Eisinger,2012-08-21 When federal and state governments battle over environmental regulations whose approach should prevail Shortly after passage of the 1990 Clean Air Act Amendments a controversial U S EPA mandate led to an intense conflict between federal regulators and California politicians The disagreement pitted EPA s required overhaul of auto inspections against California s desire to self govern its test program popularly called Smog Check The conflict nearly upended the Clean Air Act and triggered dramatic policy shifts throughout the United States Smog Check presents these struggles in first hand detail Eisinger an EPA official at the time of this conflict probes deeply into the issues and explores broader questions including when does it become imperative for agencies to bargain with one another when should regulatory flexibility and performance based regulations be favored over command and control approaches and what should be done when decisions need to be made in the face of scientific disagreement The book also includes insightful commentary from other EPA participants in the Smog Check controversy Smog Check s lessons will be relevant to climate change air pollution control and numerous other policy challenges *Highway Robbery* Robert Doyle Bullard,Glenn Steve Johnson,Angel O. Torres,2004 Firmly places transportation equity at the center of the ongoing civil rights struggle for equal opportunity *Environmental Health Perspectives* ,1993 Voluntary Environmental Programs Peter DeLeon,Jorge E.

Rivera,2010-01-01 Voluntary Environmental Programs pose a means by which industry government and other interested groups can cooperatively agree upon socially acceptable restraints Rather than relying on complete government control of environmental laws Voluntary Environmental Programs rely on a voluntary system for businesses They pose their unique problems predicated on the effectiveness of voluntary self constraint **OECD Environmental Performance Reviews: United States 2005** OECD,2006-01-10 This book presents OECD assessments and recommendations regarding US efforts to manage its environment including air water nature and biodiversity in a sustainable manner
