The Humanist Scholastic Debate In The Renaissance And Reformation:

The Humanist-scholastic Debate in the Renaissance & Reformation Erika Rummel, 1995 Erika Rummel delves into the extensive primary sources of the times bringing the issues and their continuing legacy to light and making a valuable contribution to our understanding of the intellectual climate of early modern Europe [The Humanist-Scholastic Debate in the Renaissance and the Reformation](#) Erika Rummel, 2013-10-01 In the last half of the fifteenth century the classic Platonic debate over the respective merits of rhetoric and philosophy was replayed in the debate between humanists and scholastics over philology and dialectic The intense dispute between representatives of the two camps fueled many of the most important intellectual developments of the Renaissance and Reformation Erika Rummel delves into the extensive primary sources of the times bringing the issues and their continuing legacy to light and making a valuable contribution to our understanding of the intellectual climate of early modern Europe Rummel demonstrates how the passionately fought issue of the period changed focus as humanists such as Lorenzo Valla and Desiderius Erasmus applied philological skills to Scripture The controversy over form versus content entered a new phase pitting humanists trained as philologists against scholastic theologians trained as dialecticians Rummel shows us the framework for the debate still intact as the medium message dichotomy and traces its development into quarrels over qualification and entitlement in the academy as theologians and humanists disputed the intellectual and territorial boundaries of their respective disciplines Finally in the first half of the sixteenth century we see the controversy entering the sphere of doctrinal dispute The question of authority became centered not only on professional competence but also on the more explosive issues of faith and Christian teaching This in depth study will reclaim the attention of those who believe these debates were merely personal and episodic Rummel s innovative research provides ample evidence that the polemics of the age arose from a fundamental conflict over methodology and the freedom to pursue research

Humanism and Renaissance Civilization Charles G. Nauert, 2023-04-21 The essays collected in this volume represent many years of Professor Nauert s research and teaching on the history of Renaissance humanism and more particularly on humanism north of the Alps Much of the early work involved the significant but often overlooked history of humanism at the University of Cologne notoriously the most anti humanist of the German universities Later essays deal with the most famous humanist of the early sixteenth century Erasmus of Rotterdam and natural philosophy a broad term covering many subjects now associated with natural science is the topic of three of the pieces published here Taken as a whole the book presents a detailed study of intellectual development among European elites

Humanism and the Reform of Sacred Music in Early Modern England Hyun-Ah Kim, 2016-05-13 John Merbecke c 1505 c 1585 is most famous as the composer of the first musical setting of the English liturgy *The Booke of Common Praier* Noted BCPN published in 1550 Not only was Merbecke a pioneer in setting English prose to music but also the compiler of the first Concordance of the whole English Bible 1550 and of the first English encyclopaedia of biblical and theological studies *A Booke of Notes and Common*

Places 1581 By situating Merbecke and his work within a broader intellectual and religio cultural context of Tudor England this book challenges the existing studies of Merbecke based on the narrow theological approach to the Reformation Furthermore it suggests a re thinking of the prevailing interpretative framework of Reformation musical history On the basis of the new contextual study of Merbecke this book seeks to re interpret his work particularly BCPN in the light of humanist rhetoric It sees Merbecke as embodying the ideal of the Christian musical orator demonstrating that BCPN is an Anglican epitome of the Erasmian synthesis of eloquence theology and music The book thus depicts Merbecke as a humanist reformer through re evaluation of his contributions to the developments of vernacular music and literature in early modern England As such it will be of interest not only to church musicians but also to historians of the Reformation and students of wider Tudor culture

Philip Melanchthon and the Cappadocians H. Ashley Hall, 2014-03-12 This work offers a comprehensive examination of how Philip Melanchthon 1497 1560 a great philologist pedagogue and theologian of the Reformation used Greek patristic sources throughout his extensive career The Cappadocian Fathers here identified as Gregory Thaumaturgus Basil of Caesarea Gregory Nazianzen and Gregory of Nyssa were received through the medieval period to be exemplary theologians In the hands of Melanchthon they become tools to articulate the Evangelical Lutheran theological position on justification by grace through faith alone the necessity of formal education for theologians in literature and the natural sciences the freedom of the will under divine grace exemplars for bishops and even princes and not least as models of Attic Greek grammar and biblical exegesis for university students The book is organized around Melanchthon s use of Cappadocian works against his opponents Roman Catholic the Radical Reformers the Reformed and in Intra Lutheran controversies The author places Melanchthon within the context of the patristic reception of his time Moreover an appendix offers a sketch of the Cappadocian canon of the sixteenth century with notation of the particular sources for Melanchthon s knowledge and the references to these works in modern scholarly sources While often accused by his critics past and present of being arbitrary in his selection of patristic authorities too free with his quotations and too anxious for theological harmony this work shows Melanchthon at work to reveal the consistent manner and Evangelical Lutheran method by which he used patristic material to proclaim Christ and his benefits throughout his multifaceted career
