The Destruction Of Dresden

Melden E. Smith

The Destruction Of Dresden:

The Destruction of Dresden David John Cawdell Irving,1989 [The Destruction of Dresden/David Irving ; with a Foreword by Sir Robert Saundby](#) David John Cawdell Irving,1974 **Apocalypse 1945** David Irving,2016-06-30 The Destruction of Dresden **The Destruction of Dresden** David John Cawdell Irving,1966 [Firestorm](#) Paul Addison,Jeremy A. Crang,2006-08-24 Firestorm assembles a cast of distinguished scholars to review the origins conduct and consequences of the World War II U S and British raids on Dresden Here is a panoramic reassessment of the evidence and the issues including the question of whether the bombing of the city constitutes a war crime Firestorm cogently demonstrates the reasons why Dresden has come to symbolize the military and ethical questions involved in the waging of total war **The Destruction of Dresden/David Irving ; with an Introd. by Ira C. Eaker** David John Cawdell Irving,1964 [After the Dresden Bombing](#) A. Fuchs,2011-11-16 Anne Fuchs traces the aftermath of the Dresden bombing in the collective imagination from 1945 to today As a case study of an event that gained local national and global iconicity the book investigates the role of photography fine art architecture literature and film in dialogue with the changing German socio political landscape **German Historians and the Bombing of German Cities** Bas Benda-Beckmann,2025-10-01 Today strategic aerial bombardments of urban areas that harm civilians at times intentionally are becoming increasingly common in global conflicts This book reveals the history of these tactics as employed by nations that initiated aerial bombardments of civilians after World War I and during World War II As one of the major symbols of German suffering the Allied bombing left a strong imprint on German society Bas von Benda Beckmann explores how German historical accounts reflected debates on postwar identity and looks at whether the history of the air war forms a counternarrative against the idea of German collective guilt Provocative and unflinching this study offers a valuable contribution to German historiography **The Dresden Firebombing** Tony Joel,2014-01-20 The firebombing of Dresden marks the terrible apex of the European bombing war In just over two days in February 1945 over 1 300 heavy bombers from the RAF and the USAAF dropped nearly 4 000 tonnes of explosives on Dresden s civilian centre Since the end of World War II both the death toll and the motivation for the attack have become fierce historical battlegrounds as German feelings of victimhood complete with those of guilt and loss The Dresden bombing was used by East Germany as a propaganda tool and has been re appropriated by the neo Nazi far right Meanwhile the rebuilding of the Frauenkirche the city s sumptuous eighteenth century church destroyed in the raid became central to German identity while in London a statue of the Commander in Chief of RAF Bomber Command Sir Arthur Harris has attracted protests In this book Tony Joel focuses on the historical battle to re appropriate Dresden and on how World War II continues to shape British and German identity today [Apocalypse 1945](#) David John Cawdell Irving,1999 **Firestorm** Marshall De Bruhl,2006 De Bruhl re creates the drama and horror of the 1945 Dresden bombings and offers the most cogent clear eyed appraisal yet of the tactics weapons strategy and rationale for the

controversial attack **The Destruction of Dresden, Etc. [With Plates.].** David John Cawdell Irving, 1966 **A German Catastrophe?** Bas Von Benda-Beckmann, 2010 Academisch proefschrift ter verkrijging de graad van doctor aan de Universiteit van Amsterdam op gezag van de Rector Magnificus prof dr D C van den Boom ten overstaan van een door het college voor promoties ingestelde commissie in het openbaar te verdedigen in de Agnietenkapel op woensdag 20 oktober 2010 te 12 00 uur **Bodies and Ruins** David F. Crew, 2017-05-19 Bodies and Ruins explores changing German memories of World War II as it analyzes the construction of narratives in the postwar period including the depiction of the bombing of individual German cities The book offers a corrective notion rising in the late 1990s notion that discussions of the Allied bombing were long overdue because Germans who had endured the bombings had largely been condemned to silence after 1945 David Crew shows that far from being marginalized in postwar historical consciousness the bombing war was in fact a central strand of German memory and identity Local narratives of the bombing war including photographic books had already established themselves as important vectors of memory in the late 1940s and early 1950s The bombing war had allowed Germans to see themselves as victims at a time when the Allied liberation of the concentration camps and the Nuremberg trials presented Germans to the world as perpetrators or at least as accomplices The bombing war continued to serve this function even as Germans became more and more willing directly to confront the genocide of European Jews which by the 1960s was beginning to be referred to as the Holocaust Bodies and Ruins examines a range of local publications that carried photographic images of German cities destroyed in the air war images that soon entered the visual memory of World War II Despite its obvious importance historians have paid very little attention to the visual representation of the bombing war This book follows the search for what were considered to be the right stories and the right pictures of the bombing war in local publications and picture books from 1945 to the present and is intended for historians as well as general readers interested in World War II the Allied bombing of German cities the Holocaust the history of memory and photographic visual history The Bombing of Dresden Reconsidered Melden E. Smith, 1982 **Kurt Vonnegut's Slaughterhouse-five** Kurt Vonnegut, Jr., 2009 Presents a collection of critical essays about Kurt Vonnegut's Slaughterhouse five The Destruction of Dresden David John Cawdell Irving, 1964 *The Routledge Handbook of German Politics & Culture* Sarah Colvin, 2014-11-27 The Routledge Handbook of German Politics and Culture offers a wide ranging and authoritative account of Germany in the 21st century It gathers the expertise of internationally leading scholars of German culture politics and society to explore and explain historical pathways to contemporary Germany the current Berlin Republic society and diversity Germany and Europe Germany and the world This is an essential resource for students researchers and all those looking to understand contemporary German politics and culture *Victimhood Nationalism* Jie-Hyun Lim, 2025-04-01 Nationalism today depends on the perception of victimhood The historical memory of past suffering endows nationalist movements with political legitimacy and a sense of moral superiority Koreans recall Japanese colonial atrocities while Japan commemorates the atomic

bombings of Hiroshima and Nagasaki Israel sanctifies the Holocaust and Poland trumpets the Nazi and Soviet occupations Even Germany and Russia perpetrators of historical crimes today cast themselves as victims by pointing to national suffering In this theoretically sophisticated and empirically rich book Jie Hyun Lim offers a new way to understand nationalism and its political instrumentalization of suffering developing the concept of victimhood nationalism and exploring it in a range of global settings He examines relations among Poland Germany Israel Korea and Japan focusing on how memories of colonialism the Holocaust and Stalinist terror have converged and intertwined in transnational spaces With an emphasis on memory formation Lim scrutinizes how perpetrators in Germany and Japan transformed themselves into victims as well as how nationalists in Poland Korea and Israel portray themselves as hereditary victims in order to rebut external criticism He considers the construction of nations as victims and perpetrators tracing the interaction of history and memory Ultimately the book contends challenging victimhood nationalism is necessary to overcome the endless competition over national suffering and instead promote reconciliation mutual understanding and transnational solidarity

Victims and Perpetrators: 1933-1945 Laurel Cohen-Pfister, Dagmar Wienroeder-Skinner, 2012-03-12 This volume examines the politics of history and memory in Germany today through a review and analysis of seminal developments in the current discourse on 1933 1945 An interdisciplinary work this book examines questions of representing the past from the perspective of literary studies social psychology film studies history and cultural studies Themes include transgenerational memory and remembrance the air war and German literature commemoration and silences transnational reconciliation and historical consciousness in the German present The collected essays make clear that as the current discourse contributes toward an historically informed differentiated understanding of individuals roles in the Third Reich and World War Two victim and perpetrator identities cannot be defined as exclusive from one another The discourse emphasizes personal over collective experience and answers questions of responsibility and guilt on the individual level
