The Last Revolutionary:

The Revolutionary City Mark R. Beissinger, 2022-04-12 How and why cities have become the predominant sites for revolutionary upheavals in the contemporary world Examining the changing character of revolution around the world The Revolutionary City focuses on the impact that the concentration of people power and wealth in cities exercises on revolutionary processes and outcomes Once predominantly an urban and armed affair revolutions in the twentieth century migrated to the countryside as revolutionaries searched for safety from government repression and discovered the peasantry as a revolutionary force But at the end of the twentieth century as urban centers grew revolution returned to the city accompanied by a new urban civic repertoire espousing the containment of predatory government and relying on visibility and the power of numbers rather than arms Using original data on revolutionary episodes since 1900 public opinion surveys and engaging examples from around the world Mark Beissinger explores the causes and consequences of the urbanization of revolution in the late twentieth and early twenty first centuries Beissinger examines the compact nature of urban revolutions as well as their rampant information problems and heightened uncertainty He investigates the struggle for control over public space why revolutionary contention has grown more pacified over time and how revolutions involving the rapid assembly of hundreds of thousands in central urban spaces lead to diverse ad hoc coalitions that have difficulty producing substantive change The Revolutionary City provides a new understanding of how revolutions happen and what they might look like in the future

Reinterpreting Revolution in Twentieth-Century Europe Moira Donald, Tim Rees, 2017-03-14 Until the dramatic fall of Communist regimes in the East placed the possibility of revolution on the agenda once again sudden and decisive political change had appeared a largely anachronistic phenomenon in Europe Looking back over the twentieth century it is plausible to argue that the twentieth rather than the nineteenth has been the most revolutionary of centuries In this volume leading specialists from a variety of disciplines examine the changing and conflicting meanings of revolution in modern and contemporary Europe Contributions include both broad essays on the global and historical context of European revolution and specific case studies reinterpreting a variety of revolutionary experiences *Dispatches From the Revolution*

Morgan Philips-Price, 1997-07-20 As special correspondent for the Manchester Guardian Price was one of the few Englishmen to witness all phases of the Russian Revolution His remarkable writings provide a firsthand account of the momentous events and include his meetings with Lenin and the Bolshevik leaders

MacGregor, 1819 *Where is Britain Going? (Routledge Revivals)* Leon Trotsky, 2013-04-03 First Published in 1926 *Where is Britain Going* focuses on the historical factors and circumstances which were to define Britain's development in the midst of

social unrest at that time The book considers the future of Britain in an age when the working classes were being driven into confrontation with the state under the impact of the world crisis of capitalism Writing over eighty years ago Trotsky concentrates on the decline of British imperialism in his analysis of the Bolshevik Revolution In a brilliant polemic that exposes all the treachery of the Labour leaders in the year before the General strike he recalls the revolutionary traditions of the working class and draws on the historical lessons of the English Civil War and Chartism Rejecting the parliamentary road and stripping bare the pretensions of Fabian socialism Where is Britain going outlines perspectives of revolution which continue to retain their validity

The History of the French Revolution Adolphe Thiers,1854 *Revolution and Counterrevolution in China* Lin Chun,2021-09-28 Over recent decades China has experienced massive change and development China is the world s fastest growing economy and has become a global superpower once again But this development has thrown up a number of seemingly intractable contradictions both political and economic In this panoramic study of Chinese history in the twentieth century and its place in the development of global capitalism Lin Chun argues that the paradoxes of contemporary Chinese society are not simply the product of the development of capitalism or modernity in the country They are instead the product of the contradictions of its long revolutionary history as well as the social and political consequences of its post socialist transition Published to coincide with the 100th anniversary of the founding of the Chinese Communist Party *Revolution and Counterrevolution in China* charts China s epic revolutionary trajectory in search of a socialist alternative to the global system and asks whether market reform must repudiate and overturn the revolution and its legacy

A Social History of Maoist China Felix Wemheuer, 2019-03-28 When the Chinese communists came to power in 1949 they promised to turn society upside down Efforts to build a communist society created hopes and dreams coupled with fear and disillusionment The Chinese people made great efforts towards modernization and social change in this period of transition but they also experienced traumatic setbacks Covering the period 1949 to 1976 and then tracing the legacy of the Mao era through the 1980s Felix Wemheuer focuses on questions of class gender ethnicity and the urban rural divide in this new social history of Maoist China He analyzes the experiences of a range of social groups under Communist rule workers peasants local cadres intellectuals ethnic minorities the old elites men and women To understand this tumultuous period he argues we must recognize the many complex challenges facing the People s Republic But we must not lose sight of the human suffering and political terror that for many now ageing quietly across China remain the period s abiding memory

Civilian Participants in the Cultural Revolution Francis Mok, 2019-11-25 In the ten years of the Cultural Revolution political persecutions violation of rights deprivation of freedom violence and brutality were daily occurrences Especially striking is the huge number of ordinary civilians who were involved in inflicting pain and suffering on their comrades colleagues friends neighbors and even family members The large scale and systematic form of violence and

injustice that was witnessed differs from that in countries like Chile under military rule or South Africa during apartheid in that such acts were largely committed by ordinary people instead of officials in uniforms Mok asks how we should assess the moral responsibility of these wrongdoers if any for the harm they did both voluntarily and involuntarily After the death of Chairman Mao there was a trial of the Gang of Four who were condemned as the chief perpetrators of the Cultural Revolution Besides tens of millions of officials and cadres who were wrongly accused and unfairly treated were subsequently cleared and reinstated under the new leadership However justice has not yet been fully done because no legal or political mechanism has ever been established for the massive number of civilian perpetrators to answer for all sorts of violence inflicted on other civilians to make peace with their victims and to make amends The numerous civilians who participated need to come to terms with the people they wronged in those turbulent years Justice in general and transitional justice in particular may still be pursued by taking the first steps to clarify and identify the moral burden and responsibility that may legitimately be ascribed to the various types of participant This book will be of interest to anyone who studies the Cultural Revolution of China especially those who are concerned with the ethical dimension *Science Fiction and Fantasy Literature*
