological ties are essentially different when it comes to understanding who we are At a time when interest in DNA and ancestry is exploding Frances Latchford questions the idea that knowing one s bio genealogy is integral to personal identity or a sense of family and belonging Upending our established values and beliefs about what makes a family *Steeped in Blood* examines the social and political devaluation of adoptive ties It takes readers on an intellectual journey through accepted wisdom about adoption twins kinship and incest and challenges our naturalistic and individualistic assumptions about identity and the biological ties that bind us sometimes violently to our families Latchford exposes how our desire for bio genealogical knowledge understood as it is by family and adoption experts pathologizes adoptees by posing the biological tie as a necessary condition for normal identity formation Rejecting the idea that a love of the self same is fundamental to family bonds her book is a reaction to the wounds families suffer whenever they dare to revel in their difference A rejoinder to rhetoric that defines adoptees adoptive kin and their family intimacies as inferior and inauthentic *Steeped in Blood* s view through the lens of critical adoption studies decentres our cultural obsession with the biological family imaginary and makes real the possibility of being family in the absence of blood

Freud s Principal Case Studies Revisited Helena Texier, Eve Watson, 2025-05-30 *Freud s Principal Case Studies Revisited* explores Freud s six principal case studies studies Dora Little Hans Schreber the Wolf Man the Rat Man and the Young Homosexual Girl through the lens of contemporary psychoanalytic practice Thirteen leading Freudian Lacanian psychoanalysts reassess these cases in light of their significance to

psychoanalytic theory and practice and consider their relevance in the twenty first century With new case material theory and analysis the cases are critically re invigorated and restored to a privileged place within psychoanalysis Each of the cases is approached via a pairing of two psychoanalysts who engage with the clinical material as well as with each other in addressing their contributions to an assembled audience of clinicians trainees and scholars This book will be of great interest to psychoanalysts in practice and in training as well as psychologists psychotherapists and psychiatrists It will also be relevant for academics and students of psychoanalytic studies philosophy critical and cultural theory social studies critical psychology gender and sexuality studies and queer theory
