The Knight-Monks of Vichy France Uriage, 1940-45

John Hellman

SECOND EDITION

The Knight Monks Of Vichy France Uriage 1940 45

Robert J. Young

The Knight Monks Of Vichy France Uriage 1940 45:

Knight-Monks of Vichy France John Hellman, 1993 Following the defeat of France in 1940 the cole Nationale des Cadres was set up at the Ch teau d Uriage in the Alps above Grenoble to train an elite drawn from the young intelligentsia as part of a larger effort to transform the nation Some of the mo Knight-Monks of Vichy France John Hellman, 1993-03-09 In The Knight Monks of Vichy France John Hellman describes the founding operation transformation and demise of the school details the institution s ideological and political struggles with other segments of French society and deals with the remarkable rise of Uriage ideas and alumni in postwar France By focusing on the social philosophical and psychological concepts propounded by the staff of the school Hellman has produced the first study that shows the cole Nationale des Cadres d Uriage to have been an original educational and group experience which inspired French youth from very different backgrounds to abandon the liberal democratic tradition for a new political and social vision Drawing on a variety of sources including interviews newly available archival material Vichy publications correspondence and diary entries Hellman contributes to the current lively debate concerning the phenomenon of collaboration and the response of the French population to fascism and to the occupation during the Second World War This book will be of particular interest to readers concerned with the intellectual and political life of modern France modern religious thought and experience fascism and the Vichy regime changes in France in the prewar and postwar periods and the third way political option in contemporary Fathers, Families, and the State in France, 1914-1945 Kristen Stromberg Childers, 2018-07-05 The state s Europe policy with regard to fathers and fatherhood had a great impact on concepts of citizenship and gender in France in the era of the two World Wars Drawing on new material that has only recently become available from the archives of the Vichy regime Kristen Stromberg Childers analyzes the ways fathers were promoted as saviors of the nation after France's humiliating defeat by the Germans in June 1940 Childers argues that concern for the family and for the status of fathers in modern France was not merely a response to falling birthrates and German aggression but was fundamental to the very notion of citizenship and political participation The debate on men as gendered beings Childers demonstrates is central to the political social and cultural history of France in the modern age The father figure became a focus as participants from all classes and across the political spectrum debated what was wrong with the French family and what policies were needed to remedy the problem Childers examines how these policies were implemented what they reveal about the development of the welfare state in France and how they help explain the importance of Vichy in twentieth century French history Twenty eight illustrations including fifteen photographs many never previously published complement her argument **National Regeneration in Vichy France** Debbie Lackerstein, 2016-04-22 The creators of the Vichy regime did not intend merely to shield France from the worst effects of military defeat and occupation rather the leaders of Vichy were inspired by a will to regenerate France to establish an authoritarian new order that would repair the degenerative effects of parliamentary

democracy and liberal society Their plan to effect this change took the form of a far reaching programme they called the National Revolution This is the first study of the National Revolution as the expression of Vichy's ideology and aims It reveals the variety and complexity of both right wing and other strands of French thought in the context of the turbulent years of the 1930s when Vichy's history really begins and under the Occupation when internal rivalries and divisions as well as the pressures of war doomed Vichy's programme of national regeneration. The book is structured around a consideration of the rhetoric of right wing ideology and such key catchwords as decadence action order realism and new man and shows how these phrases only served to mask the political and ideological incoherence of the Vichy government Karine Varley, 2023-06-01 Vichy's Double Bind advances a significant new interpretation of French collaboration during the Second World War Arguing that the path to collaboration involved not merely Nazi Germany but Fascist Italy it suggests that the Vichy French government was caught in a double bind On the one hand many of the threats to France's territory colonial empire and power came from Rome as well as Berlin On the other Vichy was caught between the irreconcilable yet inescapable positions of the two Axis governments Unable to resolve the conflict Vichy sought to play the two Axis powers against each other By exploring French dealings with Italy at diplomatic military and local levels in France and its colonial empire this book reveals the multi dimensional and multi directional nature of Vichy's policy It therefore challenges many enduring conceptions of collaboration with reference to Franco German relations and offers a fresh perspective on debates about Vichy France and collaboration with Nazi Germany and Fascist Italy The "New Man" in Radical Right Ideology and Practice, 1919-45 Jorge Dagnino, Matthew Feldman, Paul Stocker, 2018-01-25 Bringing together an expert group of established and emerging scholars this book analyses the pervasive myth of the new man in various fascist movements and far right regimes between 1919 and 1945 Through a series of ground breaking case studies focusing on countries in Europe but with additional chapters on Argentina Brazil and Japan The New Man in Radical Right Ideology and Practice 1919 45 argues that what many national forms of far right politics understood at the time as a so called anthropological revolution is essential to understanding this ideology s bio political often revolutionary dynamics It explores how these movements promoted the creation of a new ideal human what this ideal looked like and what this things tell us about fascism s emergence in the 20th century The years after World War One saw the rise of regimes and movements professing totalitarian aims In the case of revolutionary radical right movements these totalising goals extended to changing the very nature of humanity through modern science propaganda and conquest At its most extreme one of the key aims of fascism the most extreme manifestation of radical right politics between the wars was to create a new man Naturally this manifested itself in different ways in varying national contexts and this volume explores these manifestations in order to better comprehend early 20th century fascism both within national boundaries and in a broader transnational context Pomp. **Circumstance, and Unsolicited Advice** George Weigel, 2025-03-27 The Catholic Church invented what we know as the

university including the cultural tradition of free and open debate on disputed questions Catholic colleges and universities thus stand poised to help reform institutions of higher learning at a moment of crisis in academic life throughout the western world In his commencement addresses to colleges and universities large and small George Weigel challenges graduates to understand an academic degree as a summons to become the trustee of a great tradition In his lectures to university audiences Weigel addresses a host of issues in the contemporary Church and its interaction with the world with depth and insight Written in the vivid often bracing style characteristic of one of contemporary Catholicism's leading intellectuals these addresses and lectures exemplify what Pope St John Paul II called the Catholic diakonia of the truth **Fascist Followers** Richard Wilson, 2025-08-21 Richard Wilson's meticulously researched powerfully argued and brilliantly written account of Shakespeare's 20th century fascist followers is not just an important but a genuinely essential book Robert Shaughnessy Guildford School of Acting UK In this illuminating book Richard Wilson demonstrates how in the 20th century Shakespeare s plays and poems were persistently misread as documents which voiced the fascist sympathies of their author Wilson argues that the version of Shakespeare this caricature produced authoritarian jingoistic racially intolerant misogynistic was viewed with satisfaction by many of the leading figures of the century s cultural establishment in Britain and America while noting striking cases of the same bias in Germany and France Some of the names this book focuses on will surprise many of the right wing political views or leanings of the prominent figures discussed have been left unexplored or ignored from A K Chesterton who was both editor of the British Union of Fascists newspaper Blackshirt and former manager of press and publicity at the Shakespeare Memorial Theatre to celebrated Shakespeareans such as G Wilson Knight and writers artists and theatre practitioners including W B Yeats T S Eliot Edward Gordon Craig and Marshall McLuhan At a time when democracy is under threat populism is on the rise and far right views are increasingly prominent in our political discourse Richard Wilson's book makes an especially vital contribution to Shakespeare scholarship Catholic Politics in Europe, 1918-1945 Martin Conway, 2008-02-20 The history of Catholic political movements has long been a missing dimension of the history of Europe during the twentieth century Martin Conway explores the fascinating history of Catholic political movements in Europe between 1918 and 1945 demonstrating the crucial role which Catholics played in the rise of fascism in Italy and Germany the events of the Spanish Civil War and of the Second World War Drawing on the findings of recent research Conway shows how Catholic political movements formed a vital element of the political life of Europe during the inter war years In countries as diverse as France Germany Italy Spain and Austria as well as further east in Poland Slovakia Croatia and Lithuania Catholic political parties flourished Inspired by the values of Catholicism these movements fought for their own political ideals hostile to both liberal democracy and totalitarian fascism Catholics were a third force in European politics During the Second World War Catholic political movements continued to pursue their own goals some chose to fight alongside the German armies other groups joined Resistance movements to fight against German oppression

and for a new social and political order based on Catholic principles Catholic Politics in Europe will provide an original key point of reference for twentieth century history for comparison with fascist and communist movements of the period and will give insight into the present day character of Catholicism

Pluralism and the Idea of the Republic in France Julian
Wright,2012-06-12 The idea of the centralized State has played a powerful role in shaping French republicanism But for two hundred years many have tried to find other ways of being French and Republican These essays challenge the traditional account bringing together new insights from leading scholars

Imagining Fascism Paul Mazgaj,2007 The role and influence of intellectuals is one of the flashpoints in the recurring debate on the nature and dimensions of French fascism At the forefront of this debate are a group of emerging writers collectively known as the Young Right Though thoroughly schooled in the reactionary nationalism of Charles Maurras Action francaise whose orbit they entered in the early 1930s they were soon seduced by the mobilizing force of neighboring fascist movements and regimes Led by two precocious literary talents Robert Brasillach and Thierry Maulnier the Young Right set themselves to rejuvenating French nationalism and winning a place for France in an emerging new Europe Their project an attempt to graft lessons from foreign sources onto a native language of French generational and cultural politics was one of several efforts to create a distinctive French fascism

Catholicism and Fascism in Europe 1918 - 1945 Jan Nelis, Anne Morelli, Danny Praet, 2015-05-01 Die im vorliegenden Band versammelten Aufs tze analysieren die vielf ltige Art und Weise wie der Vatikan die nationalen Kirchen und einzelne Katholiken mit dem Aufstieg der extremen Rechten in Europa w hrend der 1920er 1930er und fr hen 1940er Jahre umgingen vom Ende des Ersten Weltkriegs der mit Recht als einer der wichtigsten Katalysatoren des europ ischen Faschismus in der Zwischenkriegszeit gilt bis zum Schluss und zu den unmittelbaren Nachwirkungen des Zweiten Weltkriegs W hrend einige Aufs tze sich auf theoretische methodologische Probleme konzentrieren besch ftigen sich die meisten Beitr ge mit jeweils einem Land oder einer Region wo eine faschistische Bewegung oder ein solches Regime zwischen den Kriegen und whrend des Zweiten Weltkriegs erfolgreich war und wo es gleichzeitig eine signifikante katholische Pr senz in der Gesellschaft gab Fast ganz Europa wird behandelt ein beispielloses Unternehmen und eine gro e Zahl wichtiger Kontexte und Methoden wird untersucht So wirken die Beitr ge mit an der allgemeinen Entwicklung eines interpretativen Cluster Modells das eine Reihe von Grundmustern der Forschung vereinigt und zuk nftige Untersuchungen anregen wird The papers presented in this volume analyse the many ways in which the Vatican national Churches and individual catholics dealt with the rise of the extreme right in Europe throughout the 1920s 1930s and early 1940s from the end of the First World War arguably one of the main catalysts of European interwar fascism to the conclusion and immediate aftermath of the Second World War While a number of papers focus primarily on theoretical methodological issues pertaining to the book s general theme the majority of papers focus on either a country or region where a fascist movement or regime flourished between the wars and during the Second World War and where there was a significant catholic presence in society The various chapters cover almost the

entire European continent an endeavour that is unprecedented and they explore a wide range of relevant contexts and methodologies thus further contributing to the general development of an interpretive cluster model that incorporates a series of investigative matrixes and that will hopefully inspire future research Fascists and Honourable Men N.

Amzalak,2011-07-12 Was France fascist in the interwar period This comprehensive historical political and sociological account follows the rise of engineers and political non conformists in the first half of the twentieth century examining the French technocracy's relationship with the rise of fascism in France and later the establishment of the Fourth Republic

France During World War II Thomas Rodney Christofferson, Michael Scott Christofferson, 2006 This title provides an introduction to almost every aspect of the French experience during World War II by integrating political diplomatic military social cultural and economic history It chronicles the battles and campaigns that stained French soil with blood

Canadian Books in Print. Author and Title Index ,1975 Catholicism, Politics and Society in Twentieth-century France Kay Chadwick,2000-01-01 Catholicism once the protean monster still functions as a complex component of French identity No consideration of modern France would be complete without reference to the enduring impact and influence of Catholicism on the life of the nation This volume sets out to capture some of the variety and significance of the Catholic phenomenon in twentieth century secular France and to express something of its extraordinary vitality and interest Each contribution focuses on a specific theme or period crucial to an understanding of the role played by French Catholics and their Church Collectively these studies reveal that Catholics were involved in almost every event of consequence and voiced an opinion on almost every issue Equally the volume offers a collage of insights which reflects the fragmentation of Catholic activity and attitudes as the century progressed Being Catholic in modern France no longer means the espousal of a particular political or social agenda Nor does it necessarily mean regular and traditional religious observance or even strict adherence to the dictates of the Church Modern French Catholicism truly has many mansions

The Cultural and Intellectual Rebuilding of France After the Second World War M. Kelly,2004-09-23 This book reveals how France reinvented itself in the aftermath of World War Two After foreign military interventions the French political and intellectual elites embraced regime change and launched an urgent programme of nation building They rebuilt French national identity with whatever material was available and created a vibrant new cultural and intellectual life The cost to subordinated groups however especially women still casts a long shadow over French values and attitudes In this perhaps there are lessons and implications for other countries struggling to rebuild themselves after conflict France and the Origins of the Second World War Robert J. Young,1996-09-18 France's drift into war and subsequent collapse have often been attributed to her level of confidence Either she had too much or too little This work contends that these two moods were not mutually exclusive that they coexisted throughout the interwar years sustained by competing visions of the Republic and of the best way to ensure national security Early chapters describe the tensions within French interwar foreign policy as

well as the ensuing historiographical tensions among scholars intent on interpreting the French experience Subsequent chapters explore tensions in defence and economic policies domestic politics and ideological allegiance public attitudes and opinion France and the Construction of Europe, 1944-2007 Michael Sutton,2011-03 This comprehensive history shows how France coupled the pursuit of power and the furtherance of European integration over a 60 year period from the close of the Second World War to the hesitation caused by the French electorate s referendum rejection of the European Union s constitutional treaty in 2005 Views from the Margins Kevin J. Callahan,Sarah Ann Curtis,2008-01-01 These essays explain French identity as a fluid process rather than a category into which French citizens and immigrants are expected to fit They offer examples drawn from an imperial history of France that show the power of the periphery to shape diverse and dynamic modern French identities at its centre

Recognizing the mannerism ways to acquire this ebook **The Knight Monks Of Vichy France Uriage 1940 45** is additionally useful.
