The Desire Of My Eyes A Life Of John Ruskin:

The Desire of My Eyes Wolfgang Kemp, 2025-09-23 This tour de force of analysis Joel Agee examines the life and work of the prolific visionary writer painter and critic Kemp finds in Ruskin's life which spanned the same years as Queen Victoria's and thus embodied the Victorian era itself a faithful mirror of the history and psychological evolution of his age *The Genius of John Ruskin* John Ruskin, John D. Rosenberg, 1997 This volume powerfully demonstrates the range and inexhaustible vitality of Ruskin's prose and will once again become an indispensable reference for Victorianists from a range of disciplines **John Ruskin** Andrew Ballantyne, 2015-06-15 John Ruskin 1819-1900 was the most prominent art and architecture critic of his time Yet his reputation has been overshadowed by his personal life especially his failed marriage to Effie Gray which has cast him in the history books as little more than a Victorian prude In this book Andrew Ballantyne rescues Ruskin from the dustbin of history's trifles to reveal a deeply attuned thinker one whose copious writings had tremendous influence on all classes of society from roadmenders to royalty Ballantyne examines a crucial aspect of Ruskin's thinking the notion that art and architecture have moral value Telling the story of Ruskin's childhood and enduring devotion to his parents who fostered his career as a writer on art and architecture he explores the circumstances that led to Ruskin's greatest works such as *Modern Painters* *The Seven Lamps of Architecture* *The Stones of Venice* and *Unto This Last* He follows Ruskin through his altruistic ventures with the urban poor to whom he taught drawing motivated by a profound conviction that art held the key to living a worthwhile life Ultimately Ballantyne weaves Ruskin's story into a larger one about Victorian society a time when the first great industrial cities took shape and when art could finally reach beyond the wealthy elite and touch the lives of everyday people John Ruskin, J.M.W. Turner and the Art of Water Carmen Casaloggi, 2022-12-20 This book assesses Ruskin's and Turner's mutual interest in the theme of water with particular reference to *The Harbours of England* 1856 Ruskin's book on ships and marine art to which are appended Turner's 12 illustrations of the English ports By considering existing scholarly works on Ruskin and Turner the book begins by demonstrating that the two despite their widely acknowledged relations have rarely been examined in conjunction It raises the question as to how the subject of water inspired the intellectual aesthetic philosophical and scientific climate of the nineteenth century both in Britain and abroad and acknowledges the significance of the relationship between Ruskin and Turner in the context of aquatic studies Ruskin's childhood fascination with water is examined in detail while the scientific and spiritual importance of the subject in *Modern Painters* and *The Stones of Venice* is also emphasised and read in parallel with *The Harbours of England* a detailed account of which is given referring to both text and illustrations Turner's role in Ruskin's understanding of specific water pictures is also reconstructed The book demonstrates that water is important as a multifaceted compendium of contemporary themes for tradition progress nationalism and patriotism find their iconography in its depiction Considering the literary and painterly implications of wateriness the text concludes with a reflection upon the

significance of the study of water for Ruskin and Turner and for their age **The Gothic Worlds of Peter Straub** John C. Tibbetts, 2016-08-29 Horror novelist Peter Straub creates highly personalized fiction with an allusiveness and ambiguity that deny the genre's explicit nature For him the Gothic style is to be created and recreated in a changing world Faustian pacts buried secrets haunted places ghosts vampires and succubi take on strange new shapes and effects Stephen King describes Straub's style as a synthesis of horror and beauty Drawing on interviews with Straub and featuring an exclusive interview with King this study explores the work of the author who has been called a writer of rare wit and intelligence in a field beset with cynical potboilers Douglas E Winter Washington Post October 14 1984 Ruskin, the Theatre and Victorian Visual Culture A. Heinrich, K. Newey, J. Richards, 2009-04-08 This collection of essays sets out to challenge the dominant narrative about Victorian theatre by placing the practices and products of the Victorian theatre in relation to Victorian visual culture through the lens of the concept of Ruskinian theatre an approach to theatre which values its educative purpose as well as its aesthetic expression *Empire Building* Mark Crinson, 2013-10-11 The colonial architecture of the nineteenth century has much to tell us of the history of colonialism and cultural exchange Yet these buildings can be read in many ways Do they stand as witnesses to the rapacity and self delusion of empire Are they monuments to a world of lost glory and forgotten convictions Do they reveal battles won by indigenous cultures and styles Or do they simply represent an architectural style made absurdly incongruous in relocation Empire Building is a study of how and why Western architecture was exported to the Middle East and how Islamic and Byzantine architectural ideas and styles impacted on the West The book explores how far racial theory and political and religious agendas guided British architects and how such ideas were resisted when applied and how Eastern ideas came to influence the West through writers such as Ruskin and buildings such as the Crystal Palace Beautifully written and lavishly illustrated Empire Building takes the reader on an extraordinary postcolonial journey backwards and forwards into the heart and to the edge of empire **The Biography Book** Daniel S. Burt, 2001-02-28 From Marilyn to Mussolini people captivate people A E's Biography best selling autobiographies and biographical novels testify to the popularity of the genre But where does one begin Collected here are descriptions and evaluations of over 10 000 biographical works including books of fact and fiction biographies for young readers and documentaries and movies all based on the lives of over 500 historical figures from scientists and writers to political and military leaders to artists and musicians Each entry includes a brief profile autobiographical and primary sources and recommended works Short reviews describe the pertinent biographical works and offer insight into the qualities and special features of each title helping readers to find the best biographical material available on hundreds of fascinating individuals **Mirror Worlds** David Gelernter, 1993-01-28 Technology doesn't flow smoothly it's the big surprises that matter and Yale computer expert David Gelernter sees one such giant leap right on the horizon Today's small scale software programs are about to be joined by vast public software works that will revolutionize computing and transform society as a whole One such vast program is the Mirror World Imagine

looking at your computer screen and seeing reality an image of your city for instance complete with moving traffic patterns or a picture that sketches the state of an entire far flung corporation at this second These representations are called Mirror Worlds and according to Gelernter they will soon be available to everyone Mirror Worlds are high tech voodoo dolls by interacting with the images you interact with reality Indeed Mirror Worlds will revolutionize the use of computers transforming them from mere handy tools to crystal balls which will allow us to see the world more vividly and see into it more deeply Reality will be replaced gradually piece by piece by a software imitation we will live inside the imitation and the surprising thing is this will be a great humanistic advance We gain control over our world plus a huge new measure of insight and vision In this fascinating book part speculation part explanation Gelernter takes us on a tour of the computer technology of the near future Mirror Worlds he contends will allow us to explore the world in unprecedented depth and detail without ever changing out of our pajamas A hospital administrator might wander through an entire medical complex via a desktop computer Any citizen might explore the performance of the local schools chat electronically with teachers and other Mirror World visitors plant software agents to report back on interesting topics decide to run for the local school board hire a campaign manager and conduct the better part of the campaign itself all by interacting with the Mirror World Gelernter doesn't just speculate about how this amazing new software will be used he shows us how it will be made explaining carefully and in detail how to build a Mirror World using technology already available We learn about disembodied machines trellises ensembles and other computer components which sound obscure but which Gelernter explains using familiar metaphors and terms He tells us that a Mirror World is a microcosm just like a Japanese garden or a Gothic cathedral and that a computer program is translated by the computer in the same way a symphony is translated by a violinist into music Mirror Worlds offers a lucid and humanistic account of the coming software revolution told by a computer scientist at the cutting edge of his field

The Politics of Making Mark Swenarton, Igea Troiani, Helena Webster, 2013-04-15 A unique collection of contemporary writings this book explores the politics involved in the making and experiencing of architecture and cities from a cross cultural and global perspective Taking a broad view of the word politics the essays address a range of questions including What is the relationship between politics and the making of space What role has theory played in reinforcing or resisting political power What are the political difficulties associated with working relationships Do the products of our making construct our identity or liberate us A timely volume focusing on an interdisciplinary debate on the politics of making this is valuable reading for all students professionals and academics interested or working in architectural theory

Picturing Reform in Victorian Britain Janice Carlisle, 2012-05-31 How did Victorians as creators and viewers of images visualize the politics of franchise reform This study of Victorian art and parliamentary politics specifically in the 1840s and 1860s answers that question by viewing the First and Second Reform Acts from the perspectives offered by Ruskin's political theories of art and Bagehot's visual theory of politics Combining subjects and approaches characteristic of art history

political history literary criticism and cultural critique *Picturing Reform in Victorian Britain* treats both paintings and wood engravings particularly those published in *Punch* and the *Illustrated London News* Carlisle analyzes unlikely pairings a novel by Trollope and a painting by Hayter an engraving after Leech and a high society portrait by Landseer to argue that such conjunctions marked both everyday life in Victorian Britain and the nature of its visual politics as it was manifested in the myriad heterogeneous and often incongruous images of illustrated journalism **A Different Story** C. Christian Beels, 2001

October, or Autumnal Tints Henry David Thoreau, 2012-09-03 A gorgeous edition Boston Globe of Thoreau's classic work enhanced with an illuminating essay and beautiful watercolors Originally delivered as a lecture shortly before the writer's own death Henry David Thoreau's classic *Autumnal Tints* is an ode to autumn not as the season of death and decay but of ripeness fullness and maturity It is perhaps the best piece ever written on the subject of the fall color of the changing leaves Thoreau hoped one day to turn it into an illustrated book called *October or Autumnal Tints* Thoreau's astute meditations are framed by a biographical essay by acclaimed scholar Robert D Richardson that delves into the events and relationships influencing Thoreau's philosophy Sensuous watercolors by Lincoln Perry bring to life the fall colors described so ecstatically by Thoreau allowing longtime Thoreau fans and leaf peepers alike to feel as though they are walking among the falling leaves alongside one of our best observers of the natural world *Killing Dragons* Fergus Fleming, 2007-12-01 A dramatic and

masterful account of early alpine explorers and the challenges they faced to scale the summits Anthony Brandt *National Geographic Adventure* In a riveting narrative of daredevils and eccentrics Fergus Fleming gives us the breathtaking story of some of history's greatest explorers as they conquer the soaring peaks of the Alps Fleming recounts the incredible exploits of the men whose centuries old fear of the mountain range turned quickly to curiosity then to obsession as they explored Europe's frozen wilderness In the late eighteenth century French and Swiss scientists became interested in the Alps as a research destination but in the 1850s the focus changed the icy mountains now offered an all out competition for British climbers who wanted to conquer ever higher and more impossible heights and explorers fought each other on the peaks and in the press entertaining a vast public smitten with their bravery delighted by their personal animosities and horrified by the disasters that befell them Fleming attacks his theme with verve mining entertainment from eccentric Alpinists sensational ascents and grisly accidents *Food and Travel Magazine*

Undressed Art Peter Steinhart, 2005-09-13 To draw is to understand what we see In *The Undressed Art* writer naturalist Peter Steinhart investigates the rituals struggles and joys of drawing Reflecting on what is known about the brain's role in the drawing process Steinhart explores the visual learning curve how children begin to draw how most of them stop and what brings adults back to this deeply human art form later in life He considers why the face and figure are such commanding subjects and describes the delicate collaboration of the artist and model Here is a powerful reminder that no revolution in art or technology can undermine our vital need to draw

Animal Sensibility and Inclusive Justice in the Age of Bernard Shaw Rod Preece, 2011-10-25 In search of insight into late

Victorian ideas about animals and the animal rights movement Rod Preece explores animal sensibility in the work of George Bernard Shaw Shaw's reformist thought particularly what Preece calls inclusive justice which aimed to eliminate the suffering of both humans and animals emerges in relation to that of fellow reformers such as Edward Carpenter Annie Besant and Henry Salt This fascinating account of the characters and crusades that shaped Shaw's philosophy sheds new light not only on modernist thought but also on the relationship between historical socialism and the ethical treatment of animals

The Victorian World Picture David Newsome,1997 David Newsome's monumental history The Victorian World Picture takes a good long look at the Victorian age and what distinguishes it so prominently in the history of both England and the world The Victorian World Picture presents a vivid canvas of the Victorians as they saw themselves and as the rest of the world saw them

Encyclopedia of Literature and Science Pamela Gossin,2002-08-30 Science and literature have always been strange bedfellows Like puzzle pieces they fit because they're different Some of the greatest works of world literature have been inspired by the marvels of the scientific world Scientists have written works of the imagination Even formal scientific writings have been known to employ rhetoric There is a tendency to think of literature and the humanities in general as having little to do with science Yet scholars have conducted fruitful studies of the history and philosophy of science With the rise of technology scholars have also applied scientific analysis to the study of literature and the creative process The intersection of scientific and humanistic inquiry is finally being mapped This volume includes more than 650 A-Z entries on topics and themes in science and literature significant writers key scientists seminal works and important theories and methodologies This reference defines the rapidly emerging interdisciplinary field of literature and science An introductory essay traces the history of the field its growing reputation and the current state of research Broad in scope the volume covers world literature from its beginnings to the present day and illuminates the role of science in literature and literary studies A wide range of experts contributed entries to this volume each of which concludes with a brief bibliography The entire volume closes with a list of works for further reading

Conflict and Crisis in the Religious Life of Late Victorian England Herbert Schlossberg,2017-09-08 Contrary to its popular image as dull and stodgy the Victorian period was one of revolutionary change In its politics its art its economic affairs its class relationships and in its religion change was constant A half century after Queen Victoria's death it was said that she was born in one world and died in another The most interesting and valuable studies of the period take the long view as does Schlossberg in his fascinating analysis of religious life in this period For the Victorians religion was not cordoned off from the push and shove of real life The early evangelicals got off to a shaky start beset by hostility but the movement spread within the churches despite the suspicion in which it was held Evangelicals frequently called Puritans by those who opposed them called for fundamental reforms in both the Church and the society a social ethic was part of their program of religious renewal Their moral sense explains the social activism of both Church of England Evangelicals and Dissenters including the half century crusade for the abolition of slavery

Schlossberg shows how religion in England dealt with such issues as science and the effect of German scholarship on religious thinking Church history cannot simply be explained by its response to external forces as much as by the internal responses to those challenges The nature of the religious enterprise itself its theologians clergy lay people like all people and all institutions all responded with alternatives Schlossberg helps us understand the Victorian period as well as the increasing secularity of English life today *The Conquest of Assyria* Mogens Trolle Larsen, 2014-06-03 The Conquest of Assyria tells what must surely be one of the most romantic tales of archaeological endeavour The great cities and ancient palaces of Mesopotamia had lain buried for over two millennia and were all but forgotten half remembered in the Hebrew Bible and Classical texts This volume records the dramatic finds the decipherment of the cuneiform system of writing and the rediscovery of a lost civilisation
