Civil Aeronautics Board,1965 Profiting from the Plains Claire M. Strom,2011-10-17 Profiting from the Plains looks at two inextricably linked historical movements in the United States the westward expansion of the great Northern Railway and the agricultural development of the northern plains Claire Strom explores the persistent idiosyncratic attempts by the Great Northern to boost agricultural production along its rail routes from St Paul to Seattle between 1878 and 1917 Lacking a federal land grant the Great Northern could not make money through land sales like other railways It had to rely on haulage to make a profit and the greatest potential for increasing haulage lay in farming The energetic and charismatic owner of the Great Northern Railway James J Hill spearheaded most of the initiatives undertaken by his corporation to boost agricultural production He tried often unsuccessfully to persuade farmers of the profitability of his methods which were largely based on his personal farming experience When Hill s initial efforts to increase haulage failed he shifted his focus to working with outside agencies and institutions often providing them with the funding to pursue projects he hoped would profit his railroad At the time state and federal agencies were also promoting agricultural development through irrigation conservation and dryland farming but their agendas often clashed with those of the Great Northern Railway Because Hill failed to grasp the extent to which politicians goals differed from those of the railroad his use of federal expertise to promote agricultural change often backfired But despite these obstacles the railroad magnate ironically remained among the last defenders of the small scale farmer modeled on Jeffersonian idealism This fascinating story of railroad politics and development ties into themes of corporate and federal sponsorship which are increasingly recognized as fundamental to western history As the first scholarly examination of James J Hill s agricultural enterprises Profiting from the Plains makes an important contribution to the biography of the popular and controversial Hill as well as to western and environmental history *The Advanced Register Year Book of the Holstein-Friesian Association of America* ,1921 **Land of the Midnight Sun, Third Edition** Ken S.
