**The Manor, the Plowman, and the Shepherd** Ordelle G. Hill, 1993 By the early sixteenth century the agrarian landscape changed to more pastoral land more enclosures and a decrease in or a rearrangement of manorial lands Increased population and an abundance of labor created economic tensions that caused moralizers to cry out for reform but there is no evidence pastoral lands decreased even by the end of the century In literature the plowman tradition continued to exist in such forms as the remarkable sermon by Bishop Latimer but more often than not it was viewed nostalgically as part of the past and used to address the problems brought about by the pastoral economy of the sixteenth century The plowman can be identified even as late as Spenser's Faerie Queene where he assumes the moral associations of the fourteenth century type and in Sidney where the plowman becomes the unsympathetic buffoon

*Conversational Routines in English* Karin Aijmer, 2014-09-19 It is surprising how much of everyday conversation consists of repetitive expressions such as thank you sorry would you mind and their many variants However commonplace they may be they do have important functions in communication This thorough study draws upon original data from the London Lund Corpus of Spoken English to provide a discursual and pragmatic account of the more common expressions found in conversational routines such as apologising thanking requesting and offering The routines studied in this book range from conventionalized or idiomatized phrases to those which can be generated by grammar Examples have been taken from face to face conversations radio discussions and telephone conversations and transcription has been based upon the prosodic system of Crystal 1989 An extensive introduction provides the theory and methodology for the book and discusses the criteria for fixedness grammatical analysis and pragmatic functions of conversational routines which are later applied to the phrases Following chapters deal specifically with phrases for thanking apologising indirect requests and discourse organising markers for conversational routines on the basis of empirical investigation of the data from the London Lund Corpus of Spoken English

Nurturing a Daoist-Inspired Classroom Pedagogy Through the Contemplative Lenses of Teacher Diaries David McLachlan Jeffrey, 2024-08-01 The harmonizing influence of ancient Daoist philosophy is of much relevance to the world in which we live today and this is especially so in the field of global education Among the growing numbers of contemporary teachers and scholars who nurture Daoist wisdom in their classrooms this book takes the unique pathway of considering its applications through the contemplative lenses of teacher diaries Its South African born author has taught academic English for over three decades in Japan the Middle East and the People s Republic of China Since early childhood he has infused his fascination for Daoist wisdom with his enjoyment of writing diaries and in ways that derive insights into the compassionate frugal and humble foundations of Daoist inspired pedagogies within contemporary classroom environments This book presents Daoist wisdom in terms of it being the Supreme Ultimate of all ways It introduces the classical Daoist texts of the Laozi the Zhuangzi and the Liezi and shares a short historical overview of Daoism with its growing global influence As such it emphasizes that Daoist inspired pedagogies encourage a delicate balance between intuitive insights and intellectual analysis and in ways that are not antagonistic toward each other but which dance together as one In this regard the role of meditation during the undertaking of diaries is specifically highlighted concerning its propensity to bring one into the present moment pacify racing thoughts and transcend the ego It also shows how a meditative state of mind that accompanies the reading writing and analysis of the diary entries contributes to deeper self discernment along with unique intuitive insights related to oneself as a teacher and the classroom environment In addition this book

describes how the Wordsmith Tools Program and the Book of Changes can be used as additional approaches to analyzing thought patterns within the diary entries and how these also nurture inward contemplations and the intuitive insights that accompany them. Thereafter, considerations based on the applications of core Daoist principles for classroom pedagogies are filtered through the contemplative lenses of teacher diaries. These principles are the unintentional integrity of *de*, the complementary duality of *yin yang*, the cosmic vitality of *qi*, the self-so-ness of *ziran*, the unforceful spontaneity of *wuwei*, and the unblemished purity of *pu*. This book illustrates through its diary lenses how these six Daoist principles can be nurtured in ways that contribute to a scholarliness that is grounded in an equal appreciation for the logical applications of intelligence along with the uniqueness of intuitive creativity which cannot be explicitly taught but which spontaneously arises from within the deep reservoirs of intuitive wisdom which exist within the true selves of everyone. In addition, this book shares pearls of Daoist wisdom for teachers from within the poetic chapters of the Laozi as well as within the amusingly enlightening stories in the Zhuangzi and the Liezi such that their ancient teachings can be applied to Daoist inspired pedagogies and nurtured in ways that unite the joyfulness and scholarly efficacy of both teaching and learning. It is shown how doing so enhances a sense of awe, wonder, openness, and contemplative oneness within the classroom environment, making it a happier, more contented, and more meaningful place for both teachers and students.
