The Destruction Of Knossos The Rise And Fall Of Minoan Crete:

The Destruction of Knossos H. E. L. Mellersh, 1970 A Research Guide to the Ancient World John M. Weeks, Jason de Medeiros, 2014-11-25 The archaeological study of the ancient world has become increasingly popular in recent years A Research Guide to the Ancient World Print and Electronic Sources is a partially annotated bibliography The study of the ancient world is usually although not exclusively considered a branch of the humanities including archaeology art history languages literature philosophy and related cultural disciplines which consider the ancient cultures of the Mediterranean world and adjacent Egypt and southwestern Asia Chronologically the ancient world would extend from the beginning of the Bronze Age of ancient Greece ca 1000 BCE to the fall of the Western Roman Empire ca 500 CE This book will close the traditional subject gap between the humanities Classical World Egyptology and the social sciences anthropological archaeology Near East in the study of the ancient world This book is uniquely the only bibliographic resource available for such holistic coverage The volume consists of 17 chapters and seven appendixes arranged according to the traditional types of library research materials bibliographies dictionaries atlases etc The appendixes are mostly subject specific including graduate programs in ancient studies reports from significant archaeological sites numismatics and paleography and writing systems These extensive author and subject indexes help facilitate ease of use *Ride of the Second Horseman* Robert L. O'Connell, 1997-10-23 In *Ride of the Second Horseman* Robert L O Connell probes the distant human past to show how and why war arose concluding that it is an invention an institution that formed due to very specific historical circumstances an institution that now verges on extinction He begins with a definition that distinguishes between war and mere feuding and draws on anthropology and archeology to locate the rise of war sometime after the human transition from nomadic hunting and gathering to agriculture when society split between farmers and pastoralists O Connell explores the histories of the civilizations of ancient Sumeria Egypt Assyria China and the New World showing how war came to each and how it adapted to varying circumstances Studying societies based on trade he finds that they employed war much more selectively and pragmatically Thus Minoan Crete long protected from marauding pastoralists developed a wealthy mercantile society marked by unmilitaristic attitudes equality between men and women and a relative absence of class distinctions In Assyria by contrast war came to be an end in itself in a culture dominated by male warriors Despite the violence in the world today O Connell finds reason for hope The industrial revolution broke the old patterns of subsistence war no longer serves the demographic purpose it once did Fascinating and provocative *Ride of the Second Horseman* offers a far reaching tour of human history that suggests the age old cycle of war may now be near its end **The Blood-Drenched Sea** Alfred S. Bradford, 2019-08-15 This book is an indispensable resource for readers who want to know the whole comprehensive story of ancient naval warfare The Blood Drenched Sea describes all the naval battles and wars fought in the ancient Mediterranean In one volume are the ships crews and leaders who determined the course of ancient history along with the wars and battles

told through artifacts extant literary and visual sources and modern reconstructions the Egyptian mortuary temple the Minoan domain the legendary sack of Troy the expansion of Greeks throughout the Mediterranean the Athenian victory over the Persians at Salamis and the Athenian empire ruined by one moment of superstition Then the Romans learned how to build ships man them row in tiers and command fleets and the volume recounts their contributions to history as well They fought three wars with Carthage that cost them hundreds of thousands of casualties and expenditures of vast wealth and they conquered the whole of the Mediterranean Meanwhile Julius Caesar expanded the empire with the conquest of Gaul and the invasion of Britain and his adoptive son Octavian settled the question of who would rule the new empire by winning the naval battle at Actium

Imagining Atlantis Richard Ellis, 2012-01-11 Ever since Plato created the legend of the lost island of Atlantis it has maintained a uniquely strong grip on the human imagination For two and a half millennia the story of the city and its catastrophic downfall has inspired people from Francis Bacon to Jules Verne to Jacques Cousteau to speculate on the island's origins nature and location and sometimes even to search for its physical remains It has endured as a part of the mythology of many different cultures yet there is no indisputable evidence let alone proof that Atlantis ever existed What then accounts for its seemingly inexhaustible appeal Richard Ellis plunges into this rich topic investigating the roots of the legend and following its various manifestations into the present He begins with the story's origins Did it arise from a common prehistorical myth Was it a historical remnant of a lost city of pre Columbians or ancient Egyptians Was Atlantis an extraterrestrial colony Ellis sifts through the scientific

evidence marshaled to prove these theories and describes the mystical and spiritual significance that has accrued to them over the centuries He goes on to explore the possibility that the fable of Atlantis was inspired by a conflation of the high culture of Minoan Crete with the destruction wrought on the Aegean world by the cataclysmic eruption around 1500 b c of the volcanic island of Thera or Santorini A fascinating historical and archaeological detective story Imagining Atlantis is a valuable addition to the literature on this essential aspect of our mythohistory *World Military History Bibliography* Barton Hacker,2003-06-01 Preclassical and indigenous nonwestern military institutions and methods of warfare are the chief subjects of this annotated bibliography of work published 1967 1997 Classical antiquity post Roman Europe and the westernized armed forces of the 20th century although covered receive less systematic attention Emphasis is on historical studies of military organization and the relationships between military and other social institutions rather than wars and battles Especially rich in references to the periodical literature the bibliography is divided into eight parts 1 general and comparative topics 2 the ancient world 3 Eurasia since antiquity 4 sub Saharan Africa and Oceania 5 pre Columbian America 6 postcontact America 7 the contemporary nonwestern world and 8 philosophical social scientific natural scientific and other works not primarily historical **The Rise and Decline of Ancient Civilizations** Eka Avaliani,2025-07-02 This book concerns the formation of ancient civilizations in the Near East and the central Mediterranean world It examines five civilization models Model of Egyptian Civilization Model of Mesopotamian Civilization Model of Anatolian Civilization Model of Central Mediterranean Aegean Civilization Model of Eastern Mediterranean Culture Phoenicia Syria Palestine and the dynamics of their development Its theoretical part discusses the structure and analysis of civilizations stages of development of civilization the specifics of artistic thinking and touches on topics such as the phenomenon of cultural transformation in space and time The book is intended for readers who are interested in the development of ancient civilizations and the specifics of their artistic thinking In the process of systematizing and classifying these cultures civilizations we specifically highlight three parameters a geographical regional b ethnic and c the individual spiritual phenomenon of the culture In the course of our research it became evident that each model encompassed a specific historical geographical space and at various stages of development was tied to certain historical chronological periods **Classical Mythology** Mark P.
