Golden Memories of the San Francisco Bay Area Steven Friedman, 2000 San Francisco the flamboyant and cosmopolitan city by the bay and its neighboring municipalities was born to tell stories upon stories Ranging in ages from 68 to 91 the narrators reflect the ethnic and religious diversity of a metropolis that has been a pioneer of several social political and cultural movements They also stretch across both ends of the economic spectrum A Japanese American woman describes the harsh humiliation of internment during World War II while an Irish Catholic man fondly remembers being a paperboy in the same neighborhood for ten years until he was 20 An African American woman from Marin City explains why she'll never sell the quilts she makes Another woman recalls kissing under the Golden Gate Bridge with the man who eventually became her husband The book also utilizes more than 80 photographs from the narrators and the collections of local libraries museums and historical societies to complement the poignant humorous and revealing portraits of the people and places of the San Francisco Bay Area

Jefferson Davis, Confederate President Herman Hattaway, Richard E. Beringer, 2002-06-13 He was one of the most embattled heads of state in American history Charged with building a new nation while waging a war for its very independence he accepted his responsibilities reluctantly but carried them out with a fierce dedication to his ideals Those efforts ultimately foundered on the shoals of Confederate defeat leaving Davis stranded in public memory as both valiant leader and desolate loser Now two renowned Civil War historians Herman Hattaway and Richard Beringer take a new and closer look at Davis's presidency In the process they provide a clearer image of his leadership and ability to handle domestic diplomatic and military matters under the most trying circumstances without the considerable industrial and population resources of the North and without the formal recognition of other nations Hattaway and Beringer examine Davis's strengths and weaknesses as president in light of both traditional evidence and current theories of presidential leadership They show us a man so respected that northern colleagues regretted his departure from the U S Senate but so bent on Southern independence he was willing to

impose unthinkable burdens on his citizens an apologist for slavery who was committed to state rights even while growing nationalism in his new country called for a stronger central government In assessing Davis s actual administration of the Confederate state the authors analyze the Confederate government s constitution institutions infrastructure and cabinet level administrators They also integrate events of Davis s presidency with the ongoing war as it encroached upon the South offering a panoramic view of military strategy as seen from the president s office They tell how Davis reacted to the outcomes of key battles and campaigns in order to assess his leadership abilities his relations with civilian and military authorities and his own personal competency notwithstanding his poor judgment in selecting generals Rich in detail and exhilaratingly told with generous selections from Davis s own letters and speeches Hattaway and Beringer provide the most insightful account available of the first and only Confederate presidency suggesting that perhaps it was the Confederate government rather than Davis himself that failed More than that it shows us Jefferson Davis as an American leader and offers a new appreciation of his place in our country s history **The American Presidency** Sidney M. Milkis, Michael Nelson, 2019-02-12 The American Presidency examines the constitutional foundation of the executive office and the social economic political and international forces that have reshaped it Authors Sidney M Milkis and Michael Nelson broadly examine the influence of each president focusing on how these leaders have sought to navigate the complex and ever changing terrain of the executive office and revealing the major developments that launched the modern presidency at the dawn of the twentieth century By connecting presidential conduct to the defining eras of American history and the larger context of politics and government in the United States this award winning book offers vital perspective and insight on the limitations and possibilities of presidential power The Eighth Edition examines recent events and developments including the latter part of the Obama presidency the 2016 election the first twenty months of the Trump presidency and updated coverage of issues involving race and the presidency
