The Conduct of American Foreign Relations Thomas H. Etzold, 1977-01-01 **George F. Kennan and the Making of American Foreign Policy, 1947-1950** Wilson D. Miscamble, C.S.C., 2021-04-13 When George C Marshall became Secretary of State in January of 1947 he faced not only a staggering array of serious foreign policy questions but also a State Department rendered ineffective by neglect maladministration and low morale Soon after his arrival Marshall asked George F Kennan to head a new component in the department s structure the Policy Planning Staff Here Wilson Miscamble scrutinizes Kennan s subsequent influence over foreign policymaking during the crucial years from 1947 to 1950 The Indian Foreign Policy Bureaucracy Jeffrey Benner, 2019-07-11 In this book Jeffrey Benner traces the history of the Indian foreign policy bureaucracy from the British period to the present focusing on the bureaucracy s role in shaping policy Because the bureaucracy has become an active agent in the policy process its implementation of policy has often differed significantly from the original policy formulated by top leadership The book includes a description of the foreign service cadre and a systematic breakdown of the functional and administrative structure of the Ministry of External Affairs as well as the larger bureaucracy *A History of American Foreign Policy* Alexander DeConde, 1978 **From Roosevelt to Truman** Wilson D. Miscamble, 2007 On April 12 1945 Franklin Roosevelt died and Harry Truman took his place in the White House Historians have been arguing ever since about the implications of this transition for American foreign policy in general and relations with the Soviet Union in particular Was there essential continuity in policy or did Truman s arrival in the Oval Office prompt a sharp reversal away from the approach of his illustrious predecessor This study explores this controversial issue and in the process casts important light on the outbreak of the Cold War From Roosevelt to Truman investigates Truman s foreign policy background and examines the legacy that FDR bequeathed to him After Potsdam and the American use of the atomic bomb both of which occurred under Truman s presidency the US floundered between collaboration and confrontation with the Soviets which represents a turning point in the transformation of American foreign policy This work reveals that the real departure in American policy came only after the Truman administration had exhausted the legitimate possibilities of the Rooseveltian approach of collaboration with the Soviet Union *A History of American Foreign Policy: Global power, 1900 to the present* Alexander DeConde, 1978 International Negotiations: A Bibliography Amos Lakos, 2019-02-22 The international system comprises a plurality of sovereign states often pursuing conflicting interests One means of resolving or managing conflicts between those states is diplomatic bargaining or negotiation In the last fifteen years the study of negotiation has attracted researchers from various disciplines in the social sciences and the vol *Air University Review* , 1980-07 *American Foreign Policy in the Nuclear Age* Cecil Van Meter Crabb, Cecil V. Ambassadors Since 1775 Cathal J. Nolan,1997-10-28 This book spans more than 200 years of U S diplomatic history Its geographical scope widens along with the expanding interests of America itself from initial exclusive concern with the empires of Europe to the emerging nations of Latin America to the commercial opportunities and geopolitical concerns of Asia and Africa The ambassadors chosen for inclusion reflect these historical changes in American foreign relations Organized alphabetically the biographies present an implicit account of the evolution of the U S diplomatic service from its founding and early principles through the 20th century evolution of its habits and culture Modernity and Power Frank Ninkovich,1994-10-15 Modernity and Power provides a fresh conceptual overview of twentieth century United States foreign policy from the Roosevelt and Taft administrations through the presidencies of Kennedy and Johnson Beginning with Woodrow Wilson American leaders gradually abandoned the idea of international relations as a game of geopolitical interplays basing their diplomacy instead on a symbolic opposition between world public opinion and the forces of destruction and chaos Frank Ninkovich provocatively links this policy shift to the rise of a distinctly modernist view of history To emphasize the central role of symbolism and ideological assumptions in twentieth century American statesmanship Ninkovich focuses on the domino theory a theory that departed radically from classic principles of political realism by sanctioning intervention in world regions with few financial or geographic claims on the national interest Ninkovich insightfully traces the development of this global strategy from its first appearance early in the century through the Vietnam war Throughout the book Ninkovich draws on primary sources to recover the worldview of the policy makers He carefully assesses the coherence of their views rather than judge their actions against objective realities Offering a new alternative to realpolitic and economic explanations of foreign policy Modernity and Power will change the way we think about the history of U S international relations Military planning in the twentieth century : proceedings of the Eleventh Military History Symposium 10-12 October 1984 Harry R.
