## **The Dawn Of The Reformation Essays In Late Medieval And Early Reformation Thought:**

*The Dawn of the Reformation* Heiko Augustinus Oberman, 1986 Throughout these essays there runs a common theme the need to place the Reformation movement in its medieval context and to bridge the ideological gaps between late medieval Renaissance and Reformation studies The opening chapters consider late medieval thought and the emergence of the young Luther at the center of the Reformation movement There follows a study of the impact upon Luther of the philological spiritual and philosophical traditions of sixteen century Europe These traditions are fully examined in order to discern what Luther and his followers silently ignored or rejected and so to delineate what is new and original in early Reformation thought The remaining chapters move from Luther to the wider world of events marking the Reformation era the Peasant War the Copernican Revolution the beginning of the Counter reformation and the reforms initiated by the Council of Trent Back cover

**Rediscovering the Natural Law in Reformed Theological Ethics**

Stephen J. Grabill, 2006-10-05 Is knowledge of right and wrong written on the human heart Do people know God from the world around them Does natural knowledge contribute to Christian doctrine While these questions of natural theology and natural law have historically been part of theological reflection the radical reliance of twentieth century Protestant theologians on revelation has eclipsed this historic connection Stephen Grabill attempts the treacherous task of reintegrating Reformed Protestant theology with natural law by appealing to Reformation era theologians such as John Calvin Peter Martyr Vermigli Johannes Althusius and Francis Turretin who carried over and refined the traditional understanding of this key doctrine Rediscovering the Natural Law in Reformed Theological Ethics calls Christian ethicists theologians and laypersons to take another look at this vital element in the history of Christian ethical thought

[The Two Reformations](#) Heiko A. Oberman, 2008-10-01 In this last collection of his vital controversial and accessible writings Heiko A Oberman seeks to liberate and broaden our understanding of the European Reformation from its origins in medieval philosophy and theology through the Puritan settlers who brought Calvin's vision to the New World Ranging over many topics Oberman finds fascinating connections between aspects of the Reformation and twentieth century history and thought most notably the connection to Nazism and the Holocaust He revisits his earlier work on the history of anti-Semitism rejects the notion of an unbroken line from Luther to Hitler to the Holocaust and offers a new perspective on the Christian legacy of anti-Semitism and its murderous result in the twentieth century Oberman demonstrates how the simplifications and rigidities of modern historiography have obscured the existential spirits of such great figures as Luther and Calvin He explores the debt of both Luther and Calvin to medieval religious thought and the impact of diverse features of the long fifteenth century including the Black Death nominalism humanism and the Conciliar Movement on the Reformation

**A Companion to the Great**

**Western Schism (1378-1417)** ,2009-09-30 The division of the Church or Schism that took place between 1378 and 1417 had no precedent in Christianity No conclave since the twelfth century had acted as had those in April and September 1378 electing two concurrent popes This crisis was neither an issue of the authority claimed by the pope and the Holy Roman Emperor nor an issue of authority and liturgy The Great Western Schism was unique because it forced upon Christianity a rethinking of the traditional medieval mental frame It raised question of personality authority human fallibility ecclesiastical jurisdiction and taxation and in the end responsibility in holding power and authority This collection presents the broadest range of experiences center and periphery clerical and lay male and female Christian and Muslim Theology including exegesis of Scripture diplomacy French literature reform art and finance all receive attention      **Reading Paul with the Reformers** Stephen J. Chester,2017-07-11 In debates surrounding the New Perspective on Paul the sixteenth century Protestant Reformers are often characterized as the apostle s misinterpreters in chief In this book Stephen Chester challenges that conception with a careful and nuanced reading of the Reformers Pauline exegesis Examining the overall contours of Reformation exegesis of Paul Chester contrasts the Reformers with their opponents and explores particular contributions made by such key figures as Luther Melanchthon and Calvin He relates their insights to contemporary debates in Pauline theology about justification union with Christ and other central themes arguing that their work remains a significant resource today Published in the 500th anniversary year of the Protestant Reformation Chester s Reading Paul with the Reformers reclaims a robust understanding of how the Reformers actually read the apostle Paul      **Historical Theology for the Church** Jason G. Duesing,Nathan A. Finn,2021-02-15 In Historical Theology for the Church editors Jason Duesing and Nathan Finn survey key doctrinal developments from four periods of church history the Patristic AD 100 500 Medieval AD 500 1500 Reformation AD 1500 1700 and Modern AD 1700 2000 eras      **Lutheran Patristic Catholicity** Quentin D. Stewart,2015 This book examines how Lutheranism continued to define itself as the evangelical catholic faith during almost two centuries of struggle over ownership of the fathers Central to the discussion is Martin Chemnitz who grappled with charges of theological novelty appealed to a qualified consensus of the fathers and responded to Trent s claim to the ancient ecumenical consensus Subsequent responses of Lutheran Orthodoxy to the Roman Catholic defense of Tridentine dogma and its particular appeal to the ancient consensus and later to the patristic ecumenism of Georg Calixt are also explored Series Works of Historical and Systematic Theology Arbeiten zur Historischen und Systematischen Theologie Vol 20 Subject Religious Studies History      *Covenant, Causality, and Law* Jordan J. Ballor,2012-04-18 Jordan J Ballor takes as his point of departure the doctrine of the covenant as it appears in the theology of the prominent second generation reformer Wolfgang Musculus 1497 1563 who is perhaps the earliest Reformed theologian to give the topic of the covenant a separate and distinct treatment in a collection of theological commonplaces Musculus teaching on the covenant is characterized by the important distinction he makes between general and special covenants and it is rooted in his exegetical

work on the book of Genesis Where Musculus Loci communes demonstrate his antispeculative soteriologically focused and pastorally driven approach his exegesis provides fulsome guidance in the study of Scripture This examination of Musculus views on covenant and related doctrines is followed by explorations concerning causality and metaphysics It concludes with considerations on law and social order This book is the first full scale study to place Musculus theology within its broader intellectual context and to focus on Musculus theology as found both in his Loci communes and in his extensive and voluminous exegetical work Musculus positions on doctrines related to covenant causality and law reveal the eclecticism of Reformed reception of medieval traditions The final section of this study places Musculus within the later development of Reformed orthodoxy in the 16th and 17th centuries concluding that Wolfgang Musculus is a significant and often overlooked figure worthy of further consideration

**Historical Dictionary of Calvinism** Stuart D.B. Picken,2011-11-11 The Historical Dictionary of Calvinism relates the history of its founder John Calvin the Reformed Church and the impact that Calvinism has had in the modern world along with an account of modern and contemporary developments within the religious political and social cultu

History, Prophecy, and the Stars Laura Ackerman Smoller,2017-03-14 Although astrology was viewed with suspicion by the medieval church it became a major area of inquiry for the renowned cardinal and scholar Pierre d Ailly whose astrological and apocalyptic writings had a significant influence on Christopher Columbus D Ailly s writings on the stars the focus of this book clearly illustrate the complex relationships among astrology science and Christian thinking in the late Middle Ages Through an examination of his letters sermons and philosophical astrological and theological treatises Laura Ackerman Smoller reveals astrology s appeal as a scientific means to interpret history and prophecy and not merely as a magical way to forecast and manipulate one s own fate At the same time she shows how d Ailly dealt with delicate problems such as free will and God s omnipotence in elevating astrology to a compelling but not always consistent natural theology The French cardinal s most intriguing prediction was for the advent of Antichrist in 1789 one that stemmed from his deep concern over the Great Schism 1378 1414 Smoller maintains that the division in the church led d Ailly to fear the imminence of the apocalypse and that he eventually turned to astrology to quell his apocalyptic fears thereby gaining confidence that a church council could heal the Schism In elucidating the place of astrology in medieval society this book also affords a personal glimpse of a man facing a profound crisis Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

*Iustitia Dei* Alister E. McGrath,2020-02-13 The Christian doctrine of justification is of immense interest to historians and theologians and continues to be of major importance in modern ecumenical discussions The present work appeared in its first

edition in 1986 and rapidly became the leading reference work on the subject Its many acclaimed features include a detailed assessment of the semantic background of the concept in the Ancient Near East a thorough examination of the doctrine of the medieval period and an especially careful analysis of its development during the critical years of the sixteenth century The substantially rewritten fourth edition thoroughly updates the work responding to the latest developments in scholarly literature and user feedback It will remain an essential resource for all concerned with the development of Christian doctrine the history of the Reformation debates on the identity of Christianity and modern discussions between Protestants and Roman Catholics over the nature of salvation      **John Calvin and the Grounding of Interpretation** R. Ward Holder, 2006

This book presents a new model for analyzing Calvin's biblical interpretation rescuing him from the quagmire of anachronistic interpretations Concentrating upon Calvin's description of biblical interpretation the book suggests new insights for hermeneutics exegesis in the Reformations and Calvin's ecclesiology      **The Puritan Imagination** Todd D. Baucum, 2022-07-29 This book seeks to add a needed introduction to a way of meditation used among early modern English Protestants influenced by Bishop Joseph Hall Furthermore the major role that Hall had in his *Arte of Divine Mediation* on late seventeenth century Protestant spirituality went beyond the practice of meditation and established a positive claim on the role of the imagination in shaping souls well into the modern period Within this context the questions related to ancient understandings of faith and the interrelationship of divine revelation are discussed with fresh insights for our own times If a revival of interest emerges again in Hall's work it would be a compelling and fresh impetus to reclaim the broken imagination evident in many parts of the Western Church      Richard Sibbes God's Spreading Goodness R N Frost, 2012-02-01 English Puritans of the Stuart era were divided by a number of questions The greatest of these asked what constitutes salvation and restoration from sin All agreed that it was by grace through faith But few could agree on how to define sin grace and faith Richard Sibbes consciously followed Augustine Martin Luther and John Calvin in defining sin as self love and grace as God's redemptive love in Christ His theology centered on the love of God expressed through Christ and offered by the Spirit and faith as a response to that love This produced a winsome and transforming theology of union with Christ and communion with God In this he was a counterweight to the spread of moralistic Puritan theologies in his day      Luther on Faith and Love Sun-young Kim, 2014-10-01 There has been a distinct tendency in modern scholarship to underestimate Luther's teaching on love by overemphasizing his teaching on justification Calling this tendency into question this volume advances the thesis that Luther's teaching on faith and love operates as the overriding thematic pair in the dynamics of Christ and the law structurally and conceptually undergirding the 1535 Galatians commentary The research situates itself in the landscape of Luther scholarship via a special attention to Finnish Luther scholars and scholarship The project argues that in the discussion of proper righteousness and holiness Luther's redefined love emerges in harmony with faith His views on Christian freedom the Christ given law of love the twofold way of fulfilling the law and his Christological premises

demonstrate the logical rationale for reintroducing love This love designated as a fruit of faith is incarnated in three major relations love toward God toward others and toward self

**Inventing the Church** Bénédicte Sère, 2025-11-11 Why is the official narrative of the history of the Catholic Church so discordant with the archival sources of the Middle Ages From the fifteenth century down to the present day the Church has constructed an identity and a past at odds with what the records show expanding the authority and power of the papacy in ways that have striking broader political implications This audacious and nuanced book explores how the Church has repeatedly invented and reinvented itself through a constant back and forth between narratives of the Middle Ages and modernity B n dicte S re excavates and traces this history through seven pivotal concepts in long standing debates over papal power and the nature of the Church Providing critical readings of the medieval sources on which later positions have been based she chronicles how the Church has officially interpreted and misinterpreted its own past in order to serve the needs of the present and to create a narrative for posterity Drawing on a wide range of classic and recent works published in French German Italian and English this book offers a bold reinterpretation of Church history and historiography Inventing the Church also speaks more broadly to questions concerning the interpretation of foundational documents the uses of history and the ways institutions interact with their own pasts

*Religion and Culture in Germany (1400-1800)* Robert Scribner, 2021-10-18 The late Bob Scribner was one of the most original and provocative historians of the German Reformation His truly pioneering spirit comes to light in this collection of his most recent essays In the years before his death Scribner explored the role of the senses in late medieval devotional culture and wondered how the Reformation changed sensual attitudes Further essays examine the nature of popular culture and the way the Reformation was institutionalised considering Anabaptist ideals of the community of goods literacy and heterodoxy and the dynamics of power as they unfold in a case of witchcraft The final section of the book consists of three iconoclastic essays which together form a sustained assault on the argument first advanced by Max Weber that the Reformation created a rational modern religion Scribner shows that far from being rationalist and anti magical Protestants had their own brand of magic These fine essays are certain to spark off debate not only among historians of the Reformation but also among art historians and anyone interested in the nature of culture

**A Short History of the Reformation** Helen L. Parish, 2018-08-30 When in October 1517 Martin Luther pinned his Ninety Five Theses to the door of All Saints Church in Wittenberg he shattered the foundations of western Christendom The Reformation of doctrine and practice that followed Luther s seismic action and protest against the sale of indulgences fragmented the Church and overturned previously accepted certainties and priorities But it did more challenging the relationship between spiritual and secular authority perceptions of the supernatural the interpretation of the past the role of women in society and church and clerical attitudes towards marriage and sex Drawing on the most recent historiography Helen L Parish locates the Protestant Reformation in its many cultural social and political contexts She assesses the Reformers impact on art and architecture on

notions of authority scripture and tradition and reflecting on the extent to which the printing press helped spread Reformation ideas on oral print and written culture
