A Companion to the History of Crime and Criminal Justice Jo Turner, Paul Taylor, Sharon Morley, Karen Corteen, 2017-06-21 This companion addresses the history of crime and punishment through entries by expert contributors that select and define the central vocabulary and terminology for the study of the history of crime and punishment Organized alphabetically with useful cross references and bibliographies it goes beyond mere definitions to offer rigorous critical analysis of the terms and their use within the field both now and in the past It will be essential to students researchers and teachers in the field *The Oxford Handbook of the History of Crime and Criminal Justice* Paul Knepper, Anja Johansen, 2016-04-15 The historical study of crime has expanded in criminology during the past few decades forming an active niche area in social history Indeed the history of crime is more relevant than ever as scholars seek to address contemporary issues in criminology and criminal justice Thus The Oxford Handbook of the History of Crime and Criminal Justice provides a systematic and comprehensive examination of recent developments across both fields Chapters examine existing research explain on going debates and controversies and point to new areas of interest covering topics such as criminal law and courts police and policing and the rise of criminology as a field This Handbook also analyzes some of the most pressing criminological issues of our time including drug trafficking terrorism and the intersections of gender race and class in the context of crime and punishment The definitive volume on the history of crime The Oxford Handbook of the History of Crime and Criminal Justice is an invaluable resource for students and scholars of criminology criminal justice and legal history The History and Romance of Crime Arthur Griffith, 2017-03-01 It is as true of crime in the Orient as of other habits customs and beliefs of the East that what has descended from generation to generation and become not only a

tradition but an established fact is accepted as such by the people who display only a passive indifference to deeds of cruelty and violence Each country has its own peculiar classes of hereditary criminals and the influence of tradition and long established custom has made the eradication of such crimes a difficult matter Religion in the East has had a most notable influence on crime In India the Thugs or professional stranglers were most devout and their criminal acts were preceded by religious rites and ceremonies In China the peculiar forms of animism pervading the religion of the people has greatly influenced criminal practices Murder veiled in obscurity is frequently attributed to some one of the legion of evil spirits who are supposed to be omnipresent and to satisfy and appease these demons innocent persons are made to suffer So great too is the power of the spirit after death to cause good or ill that many stories are related of victims of vi injustice who have hanged themselves on their persecutors door posts thus converting their spirits into wrathful ghosts to avenge them The firm belief in ghosts and their power of vengeance and reward is a great restraint in the practice of infanticide as the souls of murdered infants may seek vengeance and bring about serious calamity
