and Anglo American philosophical discourse It is of great relevance for a new generation of students scholars of Indian philosophy politics religious studies and those interested in knowing the thought and practice of the twentieth century Indian thinker and yogi Sri Aurobindo     Meditation: The Art of Ecstasy Osho,2023-02-28 Concentration is a choice It excludes all except its object of concentration it is a narrowing If you are walking on the street you will have to narrow your consciousness in order to walk You cannot ordinarily be aware of all that is happening because if you are aware of everything that is happening you will become unfocused So concentration is a need Concentration of the mind is a need in order to live to survive and exist That is why every culture in its own way tries to narrow the mind of the child     *The Basis of Faith. A Critical Survey of the Grounds of Christian Theism. The Congregational Union Lecture for 1877* Eustace R. Conder,2024-08-01 Reprint of the original first published in 1877     **The Religion of Philosophy** Raymond St. James Perrin,1885 It is well known that religion as well as philosophy depends upon language for the expression of its truths This seems a simple proposition but what are its consequences If language is the sole medium of development of the higher thoughts and feelings in its genesis may we not hope to discover the deepest truths of life and mind Before the complex symbols which we call words came into use and hence before the mind acquired the faculty of forming thoughts or extended comparisons activities or motions were the only medium of expression between sentient beings Language is the development of these expressive actions and so highly complex has it become so far removed from its rude beginnings that it seems another order of creation a system of miraculous origin But when we remember that intelligence is a concomitant development with language that thought or spirit is but a building up of words into ideas and that these words are merely condensed memories common experiences which have become current from tongue to tongue is it not evident that there is no impenetrable mystery in speech and that its product mind is a synthesis of simple and familiar truths Again when we retrace sensibility or feeling from which language has been gradually evolved to its beginnings in organic life we find no absolute demarcations we find that all life whether mental or physical is interdependent Introduction     **Reconfigurations of Philosophy of Religion** Jim Kanaris,2018-04-01 Explores the place and meaning of philosophy of religion in our current poststructuralist postsecular postcolonialist context This collection addresses as it exemplifies an identity crisis in contemporary philosophy of religion It represents a unique two way dialogue between philosophers of religion and scholars of religion and broaches issues pertaining to the philosophy of religion and the philosophical tradition on the one hand and religious studies theology and the modern academy on the other While each author manages the current challenges in philosophy of religion differently one can nonetheless discern a polyphony of interests surrounding a postcritical postsecular appreciation of religion In part 1 contributors ask how philosophy of religion can accommodate both the strengths and weaknesses of Western analytic and continental traditions incorporate developments in ideology critique gender studies and Asian philosophies and negotiate the perceived stalemate in philosophy of religion Part 2 addresses these questions in terms

of a philosophy of religion that is postcolonial in intention and multidisciplinary in orientation and features scholarship from the fields of both religion and theology An underlying theme is the importance of ushering philosophy of religion into a postphenomenological era of religious studies and theology This is a neglected dimension in many laudable discussions about philosophy of religion that this volume hopes to emend This gathering of important voices and the differences of approach and opinion that they represent invites provokes reflection self examination by philosophers of religion and further work Jeffrey Dudiak author of *The Intrigue of Ethics A Reading of the Idea of Discourse in the Thought of Emmanuel Levinas*

**An Introduction to the Philosophy of Religion** John Caird, 1910 **A God of Many Understandings** Todd Miles, 2010-10-01 Western Christianity's interaction with world religions used to be for the most part overseas Today religious others often live next door At a changing time when one public prayer spoken during the 2009 U S presidential inauguration festivities was addressed to O god of our many understandings the evangelical Christian church should do more than simply dismiss non Christian religions as pagan without argument or comment The Church needs a theology of religions that is Christ honoring biblically faithful intellectually satisfying compassionate and that will encourage Spirit powered mission Oregon based theology professor Todd L Miles writes to that end in *A God of Many*

Understandings attempting as the scholar Veli Matti Kerkkainen puts it to think theologically about what it means for Christians to live with people of other faiths and about the relationship of Christianity to other religions **A New Religion** Tim Schumacher, 2013-04 This book contains information that can help you make decisions about what and who to believe or not believe and why Religions which are human inventions ultimately fail to deliver what they most claim to seek universal peace and harmony Instead they always seem to become instruments of conflict and engines of war It must surely be possible to embrace the spirituality in us all while avoiding those things that divide us We've found the cosmos to be a pretty roomy place filled with wonders discovered and yet to be discovered Filled with infinite space Our expanding universe inspires an expanding consciousness which gives us welcome alternatives to territorial ferocity on this tiny turquoise jewel of a planet A New Religion traces the roads from the past that brought us to where we find our world today And it offers hope for tomorrow
