Jeff Manza, Clem Brooks

The Decline Of American Political Parties 1952 1994:

The Decline of American Political Parties, 1952-1994 Martin P. Wattenberg, 1996 **American Political Parties** Jeffrey E Cohen, Richard Fleisher, Paul Kantor, 2001-01-01 Powerful cross currents of both decline and resurgence have been affecting American political parties over the past several decades Is the era of decline that began in the late 1960s over and are the parties in a new era of rebuilding In what direction are the parties headed and what does it mean for a healthy and well functioning democracy American Political Parties brings together a distinguished team of contributors to explore these questions Students are exposed to original state of the art research on the parties that is written to be accessible and engaging Presenting both historical and contemporary material on the changing U S parties the book offers a balanced portrait and a wide variety of views concerning the continuing weaknesses of the parties and their concurrent signs of revitalization Essays examine three important elements of parties the parties in the mass public the parties as electoral and political organizations and the parties as governing groups Two themes recur throughout the first deals with party change specifically realignment and dealignment and the second with party responsibility in a democratic government The concluding chapter places the contributors various findings and viewpoints in perspective It offers several theories to help explain why the parties seem to be following their dual paths of development and considers the implications of this state of affairs for the future of American democracy **The Oxford Handbook of American Political Parties and Interest Groups** L. Sandy Maisel, Jeffrey M. Berry, 2012-01-12 The Oxford Handbooks of American Politics are the essential guide to the study of American political life in the 21st Century With engaging new contributions from the major figures in the field of political parties and interest groups this Handbook is a key point of reference for anyone working in American Politics today

Responsible Partisanship? John Clifford Green, Paul S. Herrnson, 2002 More than fifty years have passed since the American Political Science Association published Toward a More Responsible Two Party System a controversial report that addressed the lack of national cohesion within the major parties Although parties have changed a great deal since then they remain a critical component of American democracy While the possibilities and limits of responsible party government have been central topics in the literature since 1950 this book is the first to reassess all aspects of the APSA report Here a distinguished group of scholars among them Charles O Jones Barbara Sinclair Frank J Sorauf John Bibby and Gerald Pomper examine the effectiveness accountability and relevance of parties to the democratic process These articles cover all major relevant topics focusing on recent changes in laws that govern parties innovations in party organization party finance and the relationships among political consultants and parties They examine the place of the party in government including chapters on the changing role of parties in Congress and in the presidency and also consider the roles of parties among the electorate examining trends in voting behavior party identification and ideology A capstone essay by Leon Epstein the dean of American party scholars reviews the ongoing quest for responsible partisanship over the past half century These contributors offer a

mixed assessment of the two party system showing that parties are in many respects stronger at the national level than they were in 1950 but not necessarily more responsible The most comprehensive description and analysis of American parties now available Responsible Partisanship should become required reading for all students and citizens concerned with making parties more accountable instruments of government US Politics Today Edward Ashbee,2004-11-27 US Politics Today offers a broad introduction to US government As well as looking at institutions such as the Presidency Congress and the Supreme Court the book looks at the social and cultural context within which political issues are discussed **Black Faces in the Mirror** Katherine Tate,2018-06-05 Here Katherine Tate examines the significance of race in the U S system of representative democracy for African Americans Presenting important new findings she offers the first empirical study to take up the question of representation from both sides of the constituent representative relationship The first half of the book examines whether black members of the U S House legislate and represent their constituents differently than white members do Representation is broadly conceptualized to include not only legislators roll call voting behavior and bill sponsorship but also the symbolic acts in which they engage The second half looks at the issue of representation from the perspective of ordinary African Americans based on a landmark national survey Tate s findings are mixed But in the main legislators race does shape how they represent their constituents and how constituents evaluate them African Americans view black representatives more positively than they do white representatives even those who belong to their own political party Black legislators however are just as likely as white representatives to sponsor and gain passage of bills in the House Tate also concludes that black House members are more liberal as a group than are their black constituents but that there is considerable divergence in the quality and type of representation they provide The findings reported here will generate controversy in the fields of politics law and race particularly as debate commences over renewing the Voting Rights Act which is set to expire in 2007 **Parties and Elections in America** Sandy L. Maisel,Mark D. Brewer,2009-11-16 This book covers all elements of parties and the electoral process including local state and national party organizations American party history and party systems state and local nominations state and local elections presidential nominations and presidential elections Separate chapters are devoted to the important subjects of the media in the electoral process and campaign finance The role of political parties in representative democracy_and their contributions to it_are examined critically This post election update includes complete data from 2008 and an updated chapter on campaign finance **Why Americans Don't Join the Party** Zoltan Hajnal,Taeku Lee,2011-02-07 Two trends are dramatically altering the American political landscape growing immigration and the rising prominence of independent and nonpartisan voters Examining partisan attachments across the four primary racial groups in the United States this book offers the first sustained and systematic account of how race and immigration today influence the relationship that Americans have or fail to have with the Democratic and Republican parties Zoltan Hajnal and Taeku Lee contend that partisanship is shaped by three factors identity ideology and

information and they show that African Americans Asian Americans Latinos and whites respond to these factors in distinct ways The book explores why so many Americans in particular Latinos and Asians fail to develop ties to either major party why African Americans feel locked into a particular party and why some white Americans are shut out by ideologically polarized party competition Through extensive analysis the authors demonstrate that when the Democratic and Republican parties fail to raise political awareness to engage deeply held political convictions or to affirm primary group attachments nonpartisanship becomes a rationally adaptive response By developing a model of partisanship that explicitly considers America s new racial diversity and evolving nonpartisanship this book provides the Democratic and Republican parties and other political stakeholders with the means and motivation to more fully engage the diverse range of Americans who remain outside the partisan fray

Political Advertising in the United States Erika Franklin Fowler, Michael Franz, Travis Ridout, 2021-11-24 Political Advertising in the United States examines the volume distribution content and effects of political advertising in congressional and presidential elections The book considers the role of television ads using extensive data on ad airings on local broadcast stations It also analyzes newly available data on paid digital ads including ads on Facebook Instagram Google and YouTube The book covers the role of outside groups in airing ads including the rise of dark money groups and gaps in existing federal campaign finance laws around transparency of outside group spending The authors consider how ad sponsors design and target ads They also review the positive and negative implications of an electoral system where billions are spent on paid advertising With detailed analysis of presidential and congressional campaign ads and discussion questions in each chapter this accessibly written book is a must read for students scholars and practitioners who want to understand the ins and outs of political advertising New to the Second Edition Covers the spending content and tone of political advertising in the 2016 and 2020 presidential elections and the 2018 midterms looking ahead to 2022 and 2024 Addresses the interference of foreign actors in elections and their connection to political advertising Expands the discussion of digital political advertising and incorporates this topic into every chapter Adds a new chapter specifically addressing digital ad content and spending Includes data from the Facebook Google and Snapchat ad libraries and explores the role of these companies in regulating the sale of political advertising Incorporates new data on the effects of race and gender in advertising including what is known about the way in which advertising may activate prejudicial attitudes

Global Political Marketing Jennifer Lees-Marshment, Chris Rudd, Jesper Stromback, 2009-10-16 There is increasing awareness of growing similarities in political marketing practices around the world Global political marketing is a comprehensive analysis of why how and with what affect parties use political marketing in a range of political systems presidential parliamentary two and multi party and established and emerging democracies Written by a team of 25 international expert authors the volume explores the impact of systemic features such as the party and electoral system analysing how parties use marketing through 14 detailed country studies The book explores the notion that political

marketing is used by parties to both sell and design political products is by no means confined to the opposition and that many opinions besides those of the voters are considered in product design including ideological anchors expert opinion and party members input The authors also explore how other factors impact on political marketing effectiveness such as the ability of governments to communicate delivery stay in touch the role of the media and party unity and culture Finally the work discusses the democratic implications of market oriented parties highlighting the need for debate about the relationship between citizens and governments and the prospects for democracy in the 21st century Including a practitioner perspective as well as rigorous academic analysis this collection provides the first global comprehensive overview of how political parties market themselves it will be of great interest to all scholars of political marketing parties and elections and comparative politics

Party Members and Their Importance in Non-EU Countries Sergiu Gherghina, Alexandra Iancu, Sorina Soare, 2018-05-23 Although party membership has been extensively analysed in the EU Members States from Western and Eastern Europe there is a gap in systematic data collection and analyses for the other countries in the Balkans and post Soviet region This book provides new and innovative insights in the area of party membership research to analyse the evolution of membership organizations in political parties from under investigated countries Specifically it seeks to understand the way in which political parties and the national legislation conceptualize the notion of membership within and across countries It provides original data and affords a first comprehensive comparative study of party members in the EU neighbouring countries which resonate particular interest because some of them occupy the precarious middle ground between a full fledged democracy and outright dictatorship In light of these relevant observations this systematic analysis of membership evolutions in democratizing countries brings valuable insights for the study of party politics in general This text will be of key interest to scholars and students of political parties and party systems party organisation and elections post Soviet and East European politics and more broadly to democratization studies and comparative politics

The Party Politics of Presidential Rhetoric Amnon Cavari, 2017-03-10 By bringing together two bodies of literature the presidency and political parties this book makes two important contributions First it addresses the gap between presidential public actions and the perceived limited effect they have on public opinion By examining the short term effect of speeches of presidents on the entire public the long term effect of the speeches on their partisans and on the reputations of their parties for handling policy the book shows that presidents are effective leaders of public opinion Second the book adds to the scholarly interest in how political parties are viewed by the electorate in terms of policy substance It suggests that Americans possess coherent reputations of the parties for handling policy challenges and that these reputations contribute to the party identifications of Americans The effect of presidents on the reputations and in turn party attachments position them as leaders of the party system

Broken Contract? Stephen C Craig, 2018-10-08 This book offers a closer examination of how Americans think and feel about their government It deals with politics at the grass roots The book addresses several of the most significant

bases of social cleavage present in the US It focuses on political decisionmakers and decisionmaking *Political Marketing* Darren G. Lilleker, Jennifer Lees-Marshment, 2005-08-06 Political marketing has become a global phenomenon as parties try to copy the market oriented approach employed by Tony Blair to win power for New Labour in 1997 It raises fresh perspectives on the more established political marketing practices in the UK and US such as how to incorporate political leadership within the market oriented framework and the democratic implications when faced with the actual business of governing This book also highlights how the market oriented party approach has spread around the world including Europe and the new democracies of Brazil and Peru The collection also introduces the debate on whether such practices enhance or undermine democracy raising important questions on the future of political marketing **When Politicians Attack** Tim Groeling, 2010-07-19 A study of the consequences of partisan communication on the stability of unified government of the United States **Social Cleavages and Political Change** Jeff Manza, Clem Brooks, 1999-09-23 What social groups support which political party and how that support has changed over time are central questions in the sociology of political behaviour This study provides the first systematic book length reassessment and restatement of the sociological approach to American politics in more than 20 years It challenges widespread arguments that the importance of social cleavages have declined precipitously in recent years in the face of post industrial social and economic changes The book reconceptualizes the concept of social cleavages and focus on four major cleavages in American society class religion gender and race arguing a that a number of important changes in the alignments of the groups making up these four cleavages have occurred The book examines the implications of these changes for the Democratic and Republican Parties The findings of the book are examined in light of the central dilemmas facing the two major parties in the contemporary political environment Money Matters Robert K. Goidel, Donald August Gross, Todd G. Shields, 1999 Methods of campaign financing have been controversial since George Washington first ran for office and debates over campaign finance reform have raged just as long Contemporary critics of reform often contend that it would decrease electoral competition voter turnout and the amount of information voters receive about candidates Money Matters subjects these criticisms to careful systemic analysis using simulations aggregate vote analyses and individual level data analyses based on House elections and concludes that reform with modest public subsidies and spending limits would enhance rather than diminish the U S system of democratic governance This timely book helps bridge the gap between quantitative academic research and applied progressive reform efforts It will be of interest to scholars and students of political parties the legislative process campaigns and elections political institutions public policy and political behavior and methodology **Partners and Rivals** Wendy J. Schiller, 2021-01-12 Congressional scholars have vastly underappreciated how representation in the U S Senate differs from the House of Representatives In this provocative new study Wendy J Schiller develops a theory of dual representation where two legislators share the same geographical constituency to explain Senators behavior Noting that Senators from the same state join different committees

focus on different policy areas and address different economic interests through bill and amendment sponsorship the author examines the electoral and institutional forces that elicit this competitive behavior In developing her theory Schiller relies on a wide variety of methodologies from statistical analysis to case studies and makes telling comparisons with similar situations in Latin America and Asia Partners and Rivals argues against the commonly held view that individual Senators do an inadequate job in representing their states Instead this book demonstrates how the competitive structure of Senate delegations creates the potential for broad and responsive representation in the Senate When two senators from the same state are viewed as a pair it becomes clear that their combined representational agendas include a wide range of the interests and opinions that exist among constituents in their state This holds true whether the Senators are from the same party or not Rich in details Partners and Rivals is the most thorough and rigorous explanation of Senators behavior available

Japanese and Korean Politics T. Inoguchi, 2015-01-22 This volume examines Japanese and Korean politics from both Japanese and Korean angles exploring why the two countries do not cooperate bilaterally or consult one another despite their geographical closeness and a number of common features that are central to both countries domestic politics and foreign policies

The Emergence of State Government Jeffrey M. Stonecash, Mary P. McGuire, 2003 Democrats enacted the major changes but only with enormous reluctance and only under enormous pressure And Republicans with one exception were not eager to repeal the actions of Democrats when Republicans regained power Democrats did not play the simple role of being liberal and Republicans did not play the simple role of being conservative The behavior and motives of parties present an important puzzle which this book also seeks to address

Right here, we have countless books **The Decline Of American Political Parties 1952 1994** and collections to check out. The Decline Of American Political Parties 1952 1994 Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading The Decline Of American Political Parties 1952 1994 free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading The Decline Of American Political Parties 1952 1994 free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading The Decline Of American Political Parties 1952 1994 free PDF files is convenient, its important to note that copyright laws must

be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but it's essential to be cautious and verify the authenticity of the source before downloading The Decline Of American Political Parties 1952 1994. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether it's classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading The Decline Of American Political Parties 1952 1994 any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About The Decline Of American Political Parties 1952 1994 Books

1. Where can I buy The Decline Of American Political Parties 1952 1994 books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
