Chahryar, UNESCO, 2005-10-03 This major six volume project co published with Macmillan covers the historical experience of the peoples and societies of the Caribbean region from the earliest times to the present day The sixth volume brings this series to an end as it takes in the whole of the modern period from colonial conquest and domination to decolonization the Cold War from start to finish the disintegration of the Soviet Union and the renewed instability in certain areas Not only did the colonial regimes lay a new patina over the region but nationalism remoulded all old identities into a series of new ones That process of the twentieth century was perhaps the most transformative of all after the colonial subjugation of the nineteenth While it has been the basis of remarkable stability in vast stretches of the region it has been a fertile source of tension and even wars in other parts The impact and the results of such changes have been astonishingly variable despite the proximity of these states to each other and their being subject to or driven by virtually the same compulsions **Kyrgyzstan**
