Inborn Errors of Metabolism in Man O. Sperling, A. de

Vries, 1978-09-05 *Auto-immunity in the Endocrine System* R. Volpe, 2012-12-06 The present monograph will concern itself

with those disorders of the endocrine system either associated with destruction interference with function or hyper function

which are considered to be due to auto immune processes Endocrinopathies Non endocrine auto immune disorders

associated with the endocrinopathies Graves Basedow s Parry s disease Pernicious anaemia Hashimoto s thyroiditis Vitiligo

Idiopathic Addison s disease Myaesthesia gravis Insulinopenic diabetes mellitus Sjogren s syndrome Auto immune oophoritis

and orchitis Rheumatoid arthritis Auto immune hypoparathyroidism Idiopathic thrombocytopenic purpura Auto immune

hypophysitis Chronic active hepatitis Possibly some cases of infertility Primary biliary cirrhosis due to anti sperm antibodies

Reproduced with permission from Volpe 1977 The above table indicates those organ specific endocrinopathies considered to

be due to auto immune factors as well as those non endocrine organ specific auto immune disorders which may be associated

with them Volpe 1977 It is evident that such disorders occurring without any obvious external cause raise the very

elementary question of how immune processes directed against self constituents could be initiated Generally of course the

immune system acts as a regulatory and defence mechanism and disorders of auto immunity represent breakdowns in this

regulatory system The following chapters will be concerned with the individual components of the endocrine system so

affected by auto immune processes it will first be necessary to provide an initial chapter for the purpose of summarizing

some general principles of immunology in order to place the immune disorders of the endocrine system in context *HLA*
