in Eastern Europe

Foreword by Edward Crankshaw

The Kremlins Dilemma The Struggle For Human Rights In Eastern Europe

Yan Bai

The Kremlins Dilemma The Struggle For Human Rights In Eastern Europe:

The Kremlin's Dilemma Sir Tufton Victor Hamilton Beamish, Guy Hadley, 1979 Professional Journal of the United States Army, 1980 **Russia and Eastern Europe, 1789-1985** Raymond Pearson, 1989 Human Rights and Political Dissent in Central Europe Jakub Tyszkiewicz, 2021-12-06 This volume examines to what extent the positive atmosphere created by the Helsinki Accords contributed to the change in political circumstances seen in the countries of Central Europe under Soviet domination It focuses in particular on firstly a consequent new impetus to bolster human rights in international politics as Western democracies especially the US integrated human rights concerns into its foreign policy relations with Soviet Bloc countries and secondly how this Western embrace of human rights seemed to create new incentives for increased dissident activity in Central and Eastern Europe and from 1976 onward Finally the book reminds us of the significant role of the Helsinki Accords in developing democratic practices in Eastern European societies under Soviet domination in 1975 1989 and in creating the conditions for the peaceful transition to democratic government in the years that followed This book will be of key interest to scholars and students of the history of communism post Soviet Russian and central and East European politics the history of human rights and democratization *Quarterly Review of Military Literature*, 1980 **Military Review**, 1980 *The Human Rights Dictatorship* Ned Richardson-Little, 2020-04-23 Richardson Little exposes the forgotten history of human rights in the German Democratic Republic placing the history of the Cold War Eastern European dissidents and the revolutions of 1989 in a new light By demonstrating how even a communist dictatorship could imagine itself to be a champion of human rights this book challenges popular narratives on the fall of the Berlin Wall and illustrates how notions of human rights evolved in the Cold War as they were re imagined in East Germany by both dissidents and state officials Ultimately the fight for human rights in East Germany was part of a global battle in the post war era over competing conceptions of what human rights meant Nonetheless the collapse of dictatorship in East Germany did not end this conflict as citizens had to choose for themselves what kind of human rights would follow in its wake **The Helsinki Effect** Daniel C. Thomas, 2018-06-05 Human rights norms do matter Those established by the Helsinki Final Act contributed directly to the demise of communism in the former East bloc contends Daniel Thomas This book counters those skeptics who doubt that such international norms substantially affect domestic political change while explaining why when and how they matter most Thomas argues that the Final Act signed in 1975 transformed the agenda of East West relations and provided a common platform around which opposition forces could mobilize Without downplaying other factors Thomas shows that the norms established at Helsinki undermined the viability of one party Communist rule and thereby contributed significantly to the largely peaceful and democratic changes of 1989 as well as the end of the Cold War Drawing on both governmental and nongovernmental sources he offers a powerful Constructivist alternative to Realist theory s failure to anticipate or explain these crucial events This study will fundamentally influence ongoing debates about the politics of international institutions

the socialization of states the spread of democracy and not least about the balance of factors that felled the Iron Curtain It casts new light on Solidarity Charter 77 and other democratic movements in Eastern Europe the sources of Gorbachev's reforms the evolution of the European Union U S foreign policy and East West relations in the final decades of the Cold War The Helsinki Effect will be essential reading for scholars and students of international relations international law European politics human rights and social movements

Parameters ,1981 **The Self-determination of Peoples** Wolfgang F. Danspeckgruber,2002 Focusing especially on the era since the Cold War political scientists other scholars and government officials examine both empirically and conceptually the causes and impacts of people striving for self determination and autonomy They consider the legal political administrative ethnic cultural economic and strategic dimensions and try to consider examples from all major regions Annotation c Book News Inc Portland OR booknews com

Britain and the World in the Twentieth Century Michael J Turner,2010-02-26 This is a detailed single volume analysis of Britain's changing position in the world during the twentieth century It places British policy making in the appropriate domestic and international contexts offers an alternative to the more negative decline obsessed assessments of Britain's role and influence in global affairs This book suggests that Britain's leaders did a better job than some historians think Michael Turner in order to understand why they took the options they did investigates their motives and aims within the international environment within which they operated

Britain's International Role, 1970-1991 Michael J Turner,2010-10-06 How does one of the world's greatest powers preserve its status and influence when international conditions are unfavourable and its resources do not match its commitments This was Britain's burden in the 1970s and 1980s when the international order was transformed Much became unsettled and Britain had to adapt policy to suit new needs and opportunities Michael J Turner elucidates the efforts that were made to maximise Britain's role on those matters and in those parts of the world that were of special importance to British strategy prosperity and security He examines key decisions and their consequences and places British policy making in an international context suggesting that British leaders were more successful in preserving power and prestige on the world stage than has sometimes been appreciated

Cultural Politics in International Relations Paul Sheeran,2017-11-22 This title was first published in 2001 Questioning the authority of the discipline of international relations in particular structural realism to recognize the influence of varied social phenomena on possible outcomes this book demonstrates how seemingly insignificant acts propagated through music humour and poetry can disturb official culture and initiate social change This thought provoking work is compelling reading for undergraduate and postgraduate students of both international relations and cultural studies alike

History of Communism in Europe vol. 2 / 2011 Corina Pălășan,Cristian Vasile,2011-01-01

Annals of the Ukrainian Academy of Arts and Sciences in the United States ,1981

Human Rights Quarterly ,1981 A comparative and international journal of the social sciences humanities and law
