The Land Beyond Time John Olsen,1884 The Land Beyond Time: a Modern Exploration of Australia's North-west Frontiers John Olsen,1984 **The Land Beyond Time; a Modern Exploration of Australia's North-west Frontiers.**

(By) John Olsen with Mary Durack (and Others). Mary Durack,1984 **Settler Colonialism** Patrick Wolfe,1999-01-01

This is a brilliant history of anthropology from its origins in 19th century Europe to the present day Underlying this and closely connected to this meta narrative is the story of European settlement and colonialization of Australia and the distressing history of Australian official policy towards the Australian aboriginal population other colonial enterprises are also examined for instance the book incorporates a discussion of the late 19th century development of American cultural anthropology and its relation to the European settlement of North America He shows how anthropological theory emerged from the political and intellectual culture of Victorian England and to a lesser extent Germany and the United States and examines its relationship to science particularly evolutionary science **Night Parrot** Penny Olsen,2018-09-01 For well over a century the Night Parrot lured its seekers into Australia s vast arid outback From the beginning it was a mysterious bird Fewer than 30 specimens were collected before it all but disappeared offering only fleeting glimpses and the occasional mummified body as proof of its continued existence Protected by spinifex and darkness the parrot attained almost mythical status a challenge to birdwatchers and an inspiration to poets novelists and artists Night Parrot documents the competitiveness and secrecy the triumphs and adventures of the history of the bird and its followers culminating in the recent discovery of live birds at a few widely scattered locations It describes what we are now unravelling about the mysteries of its biology and ecology and what is still left to learn Complemented by guest essays illustrations and photographs from a wide variety of sources this book sheds light on Australia s most elusive bird Cultures of Scholarship Sarah C. Humphreys,1997 Reveals and challenges the barriers to a truly international scholarship People, Print & Paper Michael Richards,1988 The National Library s major public contribution to the Australian Bicentenary was the travelling exhibition People Print Paper Celebrating two hundred years of Australian books this exhibition and the accompanying catalogue bring together a collection of books which gives a fascinating insight into an aspect of Australian life and character which is often overlooked *Landscapes of Western Australia* John A. Scott,1986 **The Riches of Ancient Australia** Josephine Flood,1999 Josephine Flood an authority on Aboriginal heritage sites conducts a fascinating region by region tour into the distant past This invaluable revised edition features current information on site access and is illustrated by many maps line drawings and photographs An indispensable and wide ranging guide it explores the cultural and natural marvels of Australia s prehistoric environment **Drawing in Australia** Janet McKenzie,1986 Lloyd Rees Robert Dickerson Vicki Varvaressos Albert Tucker John Olsen Robert Hughes *Australian Writers, 1915-1950* Selina Samuels,2002 The starting date for this volume is central to Australia s self definition it is the year of the most famous battle in Australian military

history Gallipoli during World War I It marked the first time that Australians fought as a nation rather than part of the British military and the Gallipoli campaign has come to signify a legendary image of the Australian character one who is brave in the face of danger stoic in adversity and loyal to ones comrades A Major Collection of Rare Australiana, Pacific Voyages, and Other Books Gaston Renard Fine and Rare Books,1988 **John Olsen** David Hurlston,Deborah Edwards,2016 Celebrating one of Australias most prominent living artists John Olsen The you beaut country will be the most comprehensive survey of his work to date encompassing seven decades of energised creation The exhibition traces the development of Olsens singular landscape vision from his formative years as a student of abstraction and figuration in Sydney and Europe in the 1950s to the major works of his artistic maturity in the 1960s and 70s and his spectacular re imaginings of the Australian landscape in decades since The exhibition will also highlight Olsens versatility across media featuring along with paintings and works on paper commissioned ceiling paintings tapestries and ceramics drawn from public and private collections throughout Australia

Art and Australia Nancy de S. P. Sibtain,1988 Australian Books ,1985 Australian/New Zealand Literature in the Pennsylvania State University Libraries Nan Bowman Albinski,1989 **The Australian Experience** R. L. Heathcote,1988 The 26th International Geographical Congress the first to be held in Australia was held in Sydney in August 1988 and provided the initial stimulus for this book In it twenty six geographers have contributed essays to illustrate the scope of the unique processes of land settlement and resource management which have taken place on the continent over the last two hundred years The essays cover a wide range of themes from the roles of international political theory international capital and international relations on the one hand to the roles of federal and state governments and the conservation lobby on the other from the attempts to come to terms with the environmental constraints of this wide brown land to the environmental impacts of intensive often destructive resource management and finally from demography to the social role of cricket and the future role of the nation in its region The scope of these essays is a reminder not only of the complex linkages which have created the current Australian landscape but also of the geographers role in interpreting those linkages for contemporary society p 4 of cover **Annual Bibliography** Australian Institute of Aboriginal Studies,1983 Westerly ,1989 Settler Colonialism and the Transformation of Anthropology Patrick Wolfe,1999 Organized around a startling historical reconstruction of the political and theoretical conditions that produced the great anthropological controversy over doctrines of virgin birth this book argues that the allegation that natives do not understand the relation between sex and conception reveals a great deal about European colonial discourse and little if anything about indigenous belief As the author explores the links between metropolitan anthropological theory and local colonial politics from the nineteenth century to the present the specificity of settler colonialism and the ideological and sexual regimes that characterize it emerge with increasing clarity In addition to re reading the history of anthropology and its intersections with colonial power this book obliges us to reconceptualize the heterogeneity of colonialism itself Back cover
