The Concise Guide To Kings And Queens A Thousand Years Of European Monarchy:

The Concise Guide to Kings and Queens Peter Gibson,1992 **The Concise Guide to Kings and Queens** Peter Gibson,1985 A Time-Line of Fifteenth Century England - 1398 to 1509 Wm. E. Baumgaertner,2009-09-11 A Timeline of Fifteenth Century England covers the broad stretch between the Edwards of the fourteenth century and the Tudors of the sixteenth It begins with the Lancastrian usurpation and ends with the death of the first Tudor King Packed in between the throne of England was usurped six times England was invaded seven times by Englishmen several times by the French and some dozen times by the Scots The fifteenth century saw the last phase of the Hundred Years War a heroic and frustrating thirty five year struggle and the entire Wars of the Roses another thirty five years of internecine bloodshed including the bloodiest battle ever fought on English soil Three different dynasties ruled England by seven different kings including the shortest reign of an English king since the Norman invasion Meanwhile English kings began to use English as the preferred written language and the first book was printed in England Parliament grew particularly strong the King became a Constitutional Monarch and England transformed from late medievalism into a reformation that led to the Renaissance All this occurred during periods of corruption and chaos murder and mayhem treachery and betrayal and war and rebellion interspersed with occasional periods of peace and prosperity It has been said that no King can rule the English for long without fighting a war and the fifteenth century proves the point Within these pages lies a timeline documenting all the key events and contrasting personalities of this turbulent period from beginning to end **Squires, Knights, Barons, Kings** Wm. E. Baumgaertner,2010-01-11 Many who have a passing interest in English history know of the kings the Lancastrian usurper Henry IV the great warrior king Henry V and the monkish monarch Henry VI Some also know of the fair Yorkist king Edward IV and his fated son Edward V the Prince in the Tower Many more know of the Yorkist usurper Richard III and his Tudor nemesis the last Lancastrian claimant Henry VII But what about the other key individuals of fifteenth century England Most have heard of the Kingmaker even if they forget that he was Sir Richard de Neville Earl of Warwick But who was Little Fauconberg Who was Hotspur and how did he get his nickname Who were the Beauforts illegitimate descendents of Edward III through his son John of Gaunt and how did they impact the history of England so significantly Who was the Butcher of England and how did such an erudite and sophisticated man earn such an inglorious title Why was Sir Richard de Beauchamp also an Earl of Warwick called the Father of Courtesy and the Son of Chivalry What brought the educated and wealthy Owain Glyn Dwr the last Welsh Prince of Wales to the point of rebellion Was Queen Margaret the she wolf of Anjou or just a fiercely devoted wife and mother Was Sir Richard Plantagenet Duke of York the guardian of good government or a self serving aristocratic snob bent on snatching the throne of England Who was the English Achilles how did he earn such a sobriquet and how did his end mark the ending of the Hundred Years War Who were the Nevilles and the Percys and how did a minor family feud start the Wars of the Roses Who were the other squires knights barons earls and dukes that contributed so much

to the history of fifteenth century England but who seem mostly forgotten today Come plumb the depths of the people of that far gone time For the answers all lie within these pages Within is a brief biography of many of the more important personages regardless of aristocratic rank Included are parents spouses children and other familial relationships plus titles and offices family coats of arms and where readily available family badges livery and battle standards To further enrich the background some supplemental sections have been added These include a glossary of titles and offices definition of selected heraldic terms and a brief timeline of fifteenth century England [The Monstrous Regiment of Women](#) S. Jansen,2002-10-17

In *The Monstrous Regiment of Women* Sharon Jansen explores the case for and against female rule by examining the arguments made by theorists from Sir John Fortescue 1461 through Bishop Bossuet 1680 interweaving their arguments with references to the most well known early modern queens The story of early modern European political history looks very different if instead of focusing on kings and their sons we see successive generations of powerful women and the shifting political alliances of the period from a very different and revealing perspective **Debating Women, Politics, and Power**

in Early Modern Europe S. Jansen,2008-04-14 The sixteenth century was an age of politically powerful women Queens acting in their own right and female regents acting on behalf of their male relatives governed much of Western Europe Yet even as women ruled and ruled effectively their right to do so was hotly contested Men s voices have long dominated this debate but the recovery of texts by women now allows their voices long silenced to be heard once again *Debating Women Politics and Power in Early Modern Europe* is a study of texts and textual production in the construction of gender society and politics in the early modern period Jansen explores the gynecocracy debate and the larger humanist response to the challenge posed by female sovereignty **The Limits of State Power in Africa** Georges/Sembe Bakaly,2006-11

Royalty Who Wait Olga S. Opfell,2024-10-09 Only seven European monarchies remain intact today all are constitutional monarchies Four empires and 16 kingdoms have disappeared in Europe during the last two centuries The Bourbon kingdom in France vanished first in 1830 the Greek kingdom most recently in 1973 Former sovereigns still consider themselves to be kings Princes dukes and counts remain possessed of far reaching connections to currently reigning monarchs For some of them the path to headship of the royal houses has been complicated taking many twists and turns Two world wars caused the greatest attrition in monarchies Exile has been bitter for some happier for others but in and out of exile the heads of royal families live well Many are successful in business and as financiers Many are enthusiastic followers of sports Some manage large estates others are still trying to regain royal properties The chapters are arranged in the chronological order in which the kingdoms disappeared This book profiles twenty one heads of formerly regnant houses of Europe set in historical perspective and recounting varied life styles occupations and interests At the end of each chapter is a chart or set of charts depicting the line of succession of the headship of the house **Debrett's Kings and Queens of Europe** David Williamson,1988 Portraits of Europe s monarchs who have shaped the course of history from the middle ages to the present
