

Shakespeare's Language of the Theatre

Shakespeare used language not only to tell the story of his plays but also to let it come alive in the special context of the theatre. Theatres at the time looked very different from theatres today: they were round buildings without a roof over the courtyard and a big part of the audience stood on three sides around the stage, which reached far into the courtyard. The drawing below gives you an idea of what the stage area looked like in Shakespeare's time.

In a theatre like this, you cannot use a lot of scenery to make the audience understand where the action was taking place because you would block the view of some of the people standing in the courtyard. In addition, they could not turn down the lights for scenes set at night. The only source of light was normal daylight, and performances usually started in the early afternoon. In order to make the audience understand where the play is set and at which time of the day the scene is happening, Shakespeare put a lot of information about this into the lines the characters speak.

In addition, the lines also help the actors to remember what they are actually meant to do on stage while speaking them: they mention the props the actors need and they even say what they have to do with them during the scene. For an actor who needs to keep several plays in his mind and who had very little time to learn their part off by heart and to rehearse the play, this is a great help.

City Stage Mike Ingham, Xu Xi, 2005-06-01 City Stage is an anthology of recent Hong Kong English language drama written for Hong Kong performers and audiences All the plays were written in the last ten years and so capture and reflect the fast developing multiculturalism of the Hong Kong scene a somewhat paradoxical phenomenon in view of the 1997 return to China Mainland sovereignty The richness and diversity of the subject matter the wide range of theatre styles from the naturalistic to the highly stylized and quite simply the engaging quality of the dramatic writing all make this anthology both an essential adjunct to the 2001 prose fiction and poetry collection City Voices and at the same time a ground breaking independent record of an incredibly fertile period in Hong Kong's recent creative life history Thematically speaking whilst all plays have their unique voice and subject matter it is accurate to say that the quest for personal and communal identity is a theme that goes to the heart of all present selections The anthology is important in that

it epitomizes the increasing interconnectedness of previously segregated facets of Hong Kong culture indicating the very welcome tendency towards more open dialogue between Chinese and non Chinese practitioners and audiences The anthology contains the complete texts of the shorter plays and strategically selected excerpts from the longer plays All the texts in this collection were written as English language versions for performance rather than literary translations although for some a Chinese language text was also written
