A Textbook for Advanced University Students of Linguistics and Translation Ali Alhaj, 2015-02-09 Translation is as old as the art of writing or as old as history of education in general It is occasioned by the social needs of people Whenever for instance two linguistic groups interact as neighbors to each other translation from and to each other's languages becomes inevitable if they must meaningfully communicate with each other in matters of commerce intermarriage education legal issues etc Religious books like those that the Holy Qur'an and the Bible have been facilitating essentially translated to numerous languages in different parts of the world Translation is also regarded as a significant key that connects the literary works of authors from diverse culture It also plays a pivotal role in minimizing the cultural divergences Translation has been widely practiced over the centuries in the world in general and in Arab world in particular The founding mythology and the sacred texts of the dominant religions are all based on translations In short translation has been essential for development and change in literature commerce technology politics so on and so forth The Routledge Companion to the Qur'an George Archer, Maria M. A.Y. Aly,2023-09-25 It is a well established fact nowadays that modernity impacts Islam but there has not been much focus on how modernity impacts the Qur'an the foundational text of Islam and the verbatim word of God This book argues that the early Muslim Qur'an translations into English are attempts to reconcile the Qur'an with modernity by producing translations that encompass modern concepts and interpretations of the Qur'an Are these modern concepts and interpretations valid or they alter the word of God This is the main question that the book attempts to answer particularly that these early translations have affected and still affect Qur'an translation

Retranslating the Bible and the Qur'an Pieter Boulogne, Marijke H. de Lang, Joseph Verheyden, Despite the lively scholarly discourse on retranslation and its manifest value for uncovering dynamics of cultural change interpretation and reception the retranslation of religious texts has received only fragmented attention in recent years By spanning both historical and current aspects and by treating the Bible and the Qur'an together this book breaks new ground and paves the way for future research on the myriad discursive and religious aspects of retranslation This carefully curated collection of articles compellingly argues that the retranslation of canonical religious texts is a multi faceted phenomenon With cases ranging in time from the early Reformation to the present and traversing linguistic contexts from Russia to Sweden Slovenia to Saudi Arabia the essays capture diverse dimensions of retranslation work The collection demonstrates that retranslations of such texts manifest in different forms depending on the religious political and societal circumstances the targeted audiences and the status of existing translations Their reception too may vary greatly depending on those same circumstances Authored by specialists in the different fields of retranslation of the Bible and the Qur'an each contribution illustrates this complexity and offers a fresh perspective and insight that help lay the groundwork for future research in this area of study

Al-Fatihah Dr. Shihab M. A. Ghanem Al Hashmi,2016-05-23 Al Fatihah is the first and opening chapter in the Holy Quran and in many ways it represents the essence of this holy book itself In this opening sura of the Quran used in every mandatory and voluntary prayer in Islam the one and only God Allah summarizes in these seven oft repeated verses the purpose and mission for humankind Al Fatihah The Opening of the Quran explores the foundational and critical questions addressed in the first sura of the Quran and it provides a way for both Muslims and non Muslims who are neither native in Arabic nor competent in reading and understanding Arabic to access this absolutely purposeful set of Quranic verses Because the Quran cannot properly be translated the authors have for many years diligently researched scholarly interpretations from both classical and contemporary mainstream scholars so that the concepts of Al Fatihah can be easily discovered The concepts of Al Fatihah are ultimately simple uncomplicated and straightforward yet in these seven verses containing only twenty nine Arabic words anyone interested in opening their hearts and minds to this spiritual journey can find in these words the depth of Allah's mercy and love
