Varieties of Secularism in a Secular Age Michael Warner, Jonathan VanAntwerpen, Craig J. Calhoun, 2010-03-15

What does it mean to say that we live in a secular age? This apparently simple question opens into the massive provocative and complex A Secular Age where Charles Taylor positions secularism as a defining feature of the modern world not the mere absence of religion and casts light on the experience of transcendence that scientific explanations of the world tend to neglect. In Varieties of Secularism in a Secular Age a prominent and varied group of scholars chart the conversations in which A Secular Age intervenes and address wider questions of secularism and secularity. The distinguished contributors include Robert Bellah, José Casanova, Nilfer G. Le William E. Connolly, Wendy Brown, Simon During, Colin Jäger, Jon Butler, Jonathan Sheehan, Akeel Bilgrami, John Milbank, and Saba Mahmood. Varieties of Secularism in a Secular Age succeeds in conveying to readers the complexity of secularism while serving as an invaluable guide to a landmark book.

Traditional Religion and Culture in a New Era Reimon Bachika, 2017-12-04

Where will postmodern culture lead us in the twenty-first century? Will it destroy traditional cultures together with the old established religions that were its foundation? These questions and the new concerns they evoke are explored in this important collection of original essays. Contributors challenge entrenched assumptions about what many social scientists consider irreversible cultural trends. These include cultural differentiation, emphasis on individual identity, movement toward religion as a private act rather than a community commitment, and above all, emphasis on the relativity of all knowledge and values. The volume asserts three lines of argument in opposition to these trends. The first is the teleological significance of traditional religions and archaic knowledge. History can be said to have no goal, but the same must not follow for human culture. One can conceive individually of a hundred goals to live for. However, the quality of life cannot be that diverse. Taken to the extreme, cultural particularity and philosophical nihilism are insults to the life that emerged on our planet eons ago. Second, this volume emphasizes moral concern and the importance of universal values. Ideas of human well-being have been formulated from ancient times. Religious beliefs invariably contain statements of value in the form of commandments and exhortations that express fundamental goals for a quality of life. Third, the nature of religion and spirituality is discussed. Religion today has become controversial, socially and marginally sociologically. The role of religion in society is sometimes problematic or abused, but it is also underestimated and misunderstood. The authors suggest that contemporary religion might best be viewed as non-ideological spiritual culture. This in turn looks to a future in which religion and culture coalesce. This volume includes an international cast of scholars from Japan, the United States, Canada, the United Kingdom, Germany, Greece, Italy, New Zealand, and Belgium. All have engaged in research outside their own countries. Taken as a whole, this volume addresses issues of interest to those in the fields of futures studies, religion, and philosophy, and in particular, those concerned with human agency, personal responsibility, and public choice.

An Introduction to

International Relations and Religion Jeffrey Haynes, 2014-04-23 Not so very long ago it seemed reasonable to assert that the influence of religion on global politics was on the wane. As the Western world became increasingly secular and the process of globalisation deepened it seemed inevitable on the surface at least that the voice of religion was to be heard softly if it was to be heard at all. This has now changed and changed perhaps irrevocably. As Jeff Haynes argues in this thought provoking and important new book various religious actors are now significantly involved in international relations and have become a crucial influence on policy in a post Westphalian world. *International Relations and Religion* guides the reader through the complex issues at the heart of this topic with clarity and insight. This updated second edition starts with a close reading of the many theoretical and analytical concepts notably Huntington and the clash of civilisations that have grown up around this area and then concludes with a summary of the issues under discussion and attempts to put into context what it means to live in a world that is increasingly shaped by a whole host of diverse religious groups. Essential reading for students of International Relations and Politics.

The Secularization Debate William H. Swatos (Jr.), 2000 Introduced to social scientific audiences by Max Weber the concept of secularization has had a major influence on the way in which religion has been understood in the West. But at least since the late 1980s both the predictive and the descriptive adequacy of this concept have been seriously challenged. In the face of this challenge *The Secularization Debate* offers a timely summary of the critical issues that have arisen over the past decade. With its wide range of essays by prominent international scholars *The Secularization Debate* is sure to become a pivotal volume for anyone interested in the hotly contested concept of secularization and its continued relevance to the study of religion.

Politics and Religion: The Basics Jeffrey Haynes, 2025-07-31 *Politics and Religion: The Basics* provides a concise introduction to the complex interactions between politics and religion in both domestic and international contexts. This book examines the role of religion in shaping political systems, behaviours and debates worldwide. By introducing some of the most prominent religions it explores their impact on contemporary politics and sheds light on key topics such as religious nationalism, gender inequality, religious terrorism and the struggle for religious freedom. Using case studies from countries including Iran, the USA, France, China and Turkey it highlights pivotal events such as Iran's 1979 revolution and addresses modern controversies such as the rise of religious nationalism. Broader discussions on democratisation, globalisation and secularisation are integrated with theoretical insights and practical examples offering a comprehensive overview of the field. Aimed at undergraduate students in political science, international relations and religious studies, this book is also a valuable resource for scholars. With its clear structure and real world relevance it provides an ideal starting point for understanding the dynamic relationship between politics and religion.

Christian Ideals in British Culture D. Nash, 2013-05-07 This book offers a challenge to conventional histories of secularisation by focusing upon the importance of central religious narratives. These narratives are changed significantly over time but also to have been invested with importance and meaning by religious individuals and organisations as well as by

secular ones

The Evangelical Counter-Enlightenment William R. Everdell, 2021-05-21 This contribution to the global history of ideas uses biographical profiles of 18th century contemporaries to find what Salafist and Sufi Islam Evangelical Protestant and Jansenist Catholic Christianity and Hasidic Judaism have in common Such figures include Muhammad Ibn Abd al Wahab Count Nikolaus Zinzendorf Jonathan Edwards John Wesley Jean Jacques Rousseau and Israel Baal Shem Tov The book is a unique and comprehensive study of the conflicted relationship between the evangelical movements in all three Abrahamic religions and the ideas of the Enlightenment and Counter Enlightenment Centered on the 18th century the book reaches back to the third century for precedents and context and forward to the 21st for the legacy of these movements This text appeals to students and researchers in many fields including Philosophy and Religion their histories and World History while also appealing to the interested lay reader

A Sociology of Spirituality Peter C. Jupp, 2016-03-16 The emergence of spirituality in contemporary culture in holistic forms suggests that organised religions have failed This thesis is explored and disputed in this book in ways that mark important critical divisions This is the first collection of essays to assess the significance of spirituality in the sociology of religion The authors explore the relationship of spirituality to the visual individualism gender identity politics education and cultural capital The relationship between secularisation and spirituality is examined and consideration is given to the significance of Simmel in relation to a sociology of spirituality Problems of defining spirituality are debated with reference to its expression in the UK the USA France and Holland This timely original and well structured volume provides undergraduates postgraduates and researchers with a scholarly appraisal of a phenomenon that can only increase in sociological significance

Celluloid Saviours Emily Caston, 2020-05-22 In Celluloid Saviours the author analyses a corpus of US films dating from the silent era that she calls film blanc In these fantasy films a guardian spirit with extraordinary powers suspends the ordinary known laws of time and space and a main character reforms himself or herself in life changing ways The author argues that the historical pattern of film blanc relates to the rise and fall of liberal and reform thought in US politics specifically to conceptions of human nature as a tabula rasa This conception is evident both in the early feature films featuring angels such as Chaplin's The Kid and much later examples such as the 1980s box office hit Trading Places She argues that this narrative tradition runs from Hollywood's beginnings to the present day and is foreshadowed in the English ghost stories of Charles Dickens The classic era of film blanc is epitomised in the enduringly popular film It's a Wonderful Life More recent examples of narrative form analysed by Caston include The Truman Show and Eternal Sunshine of the Spotless Mind

A Secular Age Beyond the West Mirjam Künkler, John Madeley, Shylashri Shankar, 2018-07-05 This book compares secularity in societies not shaped by Western Christianity particularly in Asia the Middle East and North Africa

A Need for Religion: Insecurity and Religiosity in the Contemporary World Francesco Molteni, 2020-12-07 In A Need for Religion Insecurity and Religiosity in the Contemporary World Francesco Molteni tries to answer one of the broadest questions for scholars of religion why is religiosity declining in

developed countries He does so by inspecting all the different nuances of the insecurity theory which links the feeling of security typical of modern societies with the diminished need for religion as source of reassurance support and predictability In this respect he notes that much of the evidence is far less clear than expected and that secularization processes are at an advanced stage only in a rather small group of worldwide countries

Morphogenesis and the Crisis of Normativity

Margaret S. Archer,2016-05-24 This volume explores the development and consequences of morphogenesis on normative regulation It starts out by describing the great normative transformations from morphostasis as the precondition of a harmonious relationship between legal validity and normative consensus in society to morphogenesis which tends to strongly undermine existing laws norms rules rights and obligations because of the new variety it introduces Next it studies the decline of normative consensus resulting from the changes in the social contexts that made previous forms of normativity based upon habits habitus and routine action unhelpfully misleading because they no longer constituted relevant guidelines to action It shows how this led to the Reflexive Imperative with subjects having to work out their own purposeful actions in relation to their objective social circumstances and their personal concerns if they were to be active rather than passive agents Finally the book analyses what makes for chance in normativity and what will underwrite future social regulation It discusses whether it is possible to establish a new corpus of laws norms and rules given that intense morphogenesis denies the durability of any new stable context

Mission Implausible Duncan MacLaren,2012-07-18 It is commonly agreed that the churches of Europe are in crisis but

why How can we explain their dramatic decline over the past four decades In particular why do contemporary people struggle to believe And how might the churches address this crisis of credibility Are there already signs of hope And what can tenacious forms of religion teach the churches as they go about their task of mission Mission Implausible tackles these questions using the tools of sociological analysis It argues that much of the blame for church decline is misplaced and that a broader explanation is required which sets the current crisis within a historical and sociological perspective Written for church leaders theologians students of theology and sociology and all those concerned with Christian mission Mission Implausible explores a range of strategies aimed at rebuilding a social climate favorable to Christian belief A Church Drawing Near Paul D. L. Avis,2004-01-01 By first defining the core tasks or mission of the Church in biblical and theological terms Paul Avis then goes on to ask how these tasks can best be carried out in the conditions of modernity and post modernity Secularization Karel Dobbelaere,2002 In an epoch in which religion has explicitly and sometimes violently returned to the forefront of the global public scene the process of secularization that has fundamentally marked Western and particularly European societies demands attention and analysis This book written from a sociological perspective takes up that challenge The author distinguishes three levels of secularization Societal secularization which is a typical consequence of the processes of modernity and of programmes of la cisation promoted by political parties Individual secularization that is manifested in the decline of church commitment occurring as individuals re compose their personal beliefs and practices in a religion la carte and as the individual s meaning system becomes compartmentalized and religion is separated from other areas of life A third level organizational secularization covers the incidence of the adaptation of religious bodies to secularized society The entire work is marked by meticulous description and analysis of numerous theoretical and empirical studies and by due recognition of the intricate relationship between levels of secularization and the impact of various actors in the many conflicts over religion s roles On the Way James J. Rawls,2018-05-29 On the Way is a book of reflections on one man s journey of faith Its origins lie in the universal longing of humankind for something beyond ourselves for something once present that has diminished with the passing of time This presence now is sensed only fleetingly yet the longing persists The title of the book has a double meaning On the Way refers to the journey of faith our lifelong pilgrimage from God and to God But it also points to the one who leads us on this journey the one who says I am the way and the truth and the life On the Way is a collection of one hundred devotional readings reminiscent of Spurgeon s classic Morning and Evening Daily Readings and the Benedictine Lectio Divina It is intended to stir within the reader some forward movement in their own journey of faith What people are saying about On the Way James J Rawls draws on wisdom from across the ages Here he shares his ongoing conversation with these many voices within the framework of a deep personal and practical faith This book is a great gift and blessing The Rt Rev Barry L Beisner VII Bishop of the Episcopal Diocese of Northern California This is a wonderful book beautifully written insightful and filled with wisdom and warmth Gil Bailie founder of The Cornerstone

Forum and author of God's Gamble: The Gravitational Power of Crucified Love (2016), James Rawls has a capacity for clarity of thought and graceful articulation that the reader will find fully present in these meditations. Savor, consume, and digest them. Repeat again and again.
